Chandler and other capitalists of New Brunswick have applied for an Act of Incorporation for the Dorchester Tanning and Boot and Shoe Company, with a capital of \$20,000, in shares of \$100 each. Another evidence that leading Grits like Sir A. J. Smith as well as Conservatives are fast giving in their evidence in the most tangible manner in favor of the National Policy.

There are those in Charlottetown to-day, whose parents, sons, brothers and relatives are enjoying the sweets of office under Sir John's Government, and at the same time are making use of their positions to abuse and misrepresent every act of that Government at whose bountiful table they partake of their daily bread. Surely, common decency should teach those officials, at least, not to act the part of political firebrands. It is not enough for those to whom we allude, it seems, to occupy positions to which in justice they are not entitled, but, in addition to that, they must add insult to injury by doing all in their power, by word and deed, to injure the very Government which feeds them. FRESH SALMON, Halibut, and Cape Cod Cranberries for sale at the Fish Market, Cranston Street. WHAT will make a man or woman more gross or ill-natured than a severe attack of rheumatism? What will effect a cure so promptly as the Great German Remedy St. Jacobs Oil? Mr. William Davidge, related the following significant facts bearing upon the above query, to a representative of a prominent Philadelphia Daily. "My father, the old comedian, now with Hill's Troupe, has been very enthusiastic about the powerful effects of St. Jacobs Oil in rheumatic cases for some time past. He had been a great sufferer from rheumatism for years, and no treatment he received appeared to do him any good. I heard him sometime since praising St. Jacobs Oil, and he appeared to be delighted with after that I had a bad rheumatic attack myself, caused, I think, by exposure while travelling, and remembering what my father had said about St. Jacobs Oil was strictly true, for before I had used much of the remedy my rheumatism had entirely left me, and I have not been bothered in that way since. That Oil is certainly a wonderful discovery, and does a vast amount of good." W. should say that Mr. Davidge is the well-known and popular actor.

FROM HAMILTON.—A gentleman writes: "I have suffered for over four years with night losses and general weakness caused by abuse. I had tried all the advertised medicines, and a number of eminent doctors, and found no relief or benefit. I have used twelve boxes of Mache's Magnetic Medicine, and am entirely restored. See advertisement in another column." Sold in Charlottetown by Apothecaries Hall Company. (June 20, 1882)

Office—Next door to Owen Connolly & Co's, Queen Street, Charlottetown. N. B.—I have appointed Mr. J. METCALF Travelling Agent for the above Co. May 25, 1882—2w A. S. U.

To the Electors of Queen's County.

GENTLEMEN.—Having received the unanimous nomination of the Delegates convened at Charlottetown, on the 30th inst., to select candidates to contest the County, in the interests of the Liberal-Conservative party, at the coming general election, I beg to solicit your support for myself and my colleagues, Mr. Brecken.

I do so with the more confidence that I feel assured the constituency I aspire to represent is truly and essentially independent; that the great majority possess that intelligence and discrimination which enable them to discern and appreciate the good qualities of a Government such as now rules the destinies of Canada, whose history proves them to be gifted with that rare administrative capacity and exceptional financial ability, which have the effect of rapidly and easily developing the resources of the country, maintaining, at the same time, a large and increasing surplus in the treasury, a surplus produced by a fiscal policy which, while it does not press unduly on the industrial classes, stimulates and encourages those great mining and manufacturing interests, which are indispensable, as adjuncts to agriculture, in promoting the prosperity of a people. Having so large a surplus, the Government is in a position to deal liberally with the Provinces, and the fact that, in the supplementary estimates, there is the handsome sum of \$312,000 for this Island, is evidence of the intention, as well as the ability of the Executive, to provide ungenerously for our public works; and I am happy to be in a position to state that engineers will be here almost directly to commence one of the works; i. e., to survey the different routes suggested for the location of the Cape Traverse Railway.

Under the policy of the Mackenzie Government, on the other hand, the resources of the country were undeveloped, mines and manufactures were reduced almost to a standstill, and the treasury was worse than empty—its only possession being a large and annually increasing deficit. These are facts, gentlemen; if any one be disposed to doubt them, I shall have much pleasure when we meet, in proving them beyond dispute, and I trust to the good sense and patriotism of the Electors of Queen's County not to aid in putting men in power whose manifest incapacity reduced our country to the confines of ruin.

The attacks of the Opposition on the policy adopted by the Government for the building of the Canada Pacific Railway and the development of the Great North-West, are effectually and most satisfactorily answered, and the wisdom of that policy triumphantly confirmed by the vast and daily stream of immigration now pouring into that great and increasing fertile portion of our country.

The question of our claim to a portion of the Fishery Award is one of great difficulty, and I fly due to the fact that the Terms of Union agreed to by the Laird-Haythorne Delegation stipulated that the other Provinces should participate equally in the Award with this Island, and to the fact that our distinctive claim was not urged before the Fishery Commission. I believe, however, that there is still a chance of our receiving a portion; and, if elected, I will use every effort to see that justice is done in this matter.

I very much regret that time will not permit me the pleasure of personally soliciting your suffrages; but if you do me the honor of returning me as one of your representatives, I will justify your confidence by striving to the utmost of my power, to further the interests of his County, of the Island, and of this Canada of Ours. I am, gentlemen, With every consideration, Yours truly, J. T. J. KINS. May 31, 1882.

St. James' Church Bonds.

THE Trustees of St. James' Church, having still unsold a few Bonds of the issue advertised in January last, any parties desiring to purchase will receive all information upon application to JNO. WM. MORRISON, Chairman of Trustees. Ch'town, May 23, 1882.

To the Free and Independent Electors of Queen's County.

GENTLEMEN,—Again I have the honor of soliciting your suffrages at the Election to be held for the Dominion House of Commons on the 20th June next.

Thanking you for the support you formerly accorded to me as a representative of the Liberal Conservative Party in this Province at a time when its policy was first inaugurated, I can now the more confidently appeal to you when we know the success which has followed the introduction of that policy.

As one of your representatives in Parliament for the past four years, my views upon most of the leading questions of the day are known to you.

A supporter of the Liberal Conservative Party of the Dominion, I have endeavored, having your especial interests in view, to assist the present Government in its many measures advancing the material interests of Canada.

Without increasing our taxation it has been able to establish and foster great manufacturing and commercial industries, and by wise and judicious legislation materially to advance the prosperity of the whole people. A yearly surplus in the treasury has proved its capacity for administering the finances of the country, and enabled us to-day to enjoy free of duty some of the necessities of life.

The unprecedented development and peopling of the North West Territories has been the result of the contract made by the present Government with the Canada Pacific Railway Company, in the face of the bitterest opposition for some time past given to any public measure. A year's experience has more than justified the Government in that act, and falsified every prediction against its success.

I will not deceive you by announcing myself a Free Trader. I will be as honest as Mr. Blake, the Leader of the Reform Party, and, using his words in his recent address, say, "Free Trade is for us impossible, and the issue is whether the present tariff is perfect or defective and unjust." I have no hesitation in upholding the present tariff, believing it to be framed in the best interests of the whole Dominion, and that its adoption has infused new life and vigor into our country, lifting it out of the condition of prostration into which it had sunk four years ago.

The settled policy of both parties is adverse to Free Trade. It is dishonest to attempt to conceal the fact. I ask your suffrages on no false issue, but if elected by you will always feel it my duty in the adjustment of the Tariff, to see that the particular interests of this Province are not overlooked.

Our claim to a portion of the Fishery Award is one of paramount importance. I regret that hitherto our efforts to obtain recognition have been unavailing with both political parties. We have, at least, the satisfaction of knowing that no time or opportunity has been lost in presenting it.

Finding that our claims singly and apart from that of the Maritime Provinces, would not be entertained favorably by the House, I, with the other representatives of this Island, joined hands with the representatives of the Maritime Provinces and pressed our case upon the Dominion Parliament with a strength only to be gained by united action. You are aware of the failure of that effort, and the pronounced opinions of the leaders of both parties against us. It is greatly to be regretted that the separate and distinct claim of the Island was not, at the settlement of the case presented before the Fishery Commission at Halifax, duly made and claimed. It was an inexcusable oversight on the part of the counsel representing this Island. For although recognizing the fact that the arbitrators could by no possibility have made a separate award in our case, the fact of our having a distinct claim, I did it thus been brought to the notice of the British Agent, would have placed us in a much better position when distribution was made ad Newfoundland paid a portion of the award.

Dealing with a Government which has so far recognized the rights generally of the Maritime Provinces to this Award as to grant for the material furtherance of it fish fisheries in the interest on the full sum awarded, I shall continue to press for the recognition of a claim which I believe to be just and equitable.

The grant this year made to our public work is an earnest of the evident intent of the Government to deal generously with us. I need not say that, knowing from whence it comes, every dollar granted will be really appreciated and spent for the purposes for which they were granted.

My colleague, Dr. Jenkins, and myself will, I trust, be able in the short time allowed us, to meet most of you and the public meetings called throughout the County.

I have the honor to be, Gentlemen, Yours respectfully, FREDK. DE ST. CROIX BRECKEN. June 1, 1882—no
