Top Hockey News

The biggest sports news in many a day came Tuesday afternoon with the word of the big player trade involving New York Rangers and Montreal Canadiens.

Just about every hockey fan figured that something was bound to break at the time of the NHL meeting but few thought the deals would be as big as the Rangers-Canadians transaction turned out to be.

Apparently both clubs are happy, otherwise they wouldn't have gone through with it. It now appears that the Canadiens wanted to get rid of Jacques Plante and the Rangers were anxious to get them their next customer, Steve Westley, provided they got what they wanted as part of the bargain.

It would seem that they did.

BOTH Plante and Westley are 34 years of age and each net-ply has been Plante's on less than six occasions. Only the great Bill Durnan equaled Plante's Vezina trophy record.

Westley has played with Rangers for nine full seasons and has been the hardest worked goaltender in the league. He has many sensational games to his credit and you'll find many who will insist he is the best in the business.

We figure both Plante and Westley will have good seasons with their new clubs. It surely was no fault of either club that the Canadiens' failure against Toronto Maple Leafs in the semifinals.

Each goaltender has a real challenge for the season 1963-64 as he dons pads for a new club. It sure isn't going to be easy to get them their next customer, Steve Westley, provided they got what they wanted as part of the bargain.

It would seem that they did.

Johnson To Boston

VETERAN defenseman Tom Johnson has been picked up by Boston Bruins after the Canadian removed him from their protected list Tuesday.

Johnson had his troubles with the fans in Montreal and it was certain that he was through with the Habs. The Bruins bid in need of defense strength, grabbed Tom for the silver price of \$250,000.

Altho Johnson's best days surely must be behind him, it is likely that he can add strength to the battling Bruins, who are looking for more depth in the defense.
