THE STARVATION GAME.  
New & Clever Confidence Deeds In France  
In Chicago.  
The World's Fair is the center of original enterprise just now, and the unique device for controlling the nimble sixpence are numerous and edifying. One of the sleekest of the deceptions swindling schemes is thus described by our veracious contemporary, the Chicago Tribune: Commissioner Butts, Holiday, Massy and others were sitting in the rotunda of the Palmer House discussing World's fair matters when they observed a tall, lean, hungry looking man in shabby attire standing against one of the gilded pillars on the opposite side of the lobby.

FARM-FIELD AND GARDEN  
TILLAGE OF CORN.  
Drills and Plow Cultivation Compared With Mowing and Check Rowing.  
Many of our progressive farmers, especially in the east, favor drill planting and shallow culture for corn. Indeed, some of the biggest yields on record have been gained under this practice. In a word, the ideal method of tillage of corn, as set forth by farmers whose success entitles them to be quoted as authorities on the subject, is that of flat cultivation and shallow tillage of corn planted in drills.

"Oct. 31, 1892.—Last winter I had a very severe attack of the grip, which left me very feeble and reduced in flesh. I had no appetite and could not sleep.
