

For I dipped into the future far as human eye could see:
Saw the vision of the world, and all the wonder that would be...
Saw the heavens fill with commerce, argosies of magic sails,
Pilots of the purple twilight, dropping down with costly bales:
... Tennyson

MARITIME CENTRAL AIRWAYS, Canada's third largest scheduled airline, and largest air freight operator, wishes to announce the purchase of two giant DC-6A's from Douglas Aircraft Corporation in California, U. S. A.

The Douglas Lift Masters, designed for luxurious long-range travel and cargo transportation, will augment M. C. A's fleet of heavy aircraft, and will be used on the Company's international service, which provides a world-wide service from Canada.

Maritime Central Airways feel that the purchase of these aircraft marks a significant milestone in the Company's progress and the progress of the Atlantic Provinces.

To those who have been responsible, or who have played a part in the initial organization of the first air passenger service and air mail flights to P. E. Island, we bid you welcome to Charlottetown. May your stay in Canada's Garden Province be a happy one.

Progressing with Canada and serving Canadians in every walk of life; M. C. A. today operates in six provinces of Canada, flies millions of miles annually, and carries passengers, mail and cargo throughout North America, Canada's Arctic Northland and Overseas.

In Commemoration of Canada's
First Continuous Daily Air
Passenger and Mail Service
From Moncton to Charlottetown
October 9, 1931
