EVANGELISTIC.—The Men's Meeting in the Y. M. C. A. Hall yesterday was crowded to the doors, indeed, large numbers had to turn away. Evangelist Bliss is evidently intended for the great work in which he is engaged, and in which his labors are so wonderfully blessed. The singing under the direction of Mr. Clark gave additional inspiration to the meeting. A good impression was made.

FRANCE and England wouldn't be without it for the world. Canada is fast feeling that way too. The great L'essive Phenix, the marvelous washing solution. The common powders and the common ashes, which the housewives had to use, have now fallen into the contempt which is their proper portion. L'essive Phenix is a synonym for beauty. Beauty of hands in the wash; beauty of clothes when washed, beauty of the skin when used in the bath. You use it for all kinds of washing; and then you use it for all kinds of cleaning and scouring. A boon to tired, worn women. sp5 2i

EVANGELISTIC SERVICES.—Mr. Bliss, the Evangelist, and Mr. Clarke, his musical director, arrived here on Saturday evening. On that evening a special meeting of Christian workers was held in the Y. M. C. A. parlour to welcome the visitors, but they were tired after their trip and did not attend. Rev. Mr. Hamlyn led the service of prayer. The services yesterday began with a mass meeting in the Y. M. C. A. Hall in the morning, a meeting for men only in the afternoon, and another mass meeting in the evening, after the services in the churches. All the meetings were very successful. The attendance was large, and many persons could not obtain admission. It has been decided to hold the services hereafter in the First Methodist church in order to accommodate all who may wish to attend.

TELEGRAPHIC NEWS.

NOTES FROM THE CAPITAL.

The Question of Indemnity.

Mercier Men Hold the Grit Fort.

OTTAWA, Sept. 7. The chief talk among the members on Saturday was the extra indemnity. According to law the members draw seven dollars per day as the session progresses, and at prorogation get the balance, after a discount of eight dollars per day for time lost is deducted. It is said that several members, some on each side of the House, have declared they will not remain after their pay is stopped.

Governor Schultz may be a bad man and a boodler, but his accusers in the Public Accounts Committee on Friday failed miserably in their attempt to make out a charge against him.

The Mercier men maintain the ascendancy in the opposition party here. They have so effectually suppressed the element which denounced Mr. Pacaud when the discovery of the \$100,000 steal was first made, that the latter only call their souls their own by sufferance.

New Armaments.

Impregnable Halifax.

HALIFAX, Sept. 7. The Imperial troopship Tyne arrived on Saturday from England, via Bermuda, and brings ten big guns for the Canada to replace the armament hitherto carried by that ship, which were of the same class as the guns which recently exploded on the H. M. S. Cordelia on the Australian station, when a number of officers and men were killed.

Two monster turrets are being built on the gigantic new forts being erected on York redoubt and McNab's Island, and when these are completed Halifax harbor will be impregnable.

The Quebec Steal.

A Crisis Approaching.

QUEBEC, Sept. 7. Those who know state that Lieut.-Governor Angers is constantly closeted with the Secretary, and is believed to be preparing for the crisis which is certainly near at hand. The further Mercier's friends go with their defence the deeper they sink into the mire.

Great Crops Out West.

WINNIPEG, Man., Sept. 7. A letter received here to-day from Edmonton, dated Sept. 1st, states that at the date named the harvest was more than half over, and that all the remaining wheat and barley, and nearly all the oats were then ripe. There has been no frost, and the grain and vegetable crops were so eminently satisfactory that Agricultural Society was preparing a carload to compete for the various prizes at the coming agricultural show at Winnipeg. It is confidently predicted that there will be over 50,000,000 bushels of wheat in Manitoba this year that will not show the slightest trace of frost, and will be included in three grades, No. 1 and two hard, and No. 1 northern. This estimate is for Manitoba alone, and half as much more will be gathered in the Territories.

Fishery Bulletin.

(Fisheries Intelligence Bureau Report.) HALIFAX, Sept. 7.—Quebec—No fishing at any stations excepting Perce, Newport Point, and Paspébiac, where the codfishing was fair. P. E. I.—Mackerel fair on the west shores of Tignish and Alberton. Hake and caplin good; cod and mackerel fair off East Point. Cape Breton—Hake plentiful, haddock fair, and a few cod at Port Hood. Cod fair and a few mackerel at East Cove. A few cod and mackerel at Ingonish, about one and a half quintals of cod per boat at Louisbourg. Cod and herring fair and some mackerel at St. Peters. Nova Scotia—Cod fair at Canso; haddock good and herring fair at Digby, but no cod seiner. "John Kennedy" arrived at Digby to-day, from St. Mary's Bay, with 125 blbs. shad and 175 blbs. mackerel, and reports the "Emma Small" and others doing well. New Brunswick—The cod, herring, mackerel and sardine fisheries, reported good at Campobello. Bait squid reported plentiful off East Point, P. E. I., and at Campobello. Four Bankers baited within the last two days at Arichat, C. B.

The recent storms have half ruined the crops throughout Scotland, and the harvest is at a complete standstill.

A matrimonial alliance between the czarwitsch of Russia and Princess Marie of Greece, his cousin, will be formally announced in the near future. The match will be arranged during the czar's visit to Athens.

Visit of Prof. John Robertson.

The Dairy Industry of P. E. Island.

THE visit of Professor John Robertson, of the Experimental Farm, Ottawa, to this Island during the last month, must be productive of much good to those interested in the manufacture of butter and cheese. The Professor, on his arrival at Charlottetown, visited the Cornwall cheese factory, made cheese with his own hands, and thus practically imparted useful knowledge to those willing to learn. In the evening of the same day he addressed a meeting of farmers at the same place. He went to New Perth the following day, where he was met at the residence of Mr. John Hamilton by a number of intelligent farmers, whose many questions relating to the subject of cheese making were answered by the Professor in a satisfactory and skillful manner. The meeting on the evening of the same day at the schoolroom was well attended, and many important questions bearing on agriculture generally were discussed in a friendly and profitable manner. The following day, August 1st, the Professor was the guest of the Hon. George Forbes of Vernon River, where a large meeting, attended by over two hundred ladies and gentlemen, was held at the hall in the evening. This was certainly a representative meeting of the people in that beautiful section of the country. The Professor, during the following week, addressed public meetings at New Glasgow, St. Peter's Road, Cavendish, North Milton, Park Corner, Summerside, Crapaud Hall, Kensington and Hamilton Hall, all of which were presided over by leading agriculturists, and well attended by farmers and others, with their wives and daughters. It may therefore be truthfully affirmed that Professor Robertson's visit and the cordial reception given him cannot fail to produce beneficial results. On leaving the Island, he expressed himself much pleased with the general prosperity indicated, and said that if the farmers of this Island would wake up to the possibilities within their reach, they would double their incomes and double their exports within five years by dairying with the right kind of cows in the right way.
