A NAPOLEONIC DIARY.

An Interesting Relic of the Great Bonaparte Discovered.

PARIS, Jan. 29.—Napoleon is not yet exhausted as a subject for literature. General Baron Gourgaud, the admirable Gergaud, who was the Emperor's secretary and companion during the captivity at St. Helena, kept a diary during his stay on the island. Day after day he noted in it the sayings and doings of the imperial exile, with a thousand and one details of his ordinary conversation that are full of interest and instruction.

For a long time this diary was supposed to be lost, but it has just been discovered, carefully rolled up and preserved in two carefully sealed bottles. It was written on transparent paper.

It will form a voluminous work of Napoleon's captivity when printed. It is to be published shortly, and should furnish fascinating reading if General Gourgaud has profited from his opportunities.

Frederic Masson, who has made the Napoleon epoch his special study, has also published this week a new work called "Josephine de Beauharnais." It gives an account of the life of Josephine before her marriage with General Bonaparte, a period of which next to nothing is actually known.

It tells about her curious education, her still more curious marriage history, their separation, and her existence during the Directorate, when Roche and Barras were her friends.

WEDDING BELLS.

A very pretty wedding took place at St. Mary's church, Sturgeon, on Tuesday 10th inst., at an early hour. The principals were Mr. Donald Jameson, son of John Jameson, Esq., of Sturgeon, and Miss Isabella M. Kiely, daughter of John Kiely, Esq., of White Sands. The nuptial knot was tied by the Rev. William Phelan. The groom was attended by his brother, Mr. Richard Jameson, and the bride by her cousin, Miss Mary E. Smith. After the marriage ceremony the wedding party drove to the home of the groom's parents where a sumptuous wedding breakfast was served which for beauty of arrangement it would be difficult to equal. After doing ample justice to the inner man, a few pleasant hours were whiled away in music and games. About 1 o'clock the bridal party started for the home of the bride's father. On arriving there they were escorted into the dining hall, where a well-stocked table commanded their view. The hours flew by beguiled by music, song and story till the "we sma hours" told the assembled guests, "the hour approaches they man rile," so with wishes for the future happiness of the bride and groom they went their way rejoicing. The bride's popularity as well as that of the groom fully accounts for the grand array of presents. Congratulations.

Grand Tracadie Notes.

The farmers are taking advantage of the good roads to lay in their supply of wood and rails. Ice hauling too is the order of the day.

We are pleased to see our esteemed blacksmith out again and able to attend to his usual duties.

Miss Fleming, who has been visiting friends in the country, has returned to the city again, leaving behind a host of friends who will be glad to welcome her at any future time.

Work on the premises of Colonel Orr has been suspended till spring. The hauling of lumber and brick for the building from Bedford Station will keep a large number of men and teams employed for the winter. The building will be erected beside that of Alexander McDonald, Dalvey, and when completed will add greatly to the appearance of that already delightful spot.

A very successful social and entertainment was held in the large and commodious school room of Grand Tracadie on the night of January 5th. Notwithstanding the inclemency of the weather and prevalence of la grippe the room was packed to its utmost capacity. The programme was all that could be desired and was rendered in a manner highly creditable to all concerned. The baskets were auctioned by Messrs Ready and Brodie. The bidding in some cases was very exciting and testified to the interest the young men took in the welfare of the school. The handsome sum of \$65 was realized. After the sale of baskets hot coffee was served, and the smiles of contentment of the young men gave evidence that each one had found the lady of his choice with something in her basket "good to eat." Our thanks are due to our good neighbours of Stanhope, Suffolk and Pleasant Grove for their kind attendance.
SCRUGGINS.

Hood's Pills
Should be in every family medicine chest and every traveller's grip. They are invaluable when the stomach is out of order, cure headache, biliousness, and all those troubles. Mild and efficient. 25 cents.

The Annual Meeting

Charlotte-town Mutual Fire Insurance Company
Will be held in Farquharson's Building Queen Street, on Thursday, January 28th, 1899, at 7.30 o'clock for the election of Directors for the ensuing year, and the transaction of such other business as may come before it.

KENSINGTON CHEESE FACTORY.

SIR,—In reply to your letter, I herewith give you a statement of last year's work. The factory was in operation almost the full year. The quantities of milk received were for 1 buter, 441,608 making 22,000 lbs buter, value \$4,000.00; for cheese, 2,089,029 making 196,973 lbs cheese, value \$16,572.46; total 2,530,637 lbs milk, value \$20,572.46.

The factory has been in operation for six seasons, when the following quantities of milk were received in each year.

Lbs. milk.	Value.
1893..... 469,807	\$4570.93
1894..... 811,450	7531.58
1895..... 1,036,312	8238.84
1896..... 885,788	7743.88
1897..... 1,971,185	15472.02
1898..... 2,089,029	16572.04

To illustrate the real progress made, we give the average amount received per patron for the cheese season for each year as follows:—In 1893, 91 patrons received an average of \$37.27 each; in 1894, 106 patrons received \$53.63 each; in 1895, 133 patrons received \$42.56 each; in 1896, 108 patrons received \$55.57 each; in 1897, 194 patrons received \$69.74 each; in 1898, 167 patrons received \$75.83 each. Thus in the six years the output for cheese has more than trebled and the return per patron more than doubled.

From the start our people went into dairying with a progressive spirit. In 1894 we adopted the plan of payment on the butter fat basis, and in 1895 we adopted the Prof. Dean's butter-casein plan, being the first factory in the province to adopt these plans. In 1895, he put in a separator and in 1897 a full butter-making plant. For this season we put a second separator and erected a cold storage building with capacity for storing 1000 boxes of cheese. So that we are now in a position to hold our cheese without danger of its suffering by heat.

The patrons are also making efforts to raise the quality of the milk. In 1894, with a small flow of milk, the average test was 3.57, and for 1898 with a very large flow of milk, it was 3.66 and for winter milk 4.00 per cent. The quality of the cheese has always been in favor with the buyers. For the past season we realized an average price of 8 1/2 cents per pound, f.o.b. here, which we think will compare favorably with most of our factories and is the best indication of the quality of the make. Whilst the patrons deserve much credit in their efforts to furnish good rich milk due credit must be given our cheese maker Mr. Raby who has been in charge of the factory continuously since it opened, and not only has his work given entire satisfaction, but his courteous, yet firm manner has done much to make the whole working of the business satisfactory. Again whilst the best has been done for our patrons everytime, the shareholders have not fared too badly, a reasonable dividend has been paid every year, and a surplus of about \$500 placed against depreciation of property, etc.

The annual meeting took place on the 17th inst., and was largely attended, although the day was very unfavourable. The liveliest interest was taken in work of the past year and plans for the future.

The old Board of Directors were all re-elected, except Mr. Henderson who did not wish re-election.

President—Wm McN Simpson.
Vice President—Dr D Darrach.
Directors—Messrs J M Doughart, Wm Mayne, John A McDonald and E J Wright.
Auditors—M A Bowness; and the undersigned salesman.

JOHN ANDERSON, Sec'y.
Kensington, Jan. 26, 1899.

How much business can a man do whose system is in a state of disorder? Headache is only a symptom. It is not a disease. The pain in the head is the sign of rebellion. There have been mistakes in diet and other abuses.

Dr. Pierce's Pleasant Pellets are a gentle, effective renovator and invigorator of stomach, liver and bowels. They assist nature without threatening to tear the body peace-meal. There are no gripping pains, no nausea. One is a laxative.
A book of 1008 pages, profusely illustrated, written by Dr. R. V. Pierce, called "The People's Common Sense Medical Adviser," will be sent free for 31 one-cent stamps to cover cost of mailing only. World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

The Czar of Russia is extremely nervous, and it is hardly to be wondered at when one comes to realize what it means to live in a state of perpetual fear that every moment may be your last, and when every fresh anarchist outrage reminds you that you may yourself be the next victim. When the Czar visited India some few years ago, the weak state of his nervous system was observed on several occasions. One of these was at a nautch given in his honor by a native prince. When the attention of everyone present was fixed on the dancer, a young English officer suddenly clapped his hands out far from the Royal guest the effect was startling. The young Prince sprang from his chair with a shout of terror, and would not believe at first that the noise had been caused by the bursting of a bomb intended to destroy him. It is also said that he got out of his room unobserved one night and stealing to that occupied by an officer in the same bungalow, ordered him to take his place and sleep in his bed, while he himself remained where he was. Although a guard surrounded the house, the heir to the throne of All the Russias was afraid being murdered in his sleep.

According to figures published at Madrid, eighty thousand Spanish soldiers perished, chiefly from sickness, during the last campaign in Cuba.

Success comes to those who persevere. If you take Hood's Sarsaparilla faithfully and persistently, you will surely be benefited.

We have been preparing, days, weeks yes months, for this great yearly Banner Sale.

All White Wear left over from last season to be cleared out at almost half price, at the Banner White Wear Sale next week. Embroideries 4c, 1c, 2c, 3c, 4c and up to the daintiest qualities and patterns at the smallest prices. We know how to make them, at the Banner White Wear Sale.

Look out for the advertisement of the Banner White Wear Sale next week.

Ladies will have an opportunity of seeing the prettiest display of high class underwear ever seen in this city at the Banner White Wear Sale.

Large numbers of Ladies have been expectantly waiting for the initial white wear sale at "My Store."

10 Cases of Goods expected this week for the Banner White Wear Sale.

"My Store" will also show the new things in Ladies' Blouses for spring at their Banner White Wear Sale which begins next week.

Our predecessors Messrs. Beer Bros, where famed for their white wear sales. They were the originators of special white wear sales in Charlottetown. Customers of the old firm will not be disappointed in the handsome display and the great bargains to be had at the great Banner White Wear Sale to be held next week at Sentner, McLeod & Co's, successors to Messrs. Beer Bros.

The Banner White Wear Sale is the finest White Goods sale held at "My Store" and we intend to make it so attractive that it will be long remembered by the lady shoppers.

The men are not forgotten at the Banner White Wear Sale next week.

The baby is not forgotten at the Banner White Wear Sale to be held at "My Store" next week, and we are quite sure the ladies have not been forgotten.

SHEETINGS—Pillow Cottons, Towels, Towelings, and Table Linens will be sold at less than manufacturers prices at the Banner White Wear Sale held at Sentner McLeod & Co's. next week.

HOUSEKEEPERS can buy Linen Goods, Sheetings, Pillow Cottons, White Cottons and Counterpanes at a lower price than the goods were manufactured for. You may ask how can it be done. We bought Messrs Beer Bros. stock at a big bargain and can afford to sell the above mentioned goods at a lower price than they paid the manufacturer for them; that's how we can afford to give such values at the Banner White Wear Sale at "My Store" next week.

You have never seen such a handsome display, and you've never seen such values as will be offered at the Banner White Wear Sale next week at Sentner, McLeod & Co's.

LOCAL COUNCIL.

A meeting of the executive of the L C W was held at P. W. College last Saturday, Mr Anglers in the chair. After Preliminaries the President intimated that she had received a letter from Lady Aberdeen inquiring about the Council and wishing it all success in the coming year.

An communication was then read from N. C. W. C., giving an account of the last executive meeting held in Toronto at which the following matters were brought up.

It was suggested that Poor Laws and their results be discussed.
The N. C. W. C. requests that each Local Council will send the name of one member willing to act on each of the following sub-committees.
(1) Impure literature, (2) Care of aged poor, (3) Work for the unemployed, (4) Immigration, (5) Laws for the better protection of women and children (6) Finance.

Ottawa L. C. W. is working for manual training in schools.

The Nelson Local Council recently formed has established a reading room, free library and recreation rooms.
The doctors of the Insane Asylum, at London, have asked the co-operation of the Local Council in obtaining facilities for surgical treatment for women patients. Many women have been returned to their homes perfectly cured both mentally and physically, by such treatment. A letter from Lady Aberdeen was also mentioned in which she offers to draw up the preliminary agenda for the ensuing year.

After matters sent by the N. C. W. C. were discussed the petition presented to the City Council, anent the cleaning of the sidewalks was brought up. It was unanimously agreed to that an improvement in that respect is visible, but still much remains to be desired.
The desirability of women being appointed as school trustees was also talked over.

Mrs Anderson, Mrs Johnson and Miss Scott agreed to act as members of sub-committees submitted to the Local B. the National Council. Arrangements are in progress for a public meeting of Council to be held on 10th February, in St. Paul's Church schoolroom, at which addresses will be given by some of our best speakers, interspersed with music. The programme will appear shortly.

Rice Cultivation in Russia.

While rice has long been grown in Persia and the Trans-Caucasus, it was almost unknown in the interior of Russia up to 1886, the supply being imported from India, and, as it was naturally subjected to high duty, its use was naturally confined to the wealthier classes.

Russia first commenced the cultivation of rice in the early eighties, and in 1888 a steam rice-cleaning factory was opened at Baku, and 1,612 tons were produced the first year. There has been a steady increase in the production of rice, and there are now five rice-cleaning factories in operation and the annual product is more than 48,000 tons. The demand for rice has increased and it is now generally used by the peasantry throughout the Empire. The quality of the native product is equal to that of the imported article. The residue is utilized, the broken grain being made into starch and the flour is given to hogs.

Intense Cold in Austria.

VIENNA, Jan. 28.—The most intense cold prevails throughout eastern Austria. Two gendarmes have been frozen to death about 10 miles north of Buda Pest. Other cases are reported of peasants overtaken by snowstorms and frozen.

It is reported that Lyman Dart, who shot an Armenian pedlar near Truro in 1897, and was tried for murder, found guilty and afterwards pardoned, is accused lately of robbing and murdering a woman in the States.

King Oscar, in his message to the Swedish Parliament, announces that his country desires peace, and will use its surplus to strengthen the navy. The Czar's ideas have yet a good deal of headway to make before they begin to turn the powers from the idea that the best way of ensuring peace is to have a long sword handy to use on disturbers.

Nature's Own Dyspepsia Cure

Nature's remedies are not like man's—they never fail. Of the many remedies intended to cure dyspepsia, sour stomach, distress after eating, weight in the stomach, wind on the stomach, loss of appetite, dizziness, nausea, impoverished blood, catarrh of the stomach, sick headache, and similar results of indigestion, only one is uniformly and unfailingly successful—that is nature's own remedy, found only in

DR. VON STAN'S PINEAPPLE TABLETS.

The pineapple contains a large amount of Vegetable Pepsin—nature's most potent aid in digesting food. Mix meat and pineapple and agitate the mixture at a temperature of 103°, and the pineapple will completely digest the meat.

Take two of Dr. Von Stan's Pineapple Tablets after your meals and they will digest your food without aid from the stomach. This of course rests, strengthens and heals the stomach. The tablets will cure the most chronic case of dyspepsia. They give immediate relief. Take them for a short time and your stomach will be as strong and hearty as that of a farmer's boy. They are as pleasant to the palate as candy. At all druggists.—35c. a box—or direct from

Merchants Bank of Prince Edward Island.

Notice is hereby given that the Merchants Bank of Prince Edward Island intends to apply to the Committee of the Queen's Privy Council of Canada, known as "The Treasury Board" after the expiration of four weeks from the first publication of this notice in the Canada Gazette, for the Certificate of said Treasury Board approving of the following By-law, which was duly and regularly passed and adopted by the shareholders of the said Merchants Bank of Prince Edward Island, at the Annual General Meeting of the shareholders duly called, and held this 10th day of January, A. D. 1899, viz: "That for the purpose of extending the business of the Bank, the Capital Stock of the Merchants Bank of Prince Edward Island, be and is hereby increased from \$200,000.00 to \$500,000.00 and that the Directors be, and they are hereby authorized and empowered to allot such increased Capital Stock to and among the shareholders of the Bank, pro rata, in such sums, at such times and at such rates as the Directors may from time to time determine."

This application is made pursuant to the provision of section 26 of "The Bank Act."

Dated at Charlottetown, P. E. Island, this 10th day of January, 1899.
