# WESTERN BRIEFS

South Vietnamese troops, alerted to an attack on Viet Cong guerrillas in the Mekong River delta area, run from the helicopter in which they arrived through tall grass to a bunker, pierced a fuel tank. (AP Wirephoto)

# NEW CORPORATION FORMED TO PROVIDE FOR FINANCING

A new corporation, designed to provide working and progressive as well as new Canadian companies with term financing at reasonable cost, has been formed. It is owned jointly by the Royal Bank of Canada, Banque Canadienne Nationale, Montreal Trust Company and the Canada Trust Company. The name of the new corporation will be "Royal Bank of Canada Finance Corporation".

Officials of RoyNat state that initial steps in setting up the new company were taken well over a year ago when the need for this type of financial organization became apparent and urgent. Since that time a team of specialists has traveled widely through Canada and abroad seeking to develop a similar company in other principal cities of the country. Information regarding RoyNat Ltd. will be available in all parts of Canada from coast to coast through more than 100 branch offices of the banks and trust companies concerned, whose managers will be equipped to provide the necessary practical assistance.

# St. Eleanor's Pipe To Arrive Friday

A shipment of 25,000 feet of cast iron pipe, which will be used to provide water service for 100 to 150 homes in the village of St. Eleanor's area is expected to arrive in Summerside Friday from the factory in Ontario.

The pipe will come in dimensions of 6, 8, and 10 inches and weigh 10, 12 and 15 lbs. respectively.

Earl Cameron, chairman of the board of commissioners of St. Eleanor's, said that the two ten inch wells have been completed and pump and electric lines installed over the well sites. He said a large part of the entire program will be completed under winter works projects which will result in considerable saving to the municipality.

Sever and storm drainage were installed about two or three years ago in the village and all but four or five remotely located homes will be served by the new water system which will extend over almost the entire village.

The new water pipe will be additional to 10,000 feet of pipe already installed. The spokesman for the engineering firm of W.H. Crandall and Associates, engineers for the project, said that bids for the supplying the pipe had been received from various companies and it was found that when total costs, including freight, were considered, the pipe could be bought in England and transported here by ship at an overall cost of about 15 percent below the costs of purchasing it in Canada.

The firm of Terman plumbing, heating and electric, who did the drilling of the two municipal wells, have been engaged to transport the pipe from the ship to the local installation where needed for installation which will commence as soon as the pipe is received.

**DIEFENBAKER**  
(Continued from page 1)  
At Westville, he was greeted by some 600 persons, mostly children, at the war memorial. At St. John's, he led the singing of "happy birthday" for Mrs. Elizabeth Conway, 95 Wednesday.

At New Glasgow, he addressed a crowd of about 250 in the skating rink.

He said his government's policy was to provide a "free of cost" for the first time for the Maritime to have hope for the future. He said his government was bringing more and more industry to the Atlantic provinces.

He said Canada and Argentina were on the verge of signing a \$20,000,000 contract for Boreas to be produced at the station where the Froidford government was overthrown.

The contract would have to be renegotiated and he was still negotiating it. That it would be obtained.

After lunch, the prime minister spoke to some 700 students in the gym of the New Glasgow Junior High School.

He talked about color and race discrimination and said that so long as the world suffered such a "curse" of "free of cost" for the first time for the Maritime to have hope for the future. He said his government was bringing more and more industry to the Atlantic provinces.

He said Canada and Argentina were on the verge of signing a \$20,000,000 contract for Boreas to be produced at the station where the Froidford government was overthrown.
