Toronto Stocks

TORONTO (CP)—An early advance turned into a mild decline on the stock exchange Monday in the slowest session in almost four months, volume was 5,400,000 shares, well down from the 6,631,000 shares traded Friday.

The sell-off became sharper in the closing minutes and wiped out the market's early advance. A few industrials, however, moved against the trend.

Steep Rock, Kerr-Addison and International Nickel had small fractional gains among the session's losers. Lake Dufault was the only stock of the lower-priced group, advancing 29 cents to \$2.69 in moderate trading. Preston East Dome added 30 cents at \$6.25.

New Jacquet, New Highridge, Norpex, Milkken, Health and Lake Nordic showed gains, mostly small.

Prices ranged to about 15 cents. New Royran, Merrill Island, Headway, Harrison Minerals and Lake Cinch were among the losers.

Merrill Pete advanced \$1.25 at \$30 in western oils. Canada Southern climbed 40 cents to \$3.90 and Canadian Export Gas 25 cents to \$7.

Index changes: Industrials down 1.57 to 462.43, golds down 13 to 87.24, base metals up .20 to 241.68 and western oils down .58 to 151.88.
