Death In B.C. of J. O. MacCallum

Word was received Sunday in this city by Mr. E. D. Nicholson of the death of his brother-in-law, James Oscar MacCallum, who passed away suddenly in Victoria.

Mr. MacCallum was born in Brackley Point and married Lottie Nicholson, daughter of the late Mr. Donald Nicholson ex-M.P. of this city. Mr. MacCallum was a banker here for some time, then went West and settled in Saskatchewan and became very successful. His only daughter married William Rogers, son of the late Benjamin Rogers, formerly of the Rogers Hardware Co.

Mr. and Mrs. MacCallum were very popular here and enjoyed a large circle of friends who will sincerely regret to learn of Mr. MacCallum's passing.

Student Tells Rotary Club Of Visit To Ottawa

"I now understand better how our country is run by a truly democratic system and seeing Ottawa our Capital and the provinces between here and there, has made me feel proud of this nation to which I belong. I am really and truly a Canadian now."

Miss Constance Chandler said yesterday in an address before the Rotary Club at their luncheon at the Charlottetown Hotel.

Miss Chandler, who was chosen as the student sponsored by the Charlottetown Rotary Club to take part in the annual "Adventure in Citizenship", inaugurated and developed by the Ottawa Rotary club in co-operation with other clubs from all parts of Canada.

Miss Chandler described in detail her trip to and from Ottawa and the pleasure derived from meeting other students en route, especially Mary Thompson who represented the Rotary Club of Summerside. In Ottawa, she was the guest of Rotarian Edwin Charleson, Q.C., and Mrs. Charleson, both of whom met her on arrival.

"Adventure in Citizenship" was opened by Mayor Charlotte Whitton who spoke to the students urging the boys and girls of Canada to "stick to our nation and help to develop it rather than go south to the United States, as so many do."

Dr. MacGregor Eason, the originator of the "Adventure in Citizenship" idea, then described the program to be followed for the next four days, which met with much favour.

Discussion groups were assembled each day at Carleton College under the leadership of a member of the faculty. The purpose of the discussions was to acquaint the young people with parliamentary procedure. "This gave us an opportunity to find out how democracy really works in Canada, and it was most interesting to compare ideas with those of a student from say, Alberta," Miss Chandler said.

Enjoyable social functions were taken part in by the students including luncheons and dinners at which outstanding figures in Canadian politics were heard and met: Hon. J. W. Pickerskill, Minister of Citizenship and Immigration, Prime Minister St. Laurent, who presented Citizenship Certificates, and others.

Mr. Neil Matheson, M.P. took breakfast with Miss Chandler in the parliament restaurant and introduced her to many members of parliament and senators, of whom she had heard and read. After breakfast Mr. Matheson "took me on a tour of the parliament buildings and showed me many interesting things there which I had not noticed before, all of which I appreciated very much."

George Drew, leader of the Opposition speaking to the students at a luncheon described the way in which the Canadian north country had been opened

Miss Chandler

by young Canadian adventurers and stressed the characteristics which go towards the making of good citizens: "Faith in God, belief in right and wrong, a sense of civic responsibility, devotion to family, the community and the nation, faith in the future and readiness to prepare for the opportunities which lie ahead."

A visit to the Supreme Court also proved highly interesting. Later the Hon. Judge Abbott spoke to the students when they visited the Eschequer Court, as could not see why when all the machines tendered met with the requirements of the Fire Underwriters, one costing over \$4,000 more than another should be accepted.

Coun. Hutcheson explained that the tender for the LaFrance pumper had been approved after he had seen machines at Moncton, Verdun and Westmont. The Departments in these cities all favoured the LaFrance. It was this recommendation, he said, which had an influence on the committee in making its decision.

His Worship asked Coun. Rogers why it was, if the LaFrance pumper now in possession of the City was so good, it was not being taken to any of the fires in the City. "It has been sitting on the floor for years and not used," said the Mayor.

Coun. Rogers said that the machine was over 25 years old and two of the tires on it were the original ones. He said it could be used in emergency and so far as he knew was able to pump just as good as ever.

Coun. MacDonald doubted the soundness of purchasing a new pumper at this time. He said that the Department could not now send any of its equipment to help the neighbouring areas. He could not be employed to make a recommendation to the City regarding the purchase of a new machine and suggested that Mr. Stanley Matheson be sent to a number of cities and bring back a report.

"I'll go along with his report 100% whatever it is," said Coun. MacDonald.

Practically all of the Councilors had a chance to express their views on the matter and at times feelings were on the verge of running high until Coun. McCormac made a motion that the matter of purchasing a new pumper be left for consideration six months hence.

choosing her as their representative and granting her the privilege of enjoying such an unforgettable experience.

George Walters was chairman of the meeting and introduced the speaker who was thanked by the co-chairman George Rogers for her splendid address.

Lively Discussion Over Purchase Of Pumper At Meeting Of City Council

The motion carried unanimously.

FLUORIDATION
A motion by Coun. Hutcheson to fluoridate the City's water supply was supported by a lengthy report from Engineer Lea of Montreal. The report indicated beyond doubt that fluoridated water in the town of Brantford, Ontario, had shown a decided decrease in the number of children having infected teeth compared to two other cities. The report showed that the cost to the city would be \$13,000 for installation of equipment with a yearly cost for chemicals of \$2,200.

Coun. Johnston congratulated Coun. Hutcheson upon bringing in such a comprehensive report which he said left little doubt regarding the merits of fluoridation, but added "What is this really going to cost?" He understood, that the cost as originally planned would be only trifling amount and warned the Council that if the Water Commission were given the go-ahead to implement this addition to the water supply, they could easily erect a couple of buildings which he understood would be required, at a cost of perhaps \$10,000 a piece. "It is the taxpayers' money we are spending and we cannot keep on spending more money without the taxes going up," he said.

Coun. McCormac said that fluoridation, although it had shown apparent favourable results, was only in the experimental stage and who was there to say that in ten years its benefits would not be disproven. He suggested that the City soft-pedal on the matter until they knew more about it. As a result of Coun. McCormac's remarks Coun. Hutcheson offered to withdraw his motion.

PARK LIGHTS
Coun. Johnston took strong exception to the method used by Coun. MacDonald in having the lights installed in Victoria Park. Coun. MacDonald said that permission had been given for the erection of the lights at a cost of \$8,000 after several of the Councilors had been approached and had placed their signature on the order.

Coun. Johnston, who had objected to this procedure on several previous occasions, claimed that no Councilor or group of Councilors had the right to decide on a matter involving so much of the taxpayer's money without first having called a special meeting. "It is a wrong principle of procedure," he said. Mayor Stewart agreed with Coun. Johnston, stating that no Councilor had ever been refused a special meeting if the reason was justifiable.

A letter from Dr. L. E. Prowse recommending that the City purchase a resuscitator and an offer from the Doctor to give instruction to members of the police and fire departments was read. On motion it was decided to purchase one of the resuscitators which would cost approximately \$450.

CITY SAND
Heated discussion followed a motion of Coun. Hutcheson to accept the tender of Alexis McQuaid for the supplying of a portion of the sand used by the City's Works Department. At a previous meeting, the tender of Mr. Conway had been accepted when it was pointed out that he was the only one tendering who was a property holder.

In a letter from Mr. McQuaid it was stated that although he lived at North River, he owned property and paid taxes in the City of Charlottetown and should not have had his tender rejected. McQuaid's tender was for \$1.60 a ton and Conway's \$2.35. After some discussion Coun. Hutcheson's motion was carried on division with Councilors Johnston, Gaudet, Hutcheson and MacDonald voting for it and Councilors Gormley, McCormac and Rogers against.

Zion Scouts And Cubs In Annual Variety Concert

An enthusiastic gathering of young and old was entertained by the Cubs and Scouts of Zion Church last evening. The program opened with "Flag Break" and "The Grand Howl". This was followed by songs, skits and stunts and an enjoyable camp fire scene.

Prizes were presented to Scouts Sterling and Elmer MacFayden and Cubs Jimmie Stavert and Billy Newell for ticket selling.

Mrs. Arthur Roper who directed the concert was present with a bouquet by Cub Gehrig Roach. George MacDonald is Scoutmaster of the Scout Troop and Garnet Buell, Cubmaster with John Wright and Kay Garunum, assistant Cubmaster. A total of \$88.25 was realized for camping and other activities.

P.E.I. Music Festival Ass'n Annual Meeting

The annual meeting of the Prince Edward Island Music Festival Association held last evening in Prince of Wales College was largely attended. After the minutes of the previous meeting had been read by assistant secretary Mrs. M. F. Rodd, the meeting heard Dr. G. D. Steel, retiring president, who presented his presidential report. In his remarks, Dr. Steel paid tribute to voluntary work of Association members, and expressed appreciation for the coverage of Festival activities given by the press and radio.

Secretary's report as read by Mrs. Edwin Cook and treasurer's report as read by Mrs. Warren Burns were adopted on motion.

Encouraging reports of year's activities were given by conveners of those present who were presented with badges recently won.
