THE DAILY EXAMINER.

OCTOBER 18, 1893.

A SUICIDAL POLICY.

According to the report of his speech to his supporters assembled at the Lyceum, the financial policy of the Government is one of "drift on," "drift away." The inevitable result of this policy must be to precipitate the Province over the cataract of financial ruin into the cauldron of Maritime Union, in which our Provincial independence will be lost. But, in point of fact, the Premier is not content with merely drifting. In practice, the Government is actually propelling the ship of state towards the dangerous rapids. We are having another application of the "Dashaway Policy." In every district in which it is hoped that a Government supporter may be returned, public money, obtained upon public credit, is being lavished without stint. Wherever it is pretended that a new road is required, there a new road is being opened for the convenience of this or that voter. Mercier was accounted a great boodler; and the effects of Mercier's "operations" are now being felt by the heavily-burdened taxpayers of Quebec. But the operations of Mercier were not larger, proportionately to the size and financial resources of Quebec and those of Prince Edward Island, than those of the Peters combination. It is rumored that the Provincial elections will be held before the end of the current year in order that the accounts of the year may not be available when the electors vote.

VERNON RIVER CHEESE FACTORY.

A visit to the Vernon River cheese factory is well worth the time required to make it, if one is at all interested in the welfare and progress of our farmers. The factory in operation is an object lesson where one may see the benefits derived from the efforts of the Dominion Government and the labors of the staff on the Experimental Farm. Although this is its first season, the output of cheese by this factory will be about one hundred thousand pounds, and the cash value about ten thousand dollars. This is quite an item when added to the exports of a farming community, and the money, being received during the summer months when cash as a rule is scare in such places, enables the farmers to avoid to a certain exten the pernicious credit system. The advantage of selling the products of their farms in a concrete form and the return made to the soil by following the dairy system, is, perhaps, after all, the strongest argument in its favor. By the use of ensilage in winter, and peas, vetches and corn fed green during the summer months, the stock of milch cows might be more than doubled on many farms, while the increased fertility of the land would, in a short time, admit of more being added. With the opportunities available in this line and the generous help of the agricultural department, our farmers should be quick to follow up the start now so well begun. To the farmers of Vernon River it is scarcely necessary to tender this advice, for, blessed with a fertile soil, fine stock and the largest and best fitted factory in the Province, they are justly proud of their success, and in future they should strive to maintain the lead which they now justly hold.

To do this it may be at times necessary to enforce the laws which have been enacted in regard to this industry. As there are black sheep in every flock, so almost everywhere some men will be found who, for the sake of a few cents' gain, will so lower the quality of their milk as to seriously affect the whole. An evil of this kind soon spreads, and unless an example be made of the first it may be harder to punish the last. So also, as has been done this season, the system of rewards for those furnishing milk of a high quality should be continued; or, better still, the patrons might be paid according to the quality as well as the quantity of the milk furnished.

NOTES AND COMMENTS.

—Mr. Kemp has suggested some more stringent regulations in respect to oyster fishing. But it is one thing to suggest, and another thing to have the suggestion adopted.

—The Premier returned to the Province last evening; but whether or not he has succeeded in his mission, and when the election is to take place, are points as to which we have not yet been enlightened. It was reported about town to-day that the election will be held between the 20th and the 25th November.

—Concerning the late Dr. McSwain, the San Jose Daily Mercury says: "Dr. Angus McSwain, a well known and highly esteemed resident of Santa Clara, died at his residence on Franklin street shortly before 7 o'clock last evening after a long and lingering illness of a complication of diseases. The deceased had the reputation of being one of the best doctors in America. He was born at Prince Edward Island in 1847, and while in his boyhood he entered the McGill College at Montreal, Canada, where he graduated with high honors. He afterward entered the Medical Department at the Harvard College, and graduated in 1871. A widow and six children survive him."

—The St. John Sun points out that pork is being bought in New Brunswick by the carcase and sent to Montreal to be packed. At the same time, large quantities of pork are being imported into New Brunswick from Ontario and the States. The Sun remarks that "this does not appear to be good economy on the part of New Brunswick. There is no reason why the people should ship pork in carcass and import it in barrels, when they have the privilege of eating their own pork, thus saving the two freights, and retaining within the province the industry of packing and its profits. It is also pointed out that we have the advantage of cheaper salt and can produce barrels at less cost than in the west."

Two More Gold Medals.

It must be gratifying to the manufacturers of "Sunlight" Soap to find their goods so splendidly appreciated in the Canadian market; and it must also be pleasing to them to receive the highest recognition at Canadian exhibitions for the superior quality of their soap. At the recent Fall Shows held at London and Ottawa, "Sunlight" was rewarded a Gold Medal, which brings their gold medal list up to 14. Added to this grand record is the important fact that "Sunlight" is used in Windsor Castle and in the Royal Laundries, and owing to the excellence of their soap, the manufacturers have been specially appointed soap makers to the Queen.

For sick headace, sour stomach, loathing of food, dyspepsia or billiousness, take Hawker's Liver Pills. They will cure you. Recommended by leading physicians as a most reliable medicine. .....

POLITICAL AMENITIES IN NEWFOUNDLAND.

Newfoundland papers are always spicy; and now that there is an election contest to be fought out, they are brimful of literary cayenne pepper, wormwood, gall and brimstone. As samples of the weapons used in the fray, we quote the following from the Evening Herald:

"The Telegram announced to us yesterthat 'A. A. Parsons, Esq., the *very* popular editor' of that paper, had gone to St. Barbe. 'The very popular editor!" No, friend; no scoundrel is popular.' No man can be accorded this distinction who has attacked church and state, religion and its ministers, public men had leading citizens, who has violated the sanctity of men's home, and heaped abuse on delicate ladies, and held up to public ridicule the most sacred circumstances of home life. With equal justice might it be said that the veriest jail-bird, who picks oakum or makes brooms in the penitentiary, is very popular. The second fact is announced that Parsons goes to unfurl the Whiteway standard in St. Barbe. Has Sir H. V. Whiteway indeed sunk so low as this? Must he accept A. A. Parsons as a member of his party? How are the mighty fallen. Where is the man of 21 years of age and over, living in Newfoundland today, who does not know that A. A. Parsons

BLACKGUARDED SIR W. V. WHITEWAY

as no man was probably ever abused before? Where is the woman who did not give expression to sentiments of sympathy with the female members of Sir W. V. Whiteway's family, as they, and everything they revered, were made a mockery of? Where is the child, who, in its first attempts to spell, did not imbibe the knowledge that Sir W. V. Whiteway was "a glaring beacon of consummate crime," "a pestiferous political parasite," and "the greatest sectarian firebug which ever disgraced this country." And now Whiteway accepts him as a candidate. If no regard for

HIS OWN REPUTATION

could have induced Whiteway to reject this man, surely the record of Parsons in connection with other leading men for the past twenty years, was so black that a Premier with any sense of dignity would feel disgraced at association with him. What about the Y. M. C. A. funds? Was it not Parsons who tried to bribe and then traduce the Rev. J. Ladner? Was it not this same Parsons who vilified the Rev. F. R. Duffil and the late Rev. Geo. Boyd? Was it not this Parsons whose insults to the memory of the late Bishop Field aroused the indignation of every churchman in the Island? Was it not this same Parsons who insulted and abused His Lordship Dr. Power and the priests of the R. C. Church? Was it not this same Parsons who defamed the Rev. W. Graham? Was it not this same Parsons who has been the deadly enemy of religion and honor in this country the past two decades? Like the coward he is, Parsons kept his candidature a secret, fearing an outburst of public indignation. Rumour, it is true, pointed him out, but the decencies of life refused credence to the statement that he went as a 'Whiteway' standard-bearer."

From this it may easily be inferred that Mr. A. A. Parsons is a man of weight and influence. It is pleasing to note, too, that our Mr. Bowers is taking rank among the public men of "ye ancient colony," for we read:

"The irrepressible Bowers took the stump at the Hallaren meeting Friday night. The more democratic element didn't want to listen to him, and one hornyhanded son of toil said: "We don't want to hear that old gas-bag."

NEWS NOTES.

Parasitic bronchitis has been found in the lungs of calves near Kingston.

Geography as a science was introduced into Europe by the Moors about 1240.

Efforts are being made in Toronto to establish a company for the canning of dead meat.

The product of Canadian coal in very recent years has increased from 2,091,976 tons in 1886 to 3,623,076 tons in 1891, with an increase in value from $4,017,225 to $8,144,247.

Of $30,000 in live stock prizes offered at the Chicago World's Fair, the Canadian farmer will pocket $14,000. He won this in competition with the agricultural interests of a country thirteen times as big as his own. *L'Electeur* and those other Liberal papers which think he is the poorest human being alive will please take note and amend their views. The Canadian farmer is the best in America.

Large beds of oysters have been discovered in the Pacific waters off Alaska. It had been thought that the water was too cold; but there are places where it is warmed by the Japan current which modifies the temperature of the Pacific Coast more than the Gulf Stream does that of the Atlantic Coast. The Alaskan oysters are pronounced a very superior variety, much better than the small oysters grown near the coast of California.

Some American stables have won large sums of money this year. The heaviest winners with their earnings up to date are: J. R. & F. P. Keene, $282,987; M. F. Dwyer, $96,210; R. Croker, $92,672; J. A., A. H. & D. H. Morris, $69,965; Marcus Daly, $68,032; Gideon & Daly, 62,750; Rancocas stable, $62,045; Oneck stable, $52,410; W. C. Daly, $52,074; Brown & Rogers, $51,075; P. J. Dwyer & Son, $46,937; J. Rupert, jr., $41,977; Blemton stable, $38,300; Fleischman & Son, $30,251; W. M. Barrick, $29,830; Walcott & Campbell, $27,972; Empire stable, $26,737; Washington stable, $26,335; B. McClelland, $25,795; F. Lowe, $23,305; W R Jones, $20,700.

The Emperor William has given orders that tests be made of the seaworthiness of the comparatively new Imperial yacht Hehenzollern. She has been ordered to proceed to the Harbor of Christiansand, and to wait there until a heavy sea is running outside. She will then put to sea, and every test known to nautical science to determine seaworthiness will be made. It is not known that any question has arisen regarding the safety of the yacht in a heavy sea. The Emperor is often accompanied by the Empress and their children whon he makes trips on the Hohenzollern, and it is generally believed that the test has been ordered for the purpose of making assurance of their safety when at sea doubly assured.

Personal

Gonoud the composer is dead.

Mr. and Mrs. C. C. Gardner were among the passengers in the Fastnet to-day.

Mr. W. M. D. Pearman, of Halifax, arrived here last night on a business trip. He left for Summerside this afternoon.

A. J. McLean and wife, of Pennycross, Scotland, are registered at the Hotel Davies.

Mr. C. R. Pickford, of the firm of Pickford & Black, Halifax, arrived here last evening. He is registered at the Hotel Davies.

At the Hotel Davies this forenoon there were registered: J C McKay, Souris; Miss O'Brien, Georgetown; Miss Morrison, do; Miss Burke, do; Master Burke, do; Geo L Dunn, Cardigan.

Rev. J. M. McLeod, who has been visiting his many friends throughout the Province, left this morning for his home in Vancouver, B. C.

H. K. McLeod, Eldon; Dr. Byers, Charlottetown; Mrs. Munroe, Georgetown; Miss Munroe, do, were registered at the Queen Hotel to-day.

Testing His Honesty.

Your druggist is honest if when you ask him for a bottle of Scott's Emulsion he gives you just what you ask for. He knows this is the best form in which to take cod liver oil. .....

"WHEN TRIBULATION PRESSETH, WE MUST CALL UPON AND BLESS GOD."

IN MEMORY OF MY DARLING MOTHER.

Taken from the chapter, "Conduct in Tribulation," in "Imitation of Christ."

Blessed, O Lord, be Thy holy name,
It has pleased Thee this trial to send;
I cannot escape it, but fly unto Thee—
O Lord, to thy dear will I bend.
Thou knowest, O Father, my heart is disturbed,
And in great tribulation I mourn;
With this present suffering afflicted I am,
All hopes of my heart seem gone.
And now, beloved Father, I turn unto Thee,
O save me, send comfort and love;
That Thou mightest be glorified here upon earth,
Thou this trial hast sent from above.
O Jesu, be merciful—here give me strength
That my courage and faith may not fail
May I feel Thou art near me, yea, even at this time,
From my tear-bedimmed eyes lift the veil.
May the dear one who left us alone at Thy call be for us as a guiding light,
To point us to Heaven, that bright home of love,
Where we learn there's no sorrow or night.

MARY MCMAHON.

LETTERS TO THE EDITOR.

THE DASHAWAY POLICY—AGAIN.

Sir,—You are taming down the Patriot some for the past few weeks, although it has yet a strong political carnivorous appetite for Mr. Blake and the member for New Perth, Mr. Shaw. I venture the assertion that these two gentlemen are more in harmony with the interests of the agricultural portion of this Province than the six grit lawyers now seeking election, and for whom the Patriot is labouring to secure their return.

What has become of the Patriot's "reformers" of past years? When they get into power we see no reform. The present boodle combination has no more claim to the term reformer than the Queen of Madagascar has to the crown of Great Britain. The real reformers of to-day are those who are casting off their connection with the Patriot and the Government. The state of matters in the Belfast District at the present time is too barefaced for many of the former supporters of the Government to countenance. The "Petty Jacks in office," and they are legion, from the "Chief Engineer," down to the lowest overseer who consents to canvass for the Government, seem to have full control of the revenue. New roads are surveyed, compensation is paid, and more promised, beyond all reason. People are employed and set to work, and in nine cases out of ten the money is absolutely wasted, and the members, Forbes and McDonald, seem to pay no attention to the advice of at least some of those who placed them in power. As for Hector McDonald, he has been politically dead for some time past, but while the Hon. George Forbes holds a seat in the Government, we will hold him accountable for all the misappropriation by the Public Works Department in this district, and he will find when the day of reckoning arrives, his load will be too heavy to bear before his former constituents. "Weighed in the balance and found wanting" will re-echo from one end of this district to the other. Mercier at one time thought that his government was beyond defeat by squandering the revenue of Quebec. Where is he to-day? And are the people of Belfast, Liberal and Conservative, going to follow a government with such a "dashaway" policy? No, never.

ANOTHER DISGUSTED LIBERAL.
Belfast District, Oct. 12th, 1893.

CANADA AT THE FAIR.

The Big Cheese Stands a Good Test—Canadian Notes.

Ontario fruit at the World's Fair is now conceded to be the largest and finest exhibit in the Horticultural Building. Seven districts of the Province are represented with individual exhibits of apples, pears, peaches and grapes. These districts are Huron, Grey, Simcoe, Belleville, East Wentworth, Burlington and Niagara.

The big cheese was tested on Saturday by the World's Fair judges, A. F. McLaren, of Windsor, Ont., and Messrs. Barber and Perley, of the United States. A 33-inch tryer was used, the cheese scoring 95 out of a possible 100 points. It was sound to the rind, clean and of good flavor, notwithstanding the excessive heat of the past summer.

LITERARY NOTES.

Marion Crawford opens up a new line of thought in his article entitled "Rome, the Capital of a New Republic," appearing in the October Cosmopolitan. It is not likely that the October number will have the success which attended that for September. The extraordinary spectacle was presented of a 12½ cent. magazine selling for 50 to 75 cents, and many hundreds were even sold at $1.00 each. Probably the record remains without a parallel, in periodical sales, of a number proving so interesting that, after 211,000 copies had been sold, the News Company had orders for 50,000 more than they could supply, while dealers in various parts of the country, discovering the esteem in which the magazine was held, immediately raised their prices to double, treble, quadruple, and in many cases to eight times the regular price. The publishers do not yet know what their real circulation is owing to the limited capacity of their presses; but machinery is being put in place which will supply an edition for December exceeding 300,000, and during that month it will be possible to determine just how many Cosmopolitans the public will buy.

DIRECTUM'S SENSATIONAL MILE.

Directum, the most sensational trotter of the year, accomplished his greatest feat at Lexington, Ky., on Wednesday, winning the Free for-All in sensational time. He went faster in each mile making the fourth in 2.08, which is now the race record for trotting stallions. The average time of the contest, 2.08¼, is about two seconds below anything ever seen before in that number of heats. Directum was a 10 to 1 favorite, and there was no betting against him after the first heat, in 2.09¼, till he was beaten the next time by Pixley, 2.08¼. The mare had made two breaks, gaining by both, and then was only a neck ahead of the colt at the finish, so that the decision was against the rules of trotting. Directum was tired this heat; the talent got scared and hedged at 2 to 1 on the the field, but the wonderful youngster rallied and landed the race in the next two heats. He lapped Pixley to the homestretch in the third mile and then beat her cleverly in 2.08¼, trotting the last half in 1.03½.

The fourth heat was the most marvellous exhibition of endurance shown by a trotter, for, after going to the three quarters in 1.37, Directum rushed home in thirty-one seconds, leaving Pixley six lengths behind. Arion went against time, and reduced his record to 2.07¼ by the aid of the official timer, who gave him at least a quarter of a second the best of it. A host of competent horsemen noted the mile 2.08¼ and a few had it at 2.08.

The official fraction time by quarters is: 32¼, 31½, 32¼, 31¼. This is the fastest mile in harness ever credited to a horse in that state.

Captain John R. Hire, of schooner Lillian, says: "I was suffering with inflammation of the chest, brought on by exposure at sea. Took a good supply of Puttner's Emulsion, which perfectly cured me. It has given me a new set of lungs. .....

DIED.

At Santa Clara, Cal., on the 20th ult., Dr. Angus Macswain, aged 45 years, a native of Prince Edward Island, leaving a wife (daughter of John Winsloe, of Rustico) and family to mourn their loss.

At Malpeque, on the 1st ult., Annie McConnell, in the 31st year of her age, wife of John H. Peake, leaving a husband and four children to mourn their loss.

At Northam, on the 13th inst., H. J. Folland, merchant, aged 51 years, leaving a wife and several children to mourn their loss.

Drowned, while boarding his vessel, the schr. A. T. Davison, of Parrsboro, N. S., at Rio Grande do Sul, Brazil, on July 2nd last, Frederick E. Linkletter, son of Jas. R. Linkletter, Summerside.

Hand-Made

Goods are the most reliable. When a man wants a new suit of clothes he does not want one that has the appearance of having been cut in a sausage machine and put together in a "sail-loft." Leave your order with us and get a stylish, well-made suit. If you order a suit elsewhere you will make a mistake, and the cutter will likely make one too. Watch the best dressed men: they are our patrons

D. A. BRUCE.

The flowers that bloom in the spring, tra la,
Have nothing to do with the case;
'Tis the soft summer showers that spoil the fine gowns,
Then the ladies give Rigby first place.

Probably no invention of the present century has contributed so much to the comfort and convenience of the public as the Rigby process of rendering ordinary cloth waterproof without affecting the porosity, texture, feeling or appearance of the fabric in any way.

RUBBER COATS

are a thing of the past, and Umbrellas are gradually going into disuse. Men and Women can now walk the streets in their Rigby Coats or Wraps during the heaviest rainstorm without the least discomfort, and the beauty of a Rigby is that it is just as good for fine weather as any other coat.

Nearly everyone you see wears a "Rigby," but you would not know it was waterproof from its appearance.

Be sure you ask for "Rigby." Write the name down in your hat, so that you won't forget it. Every dealer handles "RIGBY."

TELEGRAPHIC.

SPECIAL DESPATCHES TO THE EXAMINER.

A Village Destroyed.

FREDERICTON, Oct. 18.

The village of St. Mary's, just across the river, was almost wholly destroyed by fire yesterday. About twenty-five houses and ten shops have disappeared. Not a building is left standing from the bridge for a distance of a hundred yards on both sides of the street.

Intercolonial Cricket.

TORONTO, Oct. 18.

The Australian-Canadian cricket match was won by the former. The score of the Australians in one inning was 298, and of the Canadians in two innings 228.

The Bicycle.

SPRINGFIELD, Oct. 18.

W. W. Windle, in an attempt at the five mile bicycle record, reduced the three mile mark of 6 min. 49 1-5 secs. to 6 min. 43 secs., but fell behind the record on the fourth mile and stopped.

The Manitoba School Case.

OTTAWA, Oct. 18.

The Manitoba School case was argued before the Supreme Court yesterday. Judgment is reserved.

TELEGRAPHIC NEWS.

NEW YORK, Oct. 16.—The Herald's correspondent in Quito, Equador, writes under date September 22nd: "Hundreds of families are dying in Southern Equador, owing to famine caused by failure of coffee and coffee crops."

LONDON, Oct. 16.—Most of the collieries in Lancashire, Deobyshire and Yorkshire were reopened to-day for men willing to accept the 15 per cent. reduction in wages. Only the collieries where the old wages are paid are working.

NEW YORK, Oct. 16.—A despatch from Bath, N. Y., says Ingham University, one of the oldest and most famous female colleges in this country, having been founded by the Ingham sisters at Leroy, Livingstone county, in 1835, is advertised at sheriff's sale to satisfy a $40,000 mortgage, which has been foreclosed.

OTTAWA, Oct. 16.—The minister of marine received the following flattering latter to-day:

LONDON, October 5th, 1893.

Dear Sir Charles Hibbert Tupper:

"I beg to congratulate you very heartily on your newly acquired and well deserved dignity. If it is not impertinent on my part I should like to take this opportunity of saying how thoroughly and with what earnest ability and tenacity you fought throughout the long controversy, which resulted in the Behring sea arbitration for the interests of your country. I have the right, however, to say for myself how much I appreciate in connection with my own part of the work, your zeal, courage and ability. With kind regards to Lady Tupper, believe me, dear Sir Charles, faithfully yours.

(Signed), CHARLES RUSSELL.

MONTREAL, Oct. 16.—Blackboards on "change" were steady to-day and so were the saces of those who looked at them. The Chicago figures were the centre of discussion, and those showed that wheat had dropped to 62⅞ cents for December and 70 cents for May. No one attempted to explain why it was so, but all were surprised at the extraordinary low figures. One man said there was too much wheat in the world that much higher prices need not be looked some time yet unless something unforeseen turned up. However, the market made a grand rally this afternoon and at the close was quoted in Chicago at 64¼ cents for December and 71⅝ cents for May, a cent better than the opening for the former month and 1⅛ cents better for the latter month.

MADRID, Oct. 16.—It is understood an understanding has been reached between France and Spain on the Morocco question, and that in consequence the loan of $75,000,000 that the Spanish minister of finance unsuccessfully endeavored to float in Paris in June will now be issued under the tacit approval of the French government.
