THERE are some new names on the programme for the Penny Readings, printed in another column. These will no doubt be a welcome addition to the old favorites.

IT five cases of hats is the largest stock ever shown to the people of Charlottetown, what about the large stock of 32 cases just received by L. E. Prowse. Let the people judge who has the best assortment and lowest prices.

MR. E. CARBODY wishes to inform his customers that he is now prepared to supply them with good Oysters. He can recommend them fresh because he fishes all his own oysters. Old stand—Dundas Esplanade. ap29 21-

The priests of St. Joseph's College, Memramook, propose holding a pilgrimage to St. Anne de Beauport, Quebec, in June next. This is the first organized pilgrimage from New Brunswick, and seven or eight hundred are expected to join the party.

A YOUNG lady, respectably connected, entered a Moncton millinery store a few days ago, and after diverting the sales woman's attention in another direction, pocketed a handsome flower. She was seen through a large mirror and compelled to disgorge.

THERE is not a word of truth in the telegraphed statement that Minister Foster told the Dominion Alliance that prohibition could only be introduced as a government measure and that the government could not introduce the bill without courting defeat.

PERCHERON GRADES IN NEW YORK.—Percheron grades are greatly esteemed as city horses. They are patient and kind. In a place where extra work is required they pull like mules until the harness breaks or the load comes. Some writers try to prove that the Percheron is a stupid horse. There is little of such stupidity manifested here.—Rural New-Yorker.

LOOK out for Claire Scott's advertisement on Monday. This eminent English actress (known as the tragic Queen) whose company perform in the Lyceum from Monday, May 9th during the entire week with a Saturday matinee, has received the most flattering testimonials wherever she has appeared. The lovers of the drama have a rich treat in store for them. Plan of hall will be ready early next week.

THREE proposals to celebrate the Queen's Jubilee by providing a public park. The first is an extensive one. It includes the purchase of 100 acres or more along the picturesque Lepper brook, so called, some little distance out of town and commanding magnificent views of the falls, the glen, the gorge, etc. A series of drives to and about this park also form part of the idea. Most of the land owners, it is believed, will donate the land and fight of way.

We are pleased to see that Mr. George A. Laird, B. A., formerly a student of Prince of Wales College, passed a brilliant third year examination at the Montreal Presbyterian College, Winnipeg. In his class he stood highest in New Testament Exegesis, and in Church History, Apologetics and Home's Introduction. He likewise carried off a prize of \$10 for best examination in Old and New Testament exercises. Mr. George A. Laird is a son of Alex. Laird, Esq., of Cayendish, and a grand-son of Mr. John Lockerby, of this city.—Guardian.

We direct the attention of our readers to the advertisement, in our columns, of the Insurance Companies, represented by Penton T. Newbery, who has lately been appointed agent of the Marine Department of the "Royal Canadian," of Montreal, and the "Manheim," of Manheim, Germany, and is now prepared to transact a general marine business. The Royal Canadian Insurance Company is well known in P. E. Island. The Manheim is a Company of high standing, doing a general business in Europe, the United States and Canada. The new shares of this Company, recently allotted to increase the capital, were taken up at a premium of 70 per cent., thus adding largely to its reserve fund, which is now £103,000 sterling.

MR. GLADSTONE was incoherently reported to have said in his speech against Mr. Goschen's budget, Monday evening, that he believed the country was adding \$100,000,000 per annum to her wealth. What he said was he believed the country was becoming richer than ever, that she had added \$100,000,000 to her wealth in recent years.

THE QUEEN'S JUBILEE.—In order to supply the large demand which will doubtless arise for fireworks to celebrate the occasion, Mr. Theo. L. Chappelle has sent a large order to the best manufactory in the Dominion for a general stock of the latest and most approved kinds. It is imperative to do so early in order to obtain the goods as the factories will be deluged with orders. When received at the Diamond Bookstore all parties can obtain assorted cases of twenty designs and over, for \$3 per case and upwards. Handsome illuminated mottoes, etc., will also add to the extensive assortment. Give your orders early.

THE horses Honest Lincoln, owned by Mr. Geo. Tweedy, of this city, and Administrator, owned by Mr. A. Gourle and others, Summer-side crossed over in the Northern Light yesterday and arrived in the city this forenoon. Honest Lincoln who was highly commended at the last shire horse show in London in a class of twenty-five, is a dappled bay, with very little white, stands 16 hands 1 1/2 inches high, and weighs nearly 2,000 lbs. He is by Lincoln, 1,350, and out of Molly Vol IV., by Honest Tom, 1,105, and is half-brother to Chance, the champion mare in England. He was bred by T. H. Miller, Singleton Park, Lancashire. Administrator is a handsome seal brown or black stallion 16 1/2 hands high, and weighs 1,250 lbs. He is the sire of Catchily (2,184), McMahon (2,214), Executor (2,244) Adjutant (2,274), and many other flyers; and his colts and fillies have sold at fancy figures—\$10,000 and less—while for one \$15,000 was refused. Both animals have been inspected by prominent horsemen, and are pronounced all that can be desired. The Province may consider itself fortunate in being able to secure the services of two such horses.

Dalhousie Students.

The Island students have carried off the three gold medals out of a possible four. Five graduates are all honor men, and five are first rank honor men. When it is considered that first rank honors in Dalhousie are so exceptional the result appears all the more gratifying.

Mr. J. C. Shaw, of Stanhope, has obtained 1st rank honor in Classics and the Governor-General's gold medal.

M. J. McLeod of Eldon has obtained 1st rank honors in Mathematics and Physics and the Sir William Young gold medal.

Victor E. Coffin, Mount Stewart, first-rank honors in English Language and History, and the DeMille Gold Medal.

H. C. Shaw, Stanhope, second-rank honors in English Language and History.

Charlotte McNeill, Charlottetown, first-rank honors in English Language and History.

J. C. Shaw was valedictorian for the year, an honor conferred on the best man. M. J. McLeod was pronounced by Prof. McDonald at Convocation to be an ideal student. Victor Coffin is an able writer. Dr. Schurman considered that he would be an ornament to any editorial staff.

Miss McNeill and Mr. Shaw have been very successful in their work.

In fact the Professors of Dalhousie say they never had a better year, and do not expect to have for some time. Surely this is praise.

TELEGRAPHIC NEWS.

(SPECIAL DESPATCHES TO THE EXAMINER.)

NEWS FROM HALIFAX.

Vessels in Distress.

HEAVY GALES

IMMIGRANTS

WESTWARD HO!

HALIFAX, April 29.

Sixteen fishing vessels have already arrived here in distress as the result of the disastrous hurricane which swept the fishing banks on Tuesday.

The weather has been unprecedentedly boisterous on the banks for the month of April, there having been three regular hurricanes. Another heavy south-east gale prevails to-day which will doubtless add to the list of disasters.

Six thousand immigrants landed at Halifax during the first three months of this year, or over five hundred more than landed at Halifax during the whole of last year. Most all went west. They were well supplied with money and the finest class of settlers ever landed at Halifax.

BRITISH PARLIAMENT

Amendments to the Crimes Act.

LONDON, April 29.

The Marquis of Hertington presides over a meeting of Liberal Unionists to-morrow to consider the proposed amendments to the Irish Crimes Act Amendment Bill.

The principal amendment does away with or greatly modifies the clause permitting the crown to change the venue to England in certain classes of Irish cases.

The House of Commons this afternoon went into committee on the Irish Crimes Act amendment bill.

Healy proposed that the word "offence" be changed to the word "crime."

Balfour, Chief Secretary for Ireland, declined on behalf of the Government to accept the change.

Gladstone advised the Government to concede Healy's amendment.

A division was taken, and the amendment defeated by 157 to 120.

Dominion Parliament.

OTTAWA, April 29.

To-day Mr. Jameson introduced a bill to amend the Canada Temperance Act and briefly explained the features of the measure.

Mills, of Bothwell, took this opportunity to denounce the ministry for not taking action toward prohibitory legislation.

The Minister of Justice introduced a bill establishing the office of Solicitor General and defining the duties of that office.

After several bills had passed the second reading, Sir John moved that the bill for the establishment of a Department of Trade and Commerce be read a second time.

On the second reading of the bill giving the Northwest representation in the Senate, Sir John, replying to Mitchell, stated that residents of the territories would receive the appointment. The Premier observed that speculative philosophers might criticize the Senate, and perhaps some day abolish it, but in the meantime the Northwest deserved its share in the representation.

The next hour was spent in a general discussion of the conduct of both parties in the late election, in which dispute eight or ten members took part.

Indians on the War Path.

FORT MCLEOD, N. W. T., VIA WINNIPEG, April 29.

On Wednesday Sergeants Pispioer and Parry from Maple Creek, were fired upon by a large party of Indians supposed to be bloods. Parties were at once sent in pursuit. On Thursday it was reported that the Indians had split up in small parties. A party of bloods also fired on some freighters forty miles southwest of Lethbridge.

Inspector Sanders with ten men started this morning to head them off and arrest them at any risk.

Shipping Disaster.

SAVANNAH, Ga., April 29.

The British steamship Benhope from Vera Cruz for New York, was burned off Tybee Island yesterday. Officers and crew rescued. The Benhope's cargo consisted of 115,000 gallons of crude petroleum. She was built five years ago at a cost of \$153,600.

No Cholera.

WASHINGTON, April 29.

Replying to a despatch from Mexican Minister Romero, the Secretary of Foreign Affairs of Mexico, telegraphed there is not a single case of cholera in Mexican territory nor in Central America.

LONDON, April 29.

The Queen has arrived at Windsor from the Continent.

Weather Bulletin.

TORONTO, April 30—10 a.m.

Strong winds and gales, cloudy to rainy weather.

The Well Business.

MR. JAMES McDONALD, of the Customs, has received the following letter from Mr. B. F. Smith, contractor for artesian and driven wells:—

"There are but few towns and villages where it is not practicable to obtain a good supply of water by the driven or artesian well system. It depends very much upon the nature of the soil and rock, as to the supply as well as the cost, and the water invariably is better than can be procured in any other way, for the reason that if a pipe is driven say, 75 or 100 feet, the water all comes in at the lower end, and there is no chance for surface drainage to get in. If a well is drilled in the rock, all the water comes in from some seam or fissure in the rock.

We do nothing but the well business, and have a large supply of tool and machinery to do with, and are prepared to drive a 1 1/2 inch pipe, or drill an 8 inch hole in the rock. Are now on a contract to supply Mount Auburn Cemetery, Cambridge, with 500 gallons of water from a number of pipes."

The Trades Procession.

A MEETING of mechanics and others interested in a Trades Procession as part of the Queen's Jubilee celebration, was held in the City Council Chamber last evening.

John Newson, Esq., occupied the chair. The meeting was addressed by Messrs. David Fraser, George Garlinier, W. F. Carter, W. Doull, W. L. Cotton, Major Pollard and others. The expression of opinion was unanimous in favor of the proposed demonstration.

On motion the meeting adjourned until Tuesday evening next, when a full attendance of both employers and employes is expected.

W. L. COTTON, Secretary.

Fire at Wolfville, N. S.

AN ISLAND GIRL TO THE FRONT.

A Wolfville correspondent of the Halifax Herald writes: "Another fire took place in Wolfville on Sunday morning last at the Acadia female seminary, which if it had not been discovered in time, we would have had to chronicle a fire equal, if not worse than the one that took place Sunday evening before, when the old academy was consumed. One of the young lady students named Clarke, from P. E. Island, discovered, between 6 and 7 o'clock Sunday morning, on going to the closet of her room that it was full of smoke. She immediately gave the alarm. The professors living near by and the boarders at Chipman hall, were hurriedly summoned, but when they had arrived some of the more venturesome of the ladies of the academy ascended to the roof of the building and had the fire under control. The fire started near the northwest chimney and was caused by sparks from the chimney. Had the fire started at an earlier hour no doubt the total loss of this institution would have taken place, and perhaps the loss of lives. As it was quite a large hole was burnt through the roof."
