FINNIGAN

Finnigan is an act that is rapidly gaining recognition in Canada. Their unique brand of entertainment has been pleasing audiences wherever they appear.

Finnigan is a musical-comedy act which has three albums to their credit as well as a weekly radio show. They were featured in their own special on C.B.C. television and it was this zany act that "Cheech and Chong" commissioned to be their opening act on their Atlantic Canada tour.

Peter Stony is from Ireland and now resides in Canada. He plays with ease the banjo, fiddle, mandolin, panio, and even the bag-pipes. He studied at the Ulster College of Music and is very respected musician. Peter is also a very accomplished song writer and just recently there was a stage show in Vancouver based on two of the compositions "Vancouver Ladies and Promotion."

Jim Flynn, the man with a thousand faces, plays rhythm guitar. Jim is a veritable warehouse of jokes and stories and has immense abilities of

directing any situation into comic absurdities. He also knows hundreds of songs and performs many from his native Newfoundland.

Both Peter and Jim are of the highest order. They have an uncanny ability of involving the audience in their performance, which provides the audience with fine entertainment, but also with a sense of being part of the performance.

Finnigan are equally at home playing to a family audience or to a stag party. In short, Finnigan is entertainment. So, head on down to the Barn on Feb. 26th and enjoy them. Start off the March Break with a bang. Advance tickets are available at the Barn. Student (including U.P.E.I., Holland College, Nursing, Alumni), are \$3, and Non-Students are \$4. See ya there!!!
