would be well to wash your fruit trees from top to bottom. If you cannot find any thing more convenient, a weak lye made of wood ashes will be good. There will not be so much danger of injuring the trees before the buds start by this preparation. A lye made by a pound of potash to two gallons of water makes a good wash. There are, however, two better preparations than these above mentioned. The first is a Solution of carbonate of soda, commonly called *sal soda*, and the second is a suds made of whale oil soap. We have used the soda, and like it better than the lye of ashes or potash. It is now used a good deal in what are called washing fluids, and the dealers can afford to let you have it cheaper than potash. Put a pound into two gallons of water, and apply it with a swab. We have never seen any damage done by it. It will keep the bark green, and it kills the moss, which instantly changes colour on touching it, and in time scales off. Sometimes apple trees, especially young trees, become plastered over with a species of scales, looking like a minute muscle shell, which stick very closely to the bark. They are the covering to an egg of a minute fly, that lays them there, and they are injurious to the growth of the tree. Soft soap smeared over them will destroy them. Dr. Norris recommends two parts of soap, eight parts of water, and lime enough to make a white wash, which he would apply with a brush. This may be applied any time.—*Exchange paper.*

Disease of Sheep—Sore Mouth. This is supposed by some to be caused by the sheep eating, in the winter season, noxious weeds, for it is that period of the year generally that they are the most subject to it. A correspondent of the Cultivator thus speaks concerning it: "It generally commenced in one corner of the mouth, and spread over both lips, and the lips swelled to the thickness of a man's hand. My flock consisted of about three hundred, and in the space of three weeks about forty died of this distemper, and not one had recovered. By this time, at least one half of the remainder of the flock were attacked. It occurred to me that tar would be as likely as anything to give relief. I accordingly had my sheep all brought together, and filled their mouths, and daubed on to their lips all that could be made to stick; and, to my surprise, it effected an immediate cure. I lost but two or three after this, and these were nearly dead when I made the application. In a few days every sheep was well." The writer, a few years since, had a few of his sheep affected in a similar way, and insomuch as it was confined to but one flock, he attributed it to irritating weeds cut with the hay. The application of tar to their mouths was made, as described above, which affected an immediate cure. Hog's lard and sulphur will also cure the disorder.

The Rumseller's Argument—"But I must get a living," says the rumseller. Very well, my dear sir, we wish to have you do so; but for your own sake as well as that of the community, we want you to do it in some decent manner, and not by demoralizing and destroying your neighbours.

One would sometimes suppose, to hear the liquor dealer talk, that his getting "a living" must be paramount to every other consideration, when the fact is, it would be far better for the community to have him get "a dying" than to continue in his nefarious traffic. The pirate might also exclaim, "I must get a living;" the gambler, the mock auctioneer and pickpocket might echo and re-echo this explanation, but the true response would be, "Get a living by all means but do it in some honest business which shall benefit your neighbour while it supports you" That the rum traffic does not do this is universally acknowledged. Why not then place it in the same category and under the same law with other occupations which operate to the injury of community!

Wine.—There has been an increase in the consumption of wine. Last year, in Great Britain, the consumption was 6,227,-022 gallons, and in Ireland 586,809 gallons; whilst in the preceding year the consumption was, in Great Britain, 5,822,833 gallons; and in Ireland 523,228 gallons.

The Chances of War.—The Life Insurance Companies in England have calculated the chances of being killed or wounded in battle, and fixed the rates of insurance. A party may be insured against "death by accident or violence from any cause, including death in action, for £3 3s, on the £100 per annum; and if to include a payment in case of loss of limb, of half the sum insured, and payable on death, £3 3s. per cent. extra."

R. R. R.

[Wh]at do the Sick Require?

[Tho]se who think.—If sick, if suffering the tor[ture of] pain, or afflicted with long illness, the in[c]onstant hope and most frevent desire is to be [relieved] and cured of the distressing ailment, that [upo]n this principle the R.R.R. REMEDIES are [based.] Instant Relief from Pain, Quick Cure of [Disease], Speedy Restoration to Health, is the great [principle] on which the R.R.R. Theory is predica[ted].

[R].R.R. REMIDIES are worthy of the age. [They ins]tantly relieve the bed-ridden from the most [excruciat]ing pains, and quickly free the afflicted from [the most] obstinate and serious maladies, infusing new [life and v]igor in the shattered and bruised body, and [to ea]ch member and organ of the human system [stre]ngth and power.

[R].R.R. REMEDIES consist of RADWAY'S [READY] RELIEF, RADWAY'S RENOVATING [RESOLV]ENT, and RADWAY'S REGULATORS.

[RADW]AY'S READY RELIEF is for the instant [relief of t]he sufferer from pain, and to check and [stop the] progress of diseases; to disinfect animal, [...]s, and infectious poisons, thus protecting [all who] uses it against all poisonous infection from [...]n, and from sudden attacks of Cholera, Pne[umonia], Ship Fever, Fever and Ague, &c. Likewise for [the grad]ual and radical removal of all pains and dis[ease of t]he Joints, Limbs, Nerves, &c.

[Its fir]st action is to remove the pain, (hence its [succes]s in Neuralgic cases;) its second, to repair [...], as in the case of a cut, or wound. If the [Relief b]e applied after the first little smarting is [over, the] pain is extinguished, and the work of repa[ration n]ow commences. But if the Relief is not [applied] there are many chances to one that the pain [will con]tinue, and an inflamation be set up, and in[stead of] a simple incised wound we have inflamation [and pu]se to contend with. Beside, its direct power [over pa]in, the Ready Relief is the most effectual and [promin]ent "counter irritant" that is known to the world.

[If the]re be a congestion or heaping up of the blood [in any] particular part, occasioning pain and threat[ened inf]lamation or disease, as Sore Throat, Lumbago, [Pain]s in the loins, Pleuratic congestion &c. the [Relief] will be found the most invaluable curative. [By ap]plying it over the adjacent parts, the blood is drawn away from the affected parts, the congestion dissipated and the pain removed at once. Let any one who may doubt this but make the trial. Now, these two properties, its power over pain and its "counter irritant" render it the most valuable remedy for Diarrhœa; and although not an astringent in the popular meaning of the term, yet it stops the pain and arrests the discharge of the most frightful Diarrhœa or Cholera in a short time.

DISINFECTANT.

RADWAY'S READY RELIEF is the most safe and powerful disinfectant in the world—as such, it is a most effectual cure and positive preventative of

FEVER AND AGUE.

So with other fevers and all malarious diseases. Ten or twenty drops, taken internally, in a little water will protect the system against any attacks from infectious and malarious poisons.

PNEUMONIA.

whether Typhoid or Bilious, RADWAY'S READY RELIEF, given internally, and applied over the surface of the body, and the bowels regulated and kept soluble with RADWAY'S REGULATOR, the patent will soon be out of danger, and speedily restored to health. If the R.R.R. Remedies are given, the will save the life of the patient.

RADWAY'S RENOVATING RESOLVENT

is the second of the R·R.R. Remedies. It is for the cnre of old Chronic Diseases that have been lingering in the system for years.

HIGHLY IMPORTANT TO ALL AFFLICTED WITH CHRONIC DISEASES.

For the present, then, let us pass to the consideraion of the RESOLVENT, the second of the three R.R.R. Medicines.

RADWAY'S RENOVATING RESOLVENT is for the cure of Chronic Diseases, of inflammation that is kept alight on fire by some sustaining cause: for the Chemists tell us that inflammiation is a slow concealed combustion. And this cause is a deposit resulting from the inflammation whilst it is in an active or acute condition, for all disease is at one time acute before it becomes chronic. If a person has Chronic Rheumatism, it is the result of a deposit in the fibrous issue surrounding joints; if a person is Scrofulous, these deposits often show themselves in small lumps under the chin and along the neck; if he have a Consumption or Chronic Cough, there is tuberculous matter deposited in the lungs; if Bronchitis, it takes place the Bronchial tubes: if Syphilis, it occurs in every tissue and organ in the whole system, for that disease spares nothing. Now to cure these diseases, these Chronic inflammations, (for it is this in every case.) it is manifest that the diseased deposits must be first removed, the sustaining cause be taken away, and that the impure blood be altered in its condition and rendered pure and healthy.

It becomes necessary, then, that the absorbents be active and the blood be purified. We therefore want a medicine that will act on the absorbents and stimulate them into action, and at the same time purify the blood. Medicines that depend merely on purifying the blood alone will scarcely ever cure Chronic diseases: to ensure success they must at first have the power to stimulate the absorbents, and remove the diseased deposits. The action; of the RESOLVENT is directed first to the absorbents, stimulating them into action, and second to the blood which it depurates by its action over the glands, the liver, pancreas, kidneys &c., which are the sewers that nature has established for purifying the blood. You will, after this description, we hope, appreciate the name we have given to the second of the R. R. R. REMEDIES OF RENOVATING RESOLVENT, It resolves away diseased deposits; it purifies the blood and renovates the system. Tumors are removed and discussed by its operation: Chronic Swellings are dissipated; Nodes are softened and melted away. The most loathsome Skin diseases disappear under its action; Scrofulous constitutions are soon amended, and the disease checked when ever it has attacted the system. Syphilis, with all its horrible train of concomitants, here finds a certain and infalible cure; and Consumption too, oftimes finds its master—Consumption, that prevalent and lamentable disease of the lungs, that is so well known to you all, from its fatal and almost helpless character, and the havoc it produces among the young, the most gifted and the most beautiful of the human race. creeping over our vitals with an insidious yet awful certainty, and consigning to an early and premature grave its yearly hecatombs of victims. Tubercular Consumption is often regarded as a specific disease of the lungs alone. This is a mistake: it is but one of the forms of Scrofula—it is a Scrofula deposit, an inflamation of the lung structure, and could be as readily cured as any other Scrofulous disease—such as Rickets, Hip Complaint, or White Swelling—if it was not for he peculiar structure and action of the lungs in which it takes place.

The lungs expand and contract during every respiration: and from the moment the first breath of life is drawn, until the last guttaral sigh passes from the dying invalid, a never-ceasing action is kept up on their part. It will readily be conceived then, how difficult it must be for an Ulcer of the lungs to heal, where it is continualy kept irritated by the act of breathing.

Understand, then, we do not offer you the RESOLVENT as so certain a cure for Consumption or Scrofula of the lungs, as it is for other Chronic diseases. We believe that it will cure Scrofula in any other part of the body, but from the very nature of the case, this complaint—except in its first stages—is oftentimes incurable; but we can recommend it as the most certain remedy (when taken as directed in our pamphlets) that we posess to arrest its progress, and can point to a large number of cases of Lung Diseases that it has cured.

Such then, is the RENOVATING RESOLVENT What the Relief is to Acute diseases the RESOLVENT is to Chronic; it resolves away the foreign and diseased deposit; it purifies the blood and it renovates the system

NO. 3

We now request the reader's attention to the third of the R.R.R. REMEDIES.

RADWAY'S REGULATORS.

Every pill taker should examine the theory on which the REGULATORS are founded. Every one "who takes pills," will find RADWAY'S REGULATORS the most pleasant and safe Regulator of the Liver, Bowels, Kidneys, and other organs of the system in use

We have hitherto been treating of diseases or inflammation in its acute or chronic state, and its remedies; the RELIEF in one hand and the RESOLVENT on the other. We now pass to the consideration of that state of the system immediately proceeding disease or inflammation, viz: IRRITATION. To allay irritation of the nervous system, and remove its effects wherever it exists, and to aid the RELIEF or RESOLVENT in treatment of inflammation, are the chief purposes of the REGULATORS

But how is nervous irritation the cause of diseases? Because the glands of the system are controled by the brain and nervous centers, and what irritates the brain causes irregularities of the glands; and when the glands refuse to do their work, the foreign matter which it is their duty to remove, is left in the blood, and increases already existing irritations. The glands are sewers of the system and are composed chiefly of the Liver, the Kidneys, the Pancreas, the Salivary Glands, and those of the skin and intestinal canal. Now, a regular and honest action of these organs are indispensable to keeping the blood in a pure and natural state. If we give you poison instead of food to eat you can easily understand that the blood will be-corrupted by it, and diseased action will follow; and it will be just as surely corrupted if the glands do not abstract the worn out materials from it

Again if the kidneys be interfered with in their action, from any irritation whatsoever, why then we have the salts of the urine, the poisonous urea, circulating in the blood, producing headaches, coma, drowsiness. &c.

And, last and most important of all, if any irritating causes interfere with the operation of that great laboratory the Liver, behold the disastrous effects! The bile, instead of passing into the intestines to aid them in their movements, (for the bile is Nature's purgative) is left to circulate in the blood: the bowels, therefore become inactive and the carbuniferous bile (for carbon or charcoal is the chief component of bile) circulating in the blood is the cause of the fevers of the system. The superabundance of the carbon in the blood meeting with the oxygen as it passes through the lungs is slowly consumed, and gives out a superabundance of heat, and this is fever.

RADWAY'S REGULATORS induce a healthy regularity of glandlular action No. Costiveness or Dyspepsia or Indigestion, or Pains in the Side, or Liver, Complaint or Pains in the Kidneys will trouble you if RADWAY'S REGULATORS are taken: and we positively assure all who are afflicted with these distressing complaints that RADWAY'S REGULATORS will cure them

R.R.R. REMEDIES are suited to the treatment and unaided will cure most of "the ills that flesh is heir to." The sanguinary practice of the lance, the cupping glass, and leeches, they entirely dispense with,,and banish forever the pernicious use of that baneful drug, calomel

If you be sick, we advise you to resort at once to the R.R.R. REMEDIES, as the most prompt in their action, the most sure and effectual of remedies.

Instance of diseases prevented, of rapid cures, and almost miraculous recoveries we can furnish you the certificates and credentials without number.

But these may be obtained without merit as well as with it, and, without knowing the circumstance prove nothing to your mind.

The R.R.R. Remedies are for sale by druggists everywhere. Persons desirous of learning more of our REMEDIES, are referred to our FAMILY FRIEND a Monthly paper. A copy will be sent free of charge, to all who will send in their names and address.

RADWAY & Co.,

May 4, 1854. 162 Fulton street, (up stairs) N.Y.

The Laws of Prince Edward Island

FROM 1773 to 1851, both years inclusive—2 vol- Royal 8 vo., with a copious Index; published under an Act of the Colonial Legislature, and carefully revised and consolidated, by Commissioners appointed for the purpose, may be had at the Bookstore of G. T. HASZARD.

Twelvetrees Brothers' Soap Powder

(an entirely new invention.)

IS the cheapest, safest, best, and most effectual article for all washing purposes, a packet of which is equal to ten Pennyworth of Soap!

The saving of Time and Labour is so astonishingly great, that a WEEK'S WASH can be accomplished BEFORE BREAKFAST —no rubbing being required.

This wonderful Article is MORE SERVICEABLE THAN SOAP, as it produces a better and much quicker lather, and is adapted for purposes for which Soap cannot be safely or effectually used.

It will not injure the hands, or the most delicate material; but whilst it is incomparable for permanently whitening Linens, &c., after they have become discoloured by age, or injured by bad washing, it is also unsurpassable for improving the colors of FLANNELS, BLANKETS, WOOLLENS, Colored PRINTS, MUSLIN and LACE.

For Sale by

At the Cattle Show in Charlottetown, the following Premiums, offered by the undermentioned gentlemen, will be awarded, viz;

By Judge Peters, £1 for the best half-bred Galloway Bull.

By Mr. Walkinshaw, £1 for the best yearling Ayrshire Heifer.

By Mr. Walkinshaw, £1 for the best yearly Heifer of any breed.

By Mr. J. D. Haszard, £1 for the best Poll Bull of any age

By Mr. J. D. Haszard £1 for the best Poll Cow of any age.

By Mr. B. E. Wright, £1 for the best two year old Heifer of Alderney breed.

All Cattle intended for Exhibition must be entered at the Society's Depot on or before Saturday the 16th September.

Regulations will be published in a future advertisement.

The same amount of Premiums will be given, to be competed for at Saint Eleanor's, in Prince County, and at Finlay's, Cross Roads, in King's County; the time of holding the Shows to be determined by the local Committees in each County.

By Order,

CHARLES STEWART, Sec'y.

Committee Room, May 3, 1854.

The following letter from the celebrated Dr. James C. Ayer, gives the honest side of the Nostrum question. Since the Public will use these remedies we wish for the sake of suffering humanity there were more of them like his *Cherry Pectoral* and *Cathartic pills*, which requires no secrecy to make them go down.

Lowell, 26th April, 1854.

Messrs —— —— & Co.,

New York City,

Gentlemen:—Yours of the 23d inst., asking me to join in a combination to put down the Ohio Nostrum Bill, comes duly to hand. I cannot accede to your request for the following reasons:

The law requiring that the composition shall be published; of every medicine sold in the State, cannot work to the injury of anybody who deserves pro tection. I have published the recipes of my medicines for fifteen years, and believe this to be the honest way of making their virtues known to the community. The Medical Profession publish their discoveries to the world as soon as made, for the benefit of all mankind. Why should we not? The Law which you fear will destroy your business, can injure only those who falsely pretend to discoveries and secrets which they have not. It will expose the emptiness of such pretensions, and the public will turn aside from such preparations as are found to be worthless when their composition is known. If medicines have real worth, they will be only the better appreciated and the better patronized by laying their composition open to the Public, that all may judge for themselves. If they have not real merit, it is due in common justice, to the suffering sick, to the public health and to the cause of humanity, that the people should know them to avoid them.

Yours Respectfully.

JAMES C. AYER.

New York, 25th May, 1853.

To whom it may Concern,

THIS is to certify that Mr. Samuel Story, jun., is authorised by us to collect all Moneys due us, settle our outstanding Accounts, make sales, and appoint Agents for the sale of Dr. S. P. *Townsend's Sarsaparilla*, throughout the British Provinces, and the Canadas.

NOSTRAND & BACH,

Sole Proprietors and Manufacturers of Dr. S. P. Townsend's Sarsaparilla.

From the authority granted to me by Messrs. Nostrand & Bach, sole proprietors of Dr. S. P. Townsend's Sarsaparilla, I appoint W. R. Watson, Esq., sole and general Agent for the above Medicine for the Island of Prince Edward.

SAMUEL STORY, Jun.

CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtues throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a Remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following:—aud refer further enquiry to my American Almanac, which the agent below named, will always be pleased to furnish free, wherein are full particulars, and indisputable proof of these statements.

Office of Transportation, Laurens R. R., S. C., Aug. 4, 1853.

J. C. Ayer. Dear Sir,—My little son four years old has just recovered from a severe attack of malignant Scarlet Fever, his throat was rotten, and every person that visited him, pronounced him a dead child. Having used your Cherry Pectoral in California, in the winter of 1850, for a severe attack of Bronchitis, with entire succes, I was induced to try it on my little boy. I gave him a tea-spoon-ful every three hours, commencing in the morning, and by ten o'clock at night, I found a decided change for the better, and after three days use he was able to eat or drink without pain.

Its use in the above named disease will save many a child from a premature grave, and relieve the anxiety of many a fond parent.—For all affections of the Throat and Lungs, I believe it the best medicine extant. A feeling of the deepest gratitude, prompts me in addressing you these lines,—but for your important discovery, my little boy would now have been in another world.

I am yours, with great respect,

J. D. POWELL, Supt. Trans., L. R.R.

Rock Hill, (Somerset Co.,) N. J., July 21, 1852.

Dr. J. C. Ayer,—Since your medicine has become known here, it has a greater demand than any other cough remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best they can say of it, is not too much for the good it has done, I take pleasure in selling it, because I know that I am giving my customers the worth of their money. and I feel gratified in seeing the benefit it confers.m

Please send me a further supply, and believe

Yours, with respect,

JOHN C. WHITLOCK.

Almost any number of certificates can be sent you, if you wish it.

Windsor, C. W., June 26, 1852.

J. C. Ayer. Sir; This may certify that I have used your Cherry Pectoral for upwards of one year; and it is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless remedy.

Yours very respectfully,

D. A. McCULLIN, Attorney at Law.

Wilksbarre, Pa., September 28, 1850.

Dr. J. C. Ayer, My dear Sir,—Your medicine is much approved of by those who have used it here, and its composition is such as to insure and maintain its reputation. Invariably recommend it for pulmonary affections, as do many of our principal physi cians.

I am your friend,

CHAS. STREATER, M. D.
