

and that the party who encourage and patronise the publication of such articles as that under review—some members of the party being themselves the writers—are now labouring, might and main, to usurp the Government of this country.

But although we thus recommend and advocate the adoption of the broadest principle of religious equality, as the bulwark and guarantee for liberty in its true sense; yet we by no means recommend the policy of allowing every religious denomination to do as they please in spiritual things—for there are some who would take advantage of this for the final ascendancy of their own peculiar views.

There can be no doubt that liberty demands this, and if liberty was to force the doors of some of those abodes of crime and debauch, there can be no mistake that a revelation would be made sufficient to open the eyes of the most credulous.

JOY TO THE WORLD! I should give a relation of the great benefits I have derived from the use of Perry Davis' Pain Killer. Last summer I had the misfortune to lose two of my children by that dreadful scourge—the cholera—and in all human probability should have fallen a victim to the pestilence myself if a kind Providence had not provided me help in the hour of need.

Strait of Canso, Jan 5, 1859. Sir,—Yesterday several schooners were forced through the Strait into the Gulf of St. Lawrence by the combined force of an east wind, current, and floating ice.

No heavy gulf ice has made its appearance yet. Floating ice made its appearance 24th December, 10 days earlier than usual.

The Scottish Chief, McIntyre, also from Halifax, with goods, was gone ashore on Sunday last, near Little Harbour; she had been some 10 days in the ice.

The Brig, mentioned in your last paper is now off the North coast of Lot 46, about 21 or 3 miles off, and was boarded to-day by a crew from Souris, who state that her name is the Three Brothers, of Quebec, with Flour, no sails bent.

Souris, Jan. 18.—The Brig. Three Brothers, of Quebec, appears to have been driven by the ice from some harbour, as she is in a large field of solid ice, such as makes in harbours; and has a chain out at both bow and stern.
