pressed himself much pleased with the results of the Examination, and hoped that the pupils would, in after life, make good use of the knowledge which they had acquired, and that they would never forget the lessons of piety which had been so often impressed upon their minds by the good ladies who had labored for them so effectually, and with so much devotedness.

The Examination terminated with the National Anthem—God Save the Queen. We beg to congratulate His Lordship and the whole Catholic community on the marked success of this excellent educational establishment. Want of space prevents us from inserting in to-day's paper the list of those pupils who merited prizes; but we shall do so next week.

SUPREME COURT.

THE Supreme Court is now sitting in Charlottetown, and if we can judge from the great number and importance of the cases on the Docket, will not rise for some time. The cases tried, so far, are not of any public importance, and do not require any comment from us. The Criminal Calendar is, we are happy to say, very light. Indictments have been found in several cases against William B. Dawson, formerly of Charlottetown, for Forgery; but, as Dawson's whereabouts is not as yet known, he, of course, cannot be tried this term. The forgeries, we understand, are very extensive, and embrace not only his father's signature, but also that of a large number of parties with whom W. B. Dawson did business. The public interest, however, centres in the cases pending against Mr. Thomas Dawson. The issues are very important, and immense sums of money depend upon the result of the trials. The actions are brought against him as the alleged endorser of a great number of Promissory Notes and Bills of Exchange, which were discounted by the several Plaintiffs for William B. Dawson, against whom, as we have already said, Bills of indictment for Forgery have been found by the Grand Jury. The Plaintiffs are the Union Bank, the Bank of P. E. Island, E. J. Hodgson, Esq., and the Executors of the late Mr. Haviland. Mr. Dawson's principal defence is, we understand, that the signatures of his name to the notes are forgeries; and this, we suppose, will be the principal fact to be decided by the Juries. Special Juries are to sit in all the cases. Mr. Dawson is an elderly gentleman, who has held for many years a high position in the Wesleyan Church. He was formerly engaged very extensively in mercantile transactions in this Island, but many years ago retired from business. The public is somewhat divided in opinion as to whether the signatures are genuine or not, and as to the right of the Plaintiffs to recover. For our part we feel to deeply the responsibility of our position as a public journalist, to give expression to any opinion during the pending of the trials. We should be sorry, indeed, to pen a word which would or might unfairly influence or prejudice the minds of those who will constitute the different Juries, either one way or the other, for it cannot be doubted that an adverse verdict would ruin the Defendant.

The trials of these cases commence, we understand, on Tuesday next. Samuel R. Thompson, Esq., of the New Brunswick Bar, so well known to the readers of the *Examiner* as the eloquent advocate of the tenant's rights before the Land Commission, is retained as one of the Counsel for the defence. We anticipate some eloquent speeches before the trials end.

Since writing the above, we learn that W. B. Dawson has been arrested, and is now lodged in Jail.

The Rev. W. Morley Punshon preached in the Wesleyan Chapel on the forenoon of Sunday last. The seats, aisles, and galleries of that spacious building were crowded with eager listeners. The Rev. gentleman delivered a truly eloquent discourse. He is a very powerful speaker. His language is simple and forcible, and his action graceful and unconstrained. We need not say that his numerous auditors went away charmed and impressed by what they heard.

BY an advertisement in another column, it will be seen that the Irish Volunteers will hold their annual Pic Nic at Appletree Farm, on Wednesday next, the 8th inst. During the day different sports will take place for which prizes will be offered. The day's entertainment will conclude with a grand Ball in the new *Market Hall*.

☞ THE Examination of the Pupils of the Convent De Notre Dame took place to-day, at Saint Andrew's Hall. Owing to the crowded state of our columns, we are unable to give a report of the proceedings in this day's paper. We shall give a full report next week.

THE relatives of the late Dr. Hogan, of the 4th (K. O.) Regt. it is said, are about to sue for damages the Company upon whose Railway the Doctor lost his life.

A Bandsman, writing to the *Herald*, says that the Volunteer Band did not refuse to play on Hillsboro' Square—that they were forbidden by the Committee of that Square to play until further notice.

Mr. Councillor J. B. Pollard, Ward 4, presides in the Police Court during the present week.

J. C. Crosskill, Esq., Editor of the Halifax *Reporter*, is at present on a visit to the Island. We hope that he will enjoy himself, and go back to his labors in Halifax all the better for his trip to our tight little Island.

WE beg to remind our readers that the Souris East Tea Party comes off on the 15th inst. The *Heather Belle* makes an excursion trip specially for the occasion, and takes but a limited number of passengers. Those who make up their minds to go to Souris may depend on having a "good time," as the people of that locality are almost proverbial for their hospitality.

A Cricket Match was played on Saturday last, the 27th ult., between the Lawyers and an all-comers eleven. The Lawyers, of course, were victorious.

MESSRS Butcher and Rice, with their families, left in the *Princess of Wales* on Tuesday night last, en route for Canada, the scene of their future labors.

Joseph Davies, Esq., of the firm of Davies and Weeks, and Mr. Benjamin Davies, junr., were passengers in the "Clara Novello," to England.—*Pat.*

THE Steamer "Princess of Wales" will leave Charlottetown on the 14th instant at 7½ o'clock, p. m., and will return on the 15th, leaving Summerside at 6 o'clock, p. m. Return Tickets 5s. This will afford a good opportunity to persons to attend the Bazaar and Tea Meeting at Summerside.

THE examination of the Students of St. Dunstan's College will be held on Wednesday, the 8th inst. The parents and guardians of the Students, as well as the friends of Education in general, are invited to assist.

THE Local Government of Nova Scotia have not obeyed the order of the General Government, in respect to the first of July being observed as a Public Holiday, in honor of the birth of the New Dominion.

THE Common Council of the City will hold the regular Quarterly Meeting in the City Hall on Tuesday forenoon next at the hour of eleven o'clock.

S. R. Thompson, Esq., of St. John, N. B., was a passenger in the Steamer *Princess of Wales* from Shediac, on Saturday last. Mr. Thompson has some business with the Court, and will remain on the Island about a fortnight. This is the gentleman who was employed as Counsel for the tenants of this Island, during the sitting of the Land Commission in 1860.—*Her.*

PRINCE COUNTY FAIR.—It will be recollected that the Legislature at its last session made an appropriation of £150 "for the encouragement of agricultural and local industry in Prince County." A Fair and Cattle Show will, therefore, be held the coming Autumn (in the month of September probably,) in Summerside, in and around the Drill Shed, at which we expect to see a very good exhibition of the industry of Prince County.

The following gentlemen have been appointed by the Governor and Council, a Committee to have the management of the whole affair: Hon. G. W. Howlan, John Lord, Esq., Tryon; Jos. O. Arsenault, Esq., M. P. P.; Cornelius Howatt, Esquire, M.P.P.; Finlay McNeill, Esq., Summerside; Stephen Wright, Esqr., Bedeque; Peter McNutt, Esquire, Malpeque; Mr. George Price, Summerside; Mr. James Wiggins, St. Eleanor's.

As the Committee have not yet met, of course we cannot give any further information about the matter; but as soon as they do come together, and the list of prizes, &c., is made out, we will print the same for the benefit of our readers.—*S. Prog.*

GEORGE LEWIS, Market Clerk.

[ADVERTISEMENT.]

To THE EDITOR OF THE PATRIOT.

Dear Sir.—I see in your issue of the 4th instant a communication by E. P. Curtis, general travelling agent for the sale of A. P. Richardson & Co's Buckeye Mowing and Reaping Machine, in which he controverts some of my statements made in my advertisement, and claims that their machine is the best, and that all the improvements are of their own invention, particularly the Open Gears. I am not conscious of making any statements that the facts will not warrant; and I do know this much, that A. P. Richardson & Co., never have made 100 Mowing and Reaping Machines previous to this year; and I also do know, that last year I went to their works and got 4 machines to bring to the Island, and requested them to set up and attach the Reaper Platform to the machine so that I could understand how to operate it. Four of their best hands went to work at 8 o'clock, in the morning and at 6 o'clock they had not succeeded in setting up one machine. This Reaping attachment was fitted on to the machine with the same cutting bar and knives used in mowing, and cuts four feet wide; and which if placed before the farmers of P. Island, beside the present reaping apparatus attached to Adriance Platt & Co's machine they would not purchase a single machine. And I also do know that they went to Adriance, Platt & Co. last winter and got one of their new improved Reaping attachments and platform, and affixed it to their machine; next year I presume they will claim, through this young man, that it is their own improvement got up by themselves, as well as the lever improvement and internal gear improvement made by Adriance, Platt & Co., not yet applied to their machine, but probably will be next season, if they can get it from Adriance, Platt & Co., and will be claimed by them as their improvement.

As I understand the facts to be in this case, (and I believe I am correct) the open gears were used and applied in the building of the first Buckeye Machines in 1857 and 1858; and on the No. 1 Buckeye Machines the paterns have never been changed, but this open gear is still retained as so few are used or sold of the No. 1 machines. And this old Open Geared Machine has always appeared to me like one of those old open carriages used 50 years ago, in comparison to one of those snug, compact, covered buggy waggons, all trim and ready for use, of the present day.

And I have no doubt that if this open Geared Machine now used on A. P. Richardson & Co's machine was brought to the market any where in the States, and offered for sale along side of the machines of Adriance, Platt & Co., they would not bring so high a price as the latter by at least from three to five pounds cash. The fact is, the Adriance Machine is the best machine now used in the States, and worth the most money—not but that theirs is a good machine, and will do good work, but it has gone by, and has not got all of the latest improvements and could not be sold in the States.

As to the statement that each company owning the territory exhibits their machine there only, is no such thing. I understand, at the national fair at Auburn, there were 59 machines entered for competition. Do you suppose that all those machines belonged to the County of Cayuga, in which Auburn is situated? But you will see that no machine of A. P. Richardson & Co. was represented there, and I do not believe one of their machines was ever entered at any State fair or exhibition in the States. Nothing beyond the County of Worcester ever heard of A. P. Richardson & Co's machine.

The idea to be advanced by this flippant young man, with the expectation of the farmers of P. E. Island believing that this small establishment which has never made more than 300 machines a year, until last year, and then not much over, would be likely to make the improvements that an establishment that turns out 8,000 machines yearly, and consequently are continually trying to get up new improvements, and that they do make these improvements is preposterous in the extreme.

As to the Self-Raker, I believe it is not only the best Machine, but, in the end, the cheapest, as it saves the wages and feed of a man, and does the work better and more of it than the Hand Raker can do; and I have so much confidence in the working of the Machine, that any person wishing to try it, can have the privilege of using it for two or three weeks, and if they are not satisfied with its working, and wish to exchange it for the Hand Rake Platform, the difference in price will be paid them, and the Hand Rake Platform furnished them.

The farmers will find all the extra parts for the Manny Machines, both for the wood bar and iron bars at J. D. McLeod's Store, opposite the Post Office, North Side of Queen Square, and where I keep my office.

TO THE FARMERS

OF

Prince Edward Island,

GENTLEMEN,—As we have noticed, in your local newspapers, certain statements, over the signature of "A. Booth," respecting the origin, manufacture, and sale of the Buckeye Mower and Reaper, calculated to mislead those who are unacquainted with the facts, we deem it our duty to place before the public a *truthful* and lucid history of the machine; and in order to be understood aright in the matter, we shall dispose of A. Booth's advertisement in the order in which it appears.

First, Mr. Booth asserts that Adriance Platt & Co., were the original manufacturers. The Buckeye was first invented, manufactured, and patented by Aultman & Miller, of Canton, Ohio, (from which State it has derived its trade-mark or name) they obtaining the first Gold Medal at the Great Field Trial held at Syracuse, New York State, in 1857, and they still continue to make nearly twice as many machines as any other establishment in the United States. The original inventors sold the right to manufacture, and sell their invention in certain territories; and among the different manufacturers the custom has been that in whichsoever territory a trial is held they enter and exhibit. That is to say: If a trial is held in the New England States we exhibit; if within Adriance, Platt & Co's territory they exhibit, and so on, Mr. Booth's assertion to the contrary notwithstanding, that Adriance, Platt & Co's manufacture is entered for competition "at all the Great National and State Fairs in the United States."

Mr. Booth further asserts that all 'improvements' come through Adriance, Platt & Co. Scarcely a year has elapsed but we have found something new wherein we could improve the machine, and assist to bring it up to its present high standard. Last year, after much expense, we radically changed our mode of gears, by which we dispensed with the internal gearing, (which we always considered a hard running gear,) by substituting an external gear, by which more perfect gearing is secured—which runs lighter, stiller, and is more durable, and more easily repaired should any repairs be required. This, and other improvements of smaller importance were originated by us; and we make bold to say, and have ample testimony, that the machine exhibited for sale by A. Booth is the style which we made two years ago, save and except some minor alterations, which, in our opinion, are of a damaging nature to the machine.

Respecting the "Self Raker," when our minds are satisfied of its practicability, and it becomes simplified, and brought out of its present complicated condition, we will apply it to our machine, as we are of opinion that in its present stage it requires too much motive power, and is too expensive to be of general use; yet we believe that, in the course of time, it will be accomplished. Furthermore, Mr. Booth asserts that he brought on your Island, last season, four "Buckeyes," made by A. Richards & Co., of Worcester. No such manufacturing establishment exists in Worcester, or elsewhere, to our knowledge, in the United States. Mr. Booth had four machines of our manufacture, which he obtained after some solicitude, which we are led to believe he purchased for sinister purposes. Mr. B. was too well aware of the repute of the "Buckeyes" in the U. S. to compete against it here with his favorite "Manny," should it get into the hands of the farmers. Although Mr. Booth's estimate of your intellectual capacity was by no means high, we are glad to find that he has altered his mind, and discovered that you have sufficient "brains" to run a Buckeye this season. Besides the Machines which Mr. B. had last year, we consigned ten machines to Mr. John Higgins, of your city, which were all sold, despite Mr. B.'s stiff bow at their introduction, and we leave it to those farmers who ran the Machine last year, to say "whether they were perfect, and such as they should be, or not." We have in our possession testimonials from many of the most respectable farmers, who ran the machine last season respecting its merits, and we have yet to learn of any dissatisfaction,—not one purchaser has yet enquired for an extra piece to supply any defect or breakage, although our agents have extras constantly on hand.

The Machines sent to our Agents this year have been made with usual care, put together by first class workmen, and manufactured of the best material, which we warrant in every particular. We have every encouragement to continue to ship our manufactures to the Island, and shall have on hand each year a supply of "Buckeyes" to meet the demand. They will be in the hands and under the control of our Agents, all of whom are reliable, and whom the purchasers can fall back upon for any misrepresentations.

The Machine will be on exhibition by our Agents hereunder named, who will be most happy to point out the difference between the two "Buckeye's" now in the Island and thankful for past patronage, we shall continue to dispose of the Machine at the lowest prices, and on such terms as will suit all. Considering this explanation called for, to refute A. Booth's assertions, made either through ignorance or maliciousness, we are, yours truly,

F. P. CURTIS, Travelling Agent,
For A. P. Richardson, & Co, Manufacturers,
Worcester, Mass.

BUCKEYE MOWER & REAPER

MANNY'S & BUCKEYE

COMBINED

Mowing and Reaping MACHINES.

AND

Whitcomb's Patented-Wheel HORSE RAKES!

THE SUBSCRIBER has just imported into this Island, and is now receiving quite a large number of those celebrated Machines, embracing the MANNY COMBINED REAPER and MOWER, the COMBINED MOWER and REAPER HAND RAKE MACHINE, and the BUCKEYE SELF-RAKING MACHINE, for Reaping and Mowing. Also a lot of WHITCOMB'S PATENT WHEEL HORSE RAKES.

The MANNY MACHINE has this season some important improvements, such as an extra Wooden Wheel and Axle for Reaping, together with an extra Bevel Gear with a Flange, so as to prevent the Cogs from breaking. These two important improvements makes the MANNY MACHINE a perfect one of its kind.

The BUCKEYE MACHINE having been manufactured for the Subscriber under special contract, by ADRIANCE, PLATT & CO., of Poughkeepsie, in the State of New York, who are the original manufacturers of the BUCKEYE MACHINE, and are the largest manufacturers of this Machine in the States, manufacturing from six to eight thousand Machines each year; and it is their Machine manufactured at their works, and entered by them for competition at all the great National and State Fairs in the United States, and for which they have taken the Gold Medals and all the highest prizes in the States; they have also justly obtained the reputation of manufacturing the best Machine in the States both for Mowing and Reaping. All other establishments manufacturing the Buckeye are small compared to theirs—none of them making, I believe, over six or seven hundred machines each year;—and all improvements on the Buckeye come through ADRIANCE, PLATT & CO.

The SELF-RAKER is the best and latest improvement on the BUCKEYE MACHINE, and is not manufactured by any other establishment making the Buckeye. The SELF-RAKING MACHINE has proved a complete success the past year, and completely distancing all other Machines as Self-Rakers, made in the United States by others. This Machine saves the labor of one man, and the weight of a man on the team while Reaping. This Self-Raking Machine will also Reap and deliver in sheafs grain which has been broken down with rain or wind, unless very badly tangled, as the rake strikes the grain in fronts of the knives, and brings the grain on to the platform, when it is impossible for the hand rake to do it.

In consequence of my long connection with the Farmers of P. E. Island, in the sale of MOWING MACHINES, I feel it my duty to explain to them my views, and the motives that actuated me in first bringing the MANNY MACHINE to this Island some eight years past. It was then the best, and I might say about the only combined Machine in the States. The Manny gradually worked its way into general use on the Island, proving itself to be a good Machine to the Farmers, doing its work well, and all that was required of it to do, and to the full satisfaction of all who have used them here; and I could find no Machine in the States so well adapted for this Island as the MANNY MACHINE.

Last year I bought four of the Buckeye Machines, manufactured by A. Richards & Co., of Worcester, but I was not satisfied with them, as they were not a perfect Machine, nor such as they ought to be, in my opinion, and I therefore could not feel that it would be right for me to say to the Farmers that the Machine was all right as a Reaper, when I did not believe it; but as a Mower I was willing, and did say to all, that they were good Mowers. When I returned home from the Island last fall, and knowing that Adriance, Platt & Co. were ahead of all the manufacturers of what they termed a BUCKEYE MACHINE, I went to their establishment, one hundred and fifty miles distant, hoping to find there a combined Machine that would satisfy my mind; and I did find the desired Machine, it having a separate cutting bar, guards and knives, all attached to the Platform, and fitted and ready to hitch on to the Machine as a Reaper, which made a perfect Machine, and fully satisfied my mind. This was the HAND RAKING MACHINE.

I then examined their SELF-RAKING MACHINE, and was better pleased with that than the Hand-Raker, as it is a splendid machine, doing all, and even more, than could be expected of a machine. The consequence was, I purchased my Machines of Adriance, Platt & Co., and in the course of the winter A. Richards & Co. went to Adriance, Platt & Co., and purchased a Platform from them, with their improvement of a separate bar and knives for Reaping attachment, and attached them to their Machines—sent to the Island this spring. I did not purchase any No. 1 Buckeye this year, as I found they had gone out of use altogether, or nearly so. They made the No. 1 in the first place, but found them too heavy and clumsy. The No. 2 proved more acceptable to the Farmers for Mowing and Reaping.

My own individual opinion now is, and so is that of most of the farmers who have used the MANNY MACHINE, that the MANNY MACHINE, with its improvements, is the BEST MACHINE for all Farmers of limited means, as it does its work well, and all that the farmers require it to do, and has no complication, and the mechanics of the Island know how to repair it. But those Farmers who have more means, and wish to have a nicer looking machine, and can afford to pay a higher price for it, I would say purchase the SELF-RAKING BUCKEYE MACHINE, as then they will get all that any Farmer can wish in a Machine.—But come and see and examine for yourselves, and decide what Machine you like best.

These Machines will be on exhibition and Sale, at the Ware-house attached to the Store of Henry Haszard's, opposite the Post Office, on Queen Square, where I shall be very happy to exhibit and sell the above Machines at the usual accomodating terms, from one to three years, as the Farmers may wish;—and those Farmers who wish to pay the money down, I shall be more particularly pleased to see and sell to, and of course at low prices. But all who wish machines will be very welcome. Hoping that no Farmer will purchase a Mower until he has seen mine, and examined them, as I believe I have a splendid lot of Machines, and can satisfy almost any one. I have appointed agents in the following places:—

H. C. GREEN, Summerside,
Hon. G. W. HOWLAN, Cascumpec.
J. D. McLEOD, Charlottetown,
R. J. CLARK, Orwell, Sole Agent for King's County, will act at Souris, Georgetown, Montague, and Charlottetown, and at Orwell Cheap Store.

ASAHEL BOOTH,
Proprietor.

June 29, 1868. isl

FARMERS

OF

Prince Edward Island!

DO you want the most perfect REAPING and MOWING MACHINE in the World. If so, we are now shipping to our Agents a quantity of those world-renowned

Buckeye Mowers and Reapers,

which won for themselves such a reputation on your Island last Season; and we recommend to all those who are thinking of purchasing a Machine, to consult their neighbors who ran one last season, and give their orders early, to make sure of securing one. We need only say that we made further improvement in our Machine, as set forth at length in our Circular of 1868, to be had of under named Agents, together with each piece of the Machine if required. Every Machine warranted to give

PERFECT SATISFACTION.

Be particular to see that your Machine bears our mark, as they are the GENUINE BUCKEYE.

AGENTS:

W. D. STEWART, Charlottetown,
R. T. HOLMAN, Summerside,
A. P. RICHARDSON & CO.,
Worcester, Mass.

NOTICE.

Owing to the illness of Mr. JOHN HIGGINS, the Subscriber has been appointed Agent for the Original

Buckeye Mowers and Reapers

and he has much pleasure in informing the Farmers of P. E. Island, that, on the arrival of the Steamship "Alhambra," he will have on sale a number of the above Machines.

The satisfactory results of the Machine last Season bear ample testimony to its utility and adaption as a MOWER and REAPER and hence the Subscriber has no hesitation in offering the "Buckeye" to the farmers of this Island as

THE BEST MACHINE CONSTRUCTED IN AMERICA.

and would urged upon the farmers the importance of handing in their orders early for a "Buckeye," if they wish to obtain a perfect Machine, and get value for their money.

The under-named gentleman have tested the Machine, and endorse the reputation which it has gained in other countries where it has been longer used.

Notice!

To Tenants upon Township 18.

THE Tenants upon that portion of Township No. 18, in Prince Edward Island, formerly owned by Lieut. Col. Peter DesBrisay Stewart, deceased, and over which the late Mrs. Mary Stewart of Charlottetown, deceased, and Ellen Stewart and Margaret Stewart, daughters of the said Mary Stewart, lately exercised acts of ownership, are HEREBY NOTIFIED that the portion of Township No. 18, referred to, became the property of the Subscriber, in fee simple, upon the death of the said Peter DesBrisay Stewart, which occurred on the 1st day of November, last past. The tenants upon the said portion of Township No. 18, are hereby cautioned against paying rent to the said Margaret Stewart, or to any other person or persons who may demand the same. Those of the Tenants who may desire to inform themselves relative to the TITLE of the subscriber, are referred to E. J. Hodgson, Esq., who will afford them the desired information.

THEOPH. DESBRISAY.

Spring Park, Ch'town Royalty, June 23 1868. 3m.
