war nothing very important had transpired, although great preparations for a general assault was in progress, and the accounts state that the bombardment of Sebastopol had commenced on the 10th instant, the result of which had not transpired when the Mail left. From the tone of General Pelessier's feelings, the disappointment he expressed in his last attack on the Malakoff and the resources brought to bear in the present struggle together with the spirited determination of the army to retrieve their error, it is most sanguinely expected that this will be the last stand the besieged will be able to sustain, and that the Allies will now place the tricolour, and the British standard side by side on the hitherto invulnerable walls of Sebastopol.

The *Liverpool Journal* says—the French Government are sending out numerous reinforcements, and the British government are embarking troops at Portsmouth, Liverpool, Dublin, and Queenstown. All this is supposed to intimate that something serious, after the seige is contemplated, and undoubtedly the way to force peace is to show a capacity for making war. The foreign legion two is filling up.

The talk on change was, that we ought to have confidence and keep silence; that a terrible affair is pending; that the generals are alive to their responsibility, and will take such means as will remove action from all possible hazard; that the French are within hearing of the Malakoff. the capture of which will be the crowning glory of the campaign—the key to Sebastopol: that Inkerman was ours, but that Malakoff will be theirs; that they will take it as certain as that night succeeds to-day, and that then the place must submit; that probably the news of the victory will enter Paris at the same as her majesty, and that both will be welcome, the more welcome for coming together.

Spain has joined the Western alliance, and furnishes 25,000 men.

Portugal is reported to have done the same, and will furnish 10,000 men.

The *New-Brunswicker* says: "Mr. Cushman, United States Commissioner for the Fisheries, arrived in the *Admiral* yesterday afternoon, on his way to meet Mr. Perley."

THE FISHERIES AT THE NORTH.—A correspondent of the Miramichi Gleaner, writing from Bathurst under date of the 15th Aug., says:—

Altho' the Salmon Fishery proved sadly deficient, the Codfishery has proved abundant and highly remunerative. The quantity caught in the parishes of Caraquet and Shippigan up to the 5th of August, exceeds that of any years since 1848 or 1849. Since that date, bad weather has much interrupted the labors of the fishermen. Mackerel has been tolerably abundant, and herring are now striking in thickly. Altogether the inhabitants have reason to rejoice at the abundance of their harvest both by sea and land.

THE NEWFOUNDLAND TELEGRAPH ENTERPRISE.—We hear that the Company who are about to connect Newfoundland with Halifax, by a submarine telegraph, proposes to furnish the foreign news to the American press in anticipation of the arrival of the steamers, for the sum of about $20 0,000 per annum, or $200 per steamer, calculating that they shall anticipate the arrival of about one hundred steamers a year. The news by the steamer bound to New York could be anticipated several days; and by that to Halifax ten or eleven hours. The cost of the Halifax despatch of foreign news received once a fortnight, is not probably much under $30,000 per annum.

To Correspondents.

"A Merchant."—We must decline inserting your Communication. Censure such as you indulge in is too sweeping and indiscriminate. Charge one price only, and that as moderate as you can afford; be firm and consistent, and the evils you complain of will cure themselves. The system of barter that has so long been in use in every part of the Island is the foundation of this mutual distrust. Fair dealing on the part of the Merchant will produce a corresponding feeling on the part of the customer. A short dialogue between the Shopkeeper and the buyer, seasoned with a little humor, would go further to correct the evil, than whole columns of letters.
