## Mr. A. G. Finlayson Struck on Chest By Belting

Adam G. Finlayson, 45, of Peakes Road was fatally injured about noon yesterday when he was struck on the chest by a piece of belting at Joseph Kelly's sawmill at Bangor Road.

Mr. Finlayson had been having some work done at the mill and had just entered the building when a large belt flew off a pulley. The pulley apparently had had its size increased by having leather belting wrapped around it, secured by three bolts. When the drive belt came off, the wrapping on the pulley broke into three pieces. One struck Mr. Finlayson on the chest near the heart. The blow doubled him up, but he staggered outside before collapsing. However, he was dead when Dr. M.N. Beck of St. Peter's arrived.

Another piece of the pulley wrapping was reported to have pierced boards in the ceiling of the mill. An inquest was ordered by Coroner Dr. Beck, and a jury impaneled. The hearing adjourned last evening to await the results of a post mortem which is scheduled for today at the Cutoffs Funeral Home in Charlottetown. It will be conducted by Provincial Pathologist Dr. Harold Shaw.

Mr. Finlayson was unmarried and lived alone. He was a son of the late Mr. and Mrs. Peter Finlayson. Survivors include brothers, Nathan and Leroy at Bangor, P. E. I.; Jack in Boston, Mass.; and sisters, Mrs. Howard MacKay at Bangor and Rachel in Boston.

The inquest last night was adjourned until May 29 at St. Peter's Hall. Members of the coroner's jury are: Aldus MacKenzie, foreman; Harry J. Green, Donald C. MacDougall, George MacLean, Freeman M. MacDougall and John H. MacDonald, all of Bangor. Funeral arrangements had not been completed last night, pending arrival of relatives from Boston.

## 938 Canadians Reach Seattle From Korea

SEATTLE, May 22—(CP)—The largest force of Canadian troops—938—to return from Korea through the Seattle port arrived here today on the transport Gen. Simon B. Buckner.

The Canadians made up more than half the passenger list on the big United States navy transport. Two bands and a group of Scottish-dancing girls greeted the returning soldiers at the pier.

The commander of the Canadians aboard, Lt.-Col. Gordon G. Corbould of New Westminster, B. C., declared of his own battalion: "They did a darn good job. They never lost any prisoners and never gave up any ground."

Corbould was commander of the 2nd Battalion, Royal Canadian Regiment, which left Seattle for the Far East 13 months ago. He commanded the Canadian reinforcement group in Japan before going to Korea five months ago to command the battalion.

The commander, who served in Europe in the Second World War, said the fighting in Korea was no

## Burglars Cut Holes In Steel Doors With Torch

VAL D'OR, Que., May 22—(CP)—East Malartic Mines, Ltd., today announced the theft of four gold bricks, valued at more than \$100,000, from the company's vault on the outskirts of this Northwest Quebec mining centre.

T.V. Netherly, manager of the mine, said an acetylene torch had been used to cut through two steel doors and release the locks to the company's vault in which the bullion was stored awaiting shipment.

He said the break-in and theft occurred sometime last night. The bricks were carried to the road outside the mine fence and placed in an automobile.

Burglars Well Informed  
Gold is seldom kept overnight in the vault as pouring is started in the morning with the operation completed in time to put the bricks aboard a late day train from Montreal.

In this case, however, there was a heavy pouring and the operation was not completed until the train had left.

Police Chief Arthur Robillard of nearby Malartic termed the break-in and theft a "well-organized burglary by people who knew the layout and who knew what was going on at the mine from a criminal's point of view. Nothing was overlooked."

The burglars used an acetylene torch to cut a hole in the steel doors large enough to admit them and to allow them to get out with the gold.

They took the torch and fueling tanks from the head frame of a lower-level building that rises over the shaft of the mine and moved them nearly a quarter of a mile to the mine refinery where the vault is located.

Discovery of the robbery was made today by employees reporting to work.

Few Clues  
Chief Robillard said few clues were left but he believed the car that took the gold used a highway leading to Ontario.

The last bullion robbery in the district was April 2, 1947, when two bricks, owned by Sigma Mines (Quebec) Ltd., and valued at \$41,000, were stolen at Val d'Or Canadian National Railway station as they were about to be placed aboard an express car.

Two men were later caught confessed and served time for the theft.

## Active Year Reported For Scouts Council Association

Ten awards were made in "Plan Achievement" which resulted in the general raising of the standards of training. Groups receiving awards were: (Continued on Page 8 Col. 6)

## 212 Nominate In B. C. Election

VANCOUVER, May 22—(CP)—A total of 212 candidates today filed official nomination papers for the June 13 British Columbia general election. The number is the largest on record.

In the scramble for the 48 seats are 46 Liberals, 48 C.C.F., 47 Progressives Conservatives, 17 Social Credit, eight Christian Democrats, six Independents, five Labor-Progressives (Communists), two Labor and one Social Party of Canada.

The Progressive Conservatives nominated in all except Fernie riding, held for the last 32 years by the Liberal-Labor pact. Tom Uphill, Social Credit, placed candidates in all except Atlin constituency, now held by the C. C. F.'s Frank Calder, only Indian member of a Canadian legislature.

The Christian Democratic Party, emerging on the political scene at the last minute, is running eight candidates in the party's Vancouver ridings. The party said it is for minority rights for education and thus would support the separate school aims of the Roman Catholic Church. The party added, however, it is non-denominational though all its candidates are Roman Catholics.

## Vital Statistics

OTTAWA, May 22—(CP)—Births and marriages increased during February over the corresponding month a year ago, while deaths decreased the Bureau of Statistics reported today.

Births during the month increased to 28,887 from 27,672 a year earlier while the total for the first two months of this year rose to 58,499 from 46,882 in the first two months of 1951.

Marriages advanced to 6,881 from 5,468, but declined to 11,535 from 11,644 in the two-month period.

Deaths dropped to 9,746 from 11,214 in February, 1951, bringing the two-month total to 20,834 from 21,876 in the first two months of 1951.

## Canadians Eating More Pork; Beef Surplus Up

OTTAWA, May 22—(CP)—Agriculture economists said today that Canadians are eating less beef but more pork this year and the result may be the surplus of between 40,000,000 and 50,000,000 pounds of beef for 1952.

The estimate of surplus was contained in the May edition of the Agriculture Department's Review of Canadian Agricultural Conditions.

The economists who prepared the report forecast for 1952 increased beef slaughtering of about 50,000,000 pounds, down about 278,000,000 from last year's 778,000,000. If the surplus amounts to no more than 50,000,000 pounds it likely will be quickly absorbed in the tripartite Canada-United Kingdom-New Zealand meat agreement under which Canada will ship a minimum of some 40,000,000 pounds of meat mostly beef, to Britain this year.

The initial shipment, about 900,000 pounds, already is being loaded aboard the Empress of Scotland at

## Russia Makes Stiff Protest To Iranian Gov't

MOSCOW, May 22—(Friday)—Russia, in a stiff note, has protested Iran's acceptance of American military aid and warned that it works against good relations with Moscow.

The note was delivered by Foreign Minister Andrei A. Vishinsky to the Iranian ambassador here yesterday. It charged that by taking American military aid Iran had violated the Soviet-Iranian treaty of 1921.

The Soviet note was published in all leading newspapers today.

## Predicts Full Control Of Prison Camp Soon

KOJE ISLAND, Korea May 22—(Friday)—(AP)—Communist prisoners retained control within the barbed wire enclosure of this prisoner-of-war camp today, but are weakening under a firm show of force by battle-tried U.S. troops.

With an ultimate showdown inevitable, Gen. James A. Van Fleet, U.S. Eighth Army commander, visited both Koje and the prison hospital camp at Pusan Thursday and said the situation "looks very fine today; there has been a great improvement."

Van Fleet told a press conference on Koje: "I believe it is just a question of a short time when the prisoners will conform to all the orders of the camp and will be under complete control within their compounds."

At Pusan, on the mainland 27 air miles to the northeast, he praised American troops who regained control of the hospital compound Tuesday.

At the Pusan camp, one prisoner was killed and 86 were injured when U.S. troops took charge of

## 'Blue Prince' Slated For Drydock At Pictou Today

The freighter "Blue Prince" is expected to go into drydock at Pictou today for examination of damage suffered when she ran aground off Malagaash, N.S., early Sunday morning during a fog.

The 690-ton ship was refloated Wednesday when the powerful tug, Foundation Josephine, succeeded in towing her off the rocky ledge where she had been resting in only a few feet of water. Previous lowering attempts by the C. G. E. Saurel and tug Glenlivet II had failed to move her more than a few feet before the hawser snapped under the strain.

The livestock being shipped from here to Newfoundland and St. Pierre were being removed from the ship yesterday and placed in the Exhibition grounds at Pictou. They were reported to be in good condition. The length of their stay in Pictou will depend on the extent of the damage to the Blue Prince although it was believed in Pictou that only her rudder was damaged. However, drydock officials there refused to predict when she would sail again.

If the ship must remain for several days, it is expected that another ship will be sent to Pictou to carry the livestock to their destinations. In this event the balance of the cargo, consisting of general farm produce, will probably be sent forward by rail.

Of the cattle on board at the time of the grounding the largest number, 52 head, were shipped from here by Wellington McNeill and Son who annually send large numbers to St. Pierre and Newfoundland. Mr. Alfred McNeill went to Pictou to examine the condition of the cattle shipped by his firm.

In this connection Mr. Wellington McNeill pointed out that "We must have a boat at once to take care of livestock shipments from Prince Edward Island." He believed the Province should have one large enough and with sufficient accommodation to take care of all the needs of shippers here.

His interest in shipping facilities stems from the fact Mr. McNeill said, that his firm ships approximately 80 percent of the cattle sent from here to Newfoundland and St. Pierre.

## Commissioners Chosen At Lively Parkdale Meeting

Five additional Commissioners were elected in the village of Parkdale last night during a special meeting of ratepayers called for that purpose. The lively meeting developed considerable discussion which at times threatened to defeat its own purpose.

Elected for a three year term was Mr. Edwin Cook, former commissioner who resigned at the last annual meeting. Named for two year terms were Mr. Ramsey Douglas and Mr. Glen Ramsey, while those elected for one year terms were Mr. Harry Hennessey and Mr. Ernest Lord. The other commissioner, Mr. Maurice McAleer, was previously elected.

The gathering first considered the election of two commissioners to replace those who had resigned in February. There were four nominations finally. First nominated was Mr. Wellington Dixon, but his nomination was later declared out of order due to the ineligibility of his

## Reports Vast Changes Taking Place In India

The four miracles taking place in India today as a result of the Christian influence were outlined last night by Rt. Rev. C. K. Jacob, Bishop of Travancor, when he spoke to a large group gathered in the Baptist Church.

Bishop Jacob represents the Church of South India which was inaugurated five years ago through the union of a majority of the major Protestant communions in that country. Miracles he mentioned was the "Miracle of the Mind" which has resulted in intellectual development and enlightenment for a large number of the people. The second was the "Miracle of the Mass Movement" which is breaking down the centuries of barriers of the caste system. Today members of certain groups are holding responsible positions when formerly their forebears were not allowed to walk in company with persons of a higher caste.

The "Miracle of Mercy" he said, was described by one Hindu who wrote in the visitors' book in a Christian hospital, "you have taken the dust from under our feet and made them into shining jewels of health and hope."

In speaking of the formation of his own Church of South India, Bishop Jacob described it as the "Miracle of the Marvel of Christian Unity." Led by the spirit of God those who represented the various denominations subdued their own prejudices, removed their creedal barriers, and became united in a secure bond of Christian Brotherhood.

During his closing remarks the visitor from India urged a more active witnessing of the enlightenment.

HALIFAX, May 22—(CP)—Official forecasts issued tonight by the Dominion Public Weather Office here and valid until midnight Friday, with an outlook for Saturday.

Synopsis:  
Skies were overcast throughout the Southern Maritimes during the night, with intermittent rain and drizzle. Strong winds were blowing in some places. In the northern part of the district the weather was cloudy with light winds.

The storm causing the rain was centred south of Cape Breton and was moving slowly eastward.

As a result the weather will gradually improve Friday and considerable sunshine is expected in the western regions.

Indications are that a disturbance now over the United States Midwest will cause increasing cloudiness over the western part of the district Saturday.

Regional forecasts:  
Prince Edward Island—Intermittent drizzle and light rain ending about noon. A few sunny intervals in afternoon, clearing by evening. Warmer. Northerly winds 15. Low and high Friday at Charlottetown 42 and 58.

Summary for Friday—Rain in morning, clearing in evening. Outlook for Saturday—Sunny.

High tide today at Charlottetown at 9:50 a.m. and 11:18 p.m. High tide on the North Shore at 4:50 a.m. and 6:10 p.m. Sun rises today at 4:36 a.m. and sets at 7:48 p.m.

Torhorrow being Victoria Day and a public holiday, the next issue of The Guardian will be Monday, May 26.
