 Correctly answering this Word Puzzle.

T * * * * *

The six letters designated by stars above must be supplied by the guesser, and when complete gives the name of a prominent and well-known place in Ontario. The name is familiar to every intelligent person in Canada. So is the name of the largest city in Ontario. Guess it. The correct answer to this puzzle has been sealed in an envelope and same deposited with The Trusts Corporation of Ontario, which will be held by them and opened in the presence of witnesses on December 31st, 1892. To the first correct answer will be awarded a Mason & Rich (\$350) Upright Piano. Second, a lady's Gold Watch and Chain, value \$100. Third, a magnificent Lady's Secretary. Fourth, a beautiful Dressing Case, mounted in silver. Fifth, a Silver Tea Set. The next ten (should there be that number sending correct answers), each a Gold Pen with pearl handle; and to the last twenty-five (contest closes Dec. 30th next) each a pair of Imported Opera Glasses, and many other valuable prizes.
 THE CANADIAN QUEEN is under entirely new management. It has the largest circulation of any publication in Canada, and to-day is the most successful financially and otherwise of any publishing house in the Dominion. There are thousands of well-to-do families in Canada who do not know THE QUEEN, and this prize contest is offered to attract their attention to it. No family should be without a first-class magazine. It is entertaining and instructive to both old and young, and prize winners subscribe and introduce it to their friends thus rewarding us for our liberality. As every person from whom we receive a correct answer receives a watch, you should not fail to try it. It is not necessary to send any money or stamps. Send your answer on a postal card. It costs but one cent. Answer promptly, and address THE CANADIAN QUEEN, Toronto, Ont.
 Only one answer from the same person will be considered.

The New Summer Hotel.

As the hotel scheme has now been started, it will probably interest the citizens to have a description of the proposed building placed before them. The plan shows a main block 160 feet x 41 feet, located with the length of front overlooking the river, if placed in Victoria Park or some such location so that beautiful outlooks can be obtained from the principal rooms and the bedroom suites. Baggage rooms, elevator, laundry, etc., occupy the space in the rear of main block. A wing 50 feet x 32 feet extends from the rear of the building behind the dining room, in which are placed the kitchen and working apartments. The kitchen block is well separated from the main block, having separate servants' hall and staircase, so that all working arrangements of the hotel may be carried on quietly and without being perceived by the guests.

In the basement of the main block are arranged a spacious billiard room 36 feet x 24 feet, commanding a good outlook over the harbor, and adjoining it a large bowling alley 30 feet x 15 feet, and near to this a convenient barber's shop and a series of commodious and well lighted sample rooms, each with an outside entrance from a side street. In the rear of the basement is a compact baggage room with sloping entrance from surface of ground in the hotel yard for the easy receiving of trunks, etc., and adjoining the baggage room is the combined passenger and baggage elevator for sending trunks, etc., up to the various rooms. The elevator car will have double floors, between which the trunks, etc., will be placed for raising.

In the basement under kitchen there will be a laundry 36x13 feet, and steam pipe drying room 13x13 feet, also bakery 11x13 feet, and large oven, store room and refrigerator. In a sub-basement under store-room, etc., is coal cellar, boiler house and small engine room, where power will be centered to drive laundry and other machinery. From boiler room the main smoke shaft passes upwards to above the roof of the building into the base of which the end of main drain from hotel to shore is turned, so that all sewer gas in drains, will be well ventilated into boiler room smoke-flues. The drain passes immediately out from the basement walls and connects with the base of an upright iron waste and drain ventilating pipe extending to above roof line in a small projecting wing in rear of main hotel block in which on the various floors are compactly and conveniently clustered the bath rooms, etc., all carefully ventilated and trapped, and connected with waste pipe.

In the rear of the ground floor of kitchen wing connected with servant's staircase from basement to attic is the servants dining room and store clerk's office, whose duty it is to receive all stores and to deliver to the cooking department from the store room which opens into a spacious, well lighted and ventilated kitchen 36x32 feet, in which are six large cooking ranges, two boilers, one cake range, one hot plate and serving table, and dish cleaning and drying tables.

Between the kitchen and dining room is a large waiter's pantry 24x13 feet, having coffee shelves and carving table, and adjoining it is a pantry with counter from which all glass dishes, jellies, etc., are served.

The entrance doors for waiters from the kitchen to the pantry and dining room and the corresponding exit doors, positions of tables and avenues in dining room, and all the various kitchen fixtures have been very carefully planned to secure the greatest amount of ease and quickness in the working of this department which is so vital an element in the future financial success of a well managed hotel and in the comfort of its guests.

The dining room occupies the left end of the main block and is 36x52 feet, and is generously lighted by large windows in two sides, from which a very beautiful prospect may be obtained of the harbor and West River. Adjoining the dining room is the ordinary, a small dining-room in which nurses and children of the guests may dine if necessary. A spacious corridor of twelve feet in the middle connects the dining-room with the large pleasantly-lighted central hall, in which is a cheerful open log fireplace.

Beyond the large central hall the broad corridor extends to a spacious assembly-room or summer parlor, 43x25 feet, which may be used as a music room or for private theatricals, dancing or any of the usual social amusements that people living in a summer hotel are prone to indulge in. The windows in the summer parlor will open from the floor to the spacious verandah fourteen feet in width, which extends completely across the river front of the hotel. In case of a large ball being held, the verandah adjoining the assembly room may be temporarily enclosed.

As the frequenters of all the good summer hotels invariably require the delight of thoroughly well rendered music, it is proposed to employ for the summer months one of the many excellent orchestras that can now be obtained for this purpose from the American cities. A good orchestra, playing in the beautiful grounds of a pleasantly-situated hotel on a summer evening, would be a welcome attraction to many of our citizens who care for boating on the harbor or carelessly wandering about the streets in the vicinity.

who may call with carriages may await their friends.

A smaller room adjoining the assembly room is arranged for a winter parlor, when the larger room will only be temporarily used. Besides the ordinary summer hotel use, the assembly room would be very useful if citizens wished to entertain press associations or prominent people who may happen to come here from time to time.

In the first, second and third floors of the hotel are carefully arranged guests bed rooms, baths, clothes closets and suites, and small open-air balconies large enough for what or writing table, and seats pleasantly situated to command the beautiful landscape effects of the river and of sunset beyond the Bonshaw hills.

Our harbor, to which the old sentimental Frenchmen gave the name of "Port la Joie" a hundred years ago, may be a very commonplace affair to our dust-beclouded eyes, but some of the cultivated sibs of American cities who for three months of each year are now spreading themselves over the Atlantic coast-line from the sunny shores of Florida to the rocky headlands of Cape Breton, would possibly find among its varied lights and shadows and distant hills, "a thing of beauty and a joy forever," if we but give them an opportunity of visiting us by erecting the proposed hotel. The "Port la Joie" might probably be an appropriate name for the new building.

We sincerely hope that the scheme for building the hotel will be successful. It will eventually be a benefit to all the other hotels in the city and country, as it will attract a large amount of travel and would be extensively advertised. The construction would employ many of our mechanics who are now almost idle. The running of the hotel would make valuable employment for forty or fifty people, and indirect employment in the use of the city livery stables, boat hire, bathing houses, etc., would be increased. It would consume vast quantities of our market produce, and farmers, fruit growers, market gardeners and poultry raisers would be extensively benefited. All the retail stores in the town would be assisted by the valuable patronage of wealthy visitors. As an instance of this, during the past season, one gentleman expended two thousand dollars while in Charlottetown and country with his family.

In the vicinity of forty-eight thousand dollars will be required to construct the building, purchase a site and furnish the hotel, and surely in a city where fifty thousand dollars were subscribed in one night to stock a ranch in the Rocky Mountains, the money will be forthcoming to carry on this work. A guarantee on a good basis has been obtained for a five year rental of the hotel, if constructed at once, from a gentleman who has had complete experience in the management of similar hotels in Virginia and elsewhere, and whose connection with the American cities will assist him in inducing a tourist travel in this direction during the coming summer, when the Chicago Exhibition will start the whole American travelling public in motion.

The hotel would probably increase the value of real estate in the city, as many people would possibly wish to rent cottages for summer use. The guests of a summer hotel in Charlottetown could make use of the Park for tennis, games, &c.; boating and bathing houses could be arranged in the harbor, and a steam tug could connect with bathing beaches at the harbor's mouth; excursions in tug boats up to Bonshaw could be made very enjoyable for guests, as the upper portions of the West River are very beautiful; and trout fishing could be carried on there and mackerel fishing in the harbor.

A very good committee, representative of professional men, merchants and capitalists, in the persons of Messrs. A. B. Warburton, L. L. Bear and Benj. Heats, has been appointed to solicit subscriptions to the hotel fund, and we hope that our citizens will substantially respond to their solicitation and make the hotel scheme a thorough success.

Meeting at Rollo Bay.

THE success which attended the canvassers, respecting the soliciting of funds and cattle for the proposed cheese factory, shows that the farmers in this community are alive to the dairy interest, and that it only requires men like Messrs. Dillon and Shaw to ignite the fire of enthusiasm which heretofore lay smouldering on the hearths of their minders. By the different reports we find that nearly every farmer is willing to assist in pushing the matter forward, so the feasibility of erecting a cheese factory in the vicinity of Souris ceases to be a doubt. On November 3rd there will be another meeting held in the Agricultural Hall at Souris, at which various matters will be discussed and arrangements made; so we hope everyone will show manifestations of his zeal and enthusiasm by being present in the hall on that night. The meeting will begin business at six o'clock. Souris, Oct. 28. Sec'y.

FOR OVER FIFTY YEARS Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. Iyr

Major-General Herbert does not believe in the withdrawal of the Imperial troops from Canada is in contemplation.

The Russian Navigation Company is about to construct three new steamers, each of 3,500 tons, on designs furnished by the Russian war office and to be subsidized by the Russian government as fast cruisers.

Mrs. Capt. J. E. MELVIN.
Paralysis Defeated!
BLEEDING PILES,
 Headache and Dyspepsia
CURED BY SKODA.
 MRS. MELVIN IS A LADY OF INTELLIGENCE, HONESTY AND TRUTHFULNESS, AND HIGHLY ESTEEMED BY ALL HER NEIGHBORS AND FRIENDS. SHE WILL CORROBORATE ALL THE STATEMENTS IN THE FOLLOWING LETTER.
 A GENTLEMAN—For years I had a terrible trouble with my stomach—my food souring immediately after eating, together with a severe headache. I would have a prickly, numb sensation in my arms, and down my sides, with strong tendency towards Paralysis. For thirteen years I have been troubled with extreme Constipation, combined with that most terrible tormentor, **BETTER BLEEDING PILES.** At times they would bleed profusely, and pain me severely, so that I could neither sit, stand, sleep or eat. I became very much reduced in flesh and strength, and felt completely worn out. I have tried nearly all the Physicians in this vicinity, and have taken patent medicines in large quantities, but received no permanent benefit. Through a friend, my attention was called to the merits of SKODA'S REMEDIES. I consented to try **THAN faith in their efficacy.** I had purchased a bottle of SKODA'S DISCOVERY, used two boxes of SKODA'S PILE CURE, and four boxes of SKODA'S LITTLE TABLETS. My Dyspepsia is all gone, Bowels regular. Appetite good, and have them, having in flesh. In fact, AM PERFECTLY WELL.
 All credit is due to your Wonderful Remedies. **COLD** I cannot say too much in their praise.
 Truly yours,
 MRS. CAPT. J. E. MELVIN,
 No. 28 WATER ST.,
 ROCKLAND, ME.
 We GUARANTEE 6 bottles to BENEFIT or CURE. You get more or get your money back. **WILL YOU TRY IT?**
