

Death of Judge Pope.

It is, to-day, our sad duty to chronicle the death of one who, as Lawyer, Editor, Politician and Judge, took, with credit, a leading part in the public affairs of Prince Edward Island.

Judge Pope was taken ill on Saturday, the 27th ult. While out shooting he suddenly became giddy; and he was obliged to call his man-servant to his assistance in order to reach home.

Judge Pope was born at Bedeque in the year 1825. He was the eldest son of the Hon. Joseph Pope. His early years were spent and his education obtained in this Island and in England.

Personally, Judge Pope was a man of genial manners and scholarly tastes. He was a great reader and a good talker. His memory was one of the most retentive.

On the death of the lamented Duncan McLean (April 15, 1859), Mr. Pope became editor of the *Islander*; and he wrote for that paper, with some interruptions, until Mr. Ings, the publisher, retired from business.

His political career was an eventful one. He was in the Legislature as representative of Belfast, and in office as Colonial Secretary, during an eventful period of our history.

Though not an orator, he was powerful in Parliament. No matter how fierce and scathing the attack of the opposition, he invariably preserved a calm and dignified manner, with thoughts well collected for the reply; and he never lost his temper.

In 1873 he was appointed Court Judge for Prince County; and he filled that responsible office with dignity, credit and satisfaction to all concerned till the hour of his death.

During his illness the interest and sympathy of all classes of the community was very evident; and now that he is gone, we feel sure the great sorrow of his family and friends is in some degree, at least, reciprocated by the public at large.

His funeral will take place on Thursday next at three o'clock; and he will rest in the Churehyard at St. Eleanor's.

CHUCKSHANK'S BOTTLE representation attracted a good audience to the Division Room last evening. The story of the Latimer family was well rendered in three parts by W. W. Beer, J. S. Seaman, and J. J. Chappell.

"THE MODEL YOUNG MAN" was the subject of Rev. Robert Wilson's lecture, in the basement of the Methodist Church, last evening. The lecture was a very good one, and was frequently applauded.

Eastern Notes.

TWINE BINDERS.—The Walter A. Wood Co., of Hoosac Falls, N. Y., manufacturers of mowing machines, etc., have been experimenting for the last few days in and around Souris with a newly patented self-binding harvester.

BRUTAL AFFRAY BETWEEN TWO BROTHERS.—One of the most brutal encounters that ever came under our notice occurred near Souris on Saturday last, between two brothers, farmers, who have not been living on the best of terms with each other for some time back.

THE ROADS AND BRIDGES.—Notwithstanding the constant croakings of the Grit press, the roads and bridges throughout the Island were never in better repair than at the present time, as hundreds of farmers can readily testify.

MESSRS. MANNING AND MONTGOMERY.—The *Patriot*, now that Mr. Manning has been relieved of an office he never should have occupied, is very profuse in its praises of the ex-Superintendent of Education.

The Beaconsfield Prediction.

The *St. John Telegraph*, copying the *New York World*, has stated that either Sir John A. McDonald or Sir A. T. Galt was the "highest authority" referred to by the Earl of Beaconsfield when he assured his English audience that Canada was likely to take the place of the United States as an exporter of breadstuffs.

He (the Earl) told his audience that he had nothing to fear from the United States, because the United States themselves were destined to be beaten by Canada in wheat growing. These are his words, and they are well worth quoting: "I feel convinced that when you see circumstances so transitory that the very place of competition is doubtful, and when you hear that Canada expects completely and successfully to beat the United States from the European markets, it is wise for us not to take any precipitate steps."

and this authority stated that when Canada brought its 200,000,000 acres into cultivation, the "market of the United States would be destroyed." The authority thus referred to is doubtless Mr. James Caird. The *World* says, editorially:—Our admirable London correspondent, Mr. L. J. Jennings, formerly the editor, when it last had an editor, of the *New York Times*, informed us, it will be seen, that it was neither Sir A. T. Galt nor Sir John A. McDonald, but on the contrary Mr. James Caird, who gave Lord Beaconsfield the wonderful views as to the decay of American agriculture, with which he has just electrified Buckinghamshire and the universe.

It would appear that Mr. James Caird and Earl Beaconsfield are supported by pretty good authority on this side of the Atlantic. The following telegram appeared in our *St. John* evening papers on Saturday:—TORONTO, Oct. 4.—The British Agricultural Commissioners, now in Winnipeg, were entertained at a public banquet on Thursday evening, the Premier of the Province presiding.

We have, then, three important facts:—1. On the best authority in the United States (for Consul General Taylor has made a study of the subject for many years) "three fourths of the wheat producing territory of the Continent lies north of the boundary line,"—that is, in Canada's North West, Manitoba and Ontario.

It is a fact that the attention of the people of the United States, of the agricultural districts in England, as well as all parts of Canada, has been directed to the Canadian Northwest, and that there is no longer any doubt of emigrants pouring into that country as rapidly as railway facilities can be provided for moving the settlers' crops to a market.

THE Trustees of Spring Park District School require a half-acre of Land for a school site, north of Spring Park and near the Malpeque Road. Offers will be received until Monday next.

TO BUILDERS.—Tenders will be received until Monday next for the erection of a School House near Spring Park. Plan and specifications to be seen at the office of Charles McGregor.
