

Satellite Shows Little Slackening In Its Speed

LONDON (CP) — Russia's satellite Wednesday night neared the 2,000,000-mile mark as it circled the globe about every 96 minutes with virtually no slackening of its terrific speed.

Moscow said the 184-pound moon will continue its flight for "a considerable time" and is diminishing in speed by only three seconds every 24 hours.

Pravda, the official Communist party newspaper in Moscow, also published a large pre-launching photograph of the satellite, showing its four antennae. The photo appeared in many western newspapers.

END UNSUPPORTED

Some observers believe the man-made moon is slowing down and descending toward a fiery finish in the friction of denser atmosphere, but a spokesman for the U.S. naval laboratory in Washington said:

"Our figures just don't support this."

The satellite's radio signals died out mysteriously Tuesday night, but they came back after a six-hour period and the navy scientists reported they were strong and clear on one pass over Washington Wednesday.

Instead of the original beep-beep, however, they now were getting more of a steady signal.

Efforts of a Cambridge, Mass., moon watch team to photograph the satellite this morning were thwarted by cloudy weather. Fourteen telescopes had been manned to try to get some pictures.

A photograph was taken in Auckland, New Zealand, however. Reports from Auckland, coupled with the photographic evidence, indicated the Soviet sphere might be wavering slightly in its course.

Fort Churchill in Manitoba reported a good visual sighting. The satellite or a fragment of its launching rocket was said to have been observed for a period of two minutes.

SENDS IN CODE

Pravda said the satellite is transmitting coded radio messages back to the earth and that the messages are being decoded by electronic brains.

Pravda said the radio signals from powerful transmitters inside the satellite vary according to the temperature outside the aluminum sphere.

The newspaper added that the transmitter might eventually stop either because it has "a limited supply of electric energy" or because meteoric particles might damage the antennae or pierce the satellite's casing.

Quebec Chib gained 9 cents at 57 and Bellechasse 7 cents at 82. Eastern Mining slid 15 cents to 1.60, a new low. Among western oils, Central Del Rio improved 35 cents at 7.75.

The exchanges closing averages show banks up .02 at 46.28, utilities up 0.6 at 131.4, industrials off .1 at 245.1 (new low), combined up 0.2 at 207.9, papers up 2.58 at 1092.92 and golds up .85 at 69.07.

R.C.A.F. Wing Discusses The Formation Of Ladies' Group

President Erroll Laughlin presided last evening at the regular monthly meeting of the R.C.A.F. Wing Association number 200 held in the Summerside club rooms. Reports were received from the various standing committees. Regarding the question of the formation of a ladies auxiliary of the Wing it was decided that the matter would be deferred until replies were received from various other wings as to the procedure and the advisability of such a step.

An acknowledgement was received from the Prince County Hospital thanking the Wing for their donation of \$100.00 as a member of the Century Club and advising that the name of the Wing would be inscribed on the scroll in the lobby of the hospital.

In connection with the matter of bylaws it was reported that a copy of the proposed bylaws would be ready by the next meeting of the Wing for discussion by the members.

Reporting for the Air Cadet Committee, Bill Hickey chairman, referred to the resignation of S-L Murray Shanks and Derek Hughes. He said that the position of commanding officer was being filled as acting commanding officer by Mr. John Leuty.

During the meeting the members of the Wing made a presentation of a suitable gift to Claude White, a valuable member of the Wing, who will shortly move to Ontario to take up residence. Mr. White thanked the members for their gift and expressed a hope for the continued success of the Wing.

In his report as chairman of the sponsoring committee of the Air Cadets Russell Phaneuf said that the present enrollment was 77 cadets. He reported that three cadets were nominated by the squadron for flying training scholarships. Two scholarships were awarded he said, under the regular plan. Sgt. Robert Holman and Frank Driscoll took their training at the Moncton Flying Club during the summer. Sgt. Holman was successful in getting his wings.

F-S Charles Hickey was chosen to attend the drill instructors course and Cpl. Ronald MacFarlane attended the senior leaders course. His reported indicated that the local Air Cadet Squadron was a most successful project and that the annual inspection had been held on June 18th with Group Captain W.H. Swetman as the reviewing officer. He expressed the thanks of the sponsoring committee to G-C Swetman for his continued interest and help in promoting the affairs of the Air Cadet Squadron.

with special help, many can be taught to read a little and to write a little. The large majority can be prepared to do useful work as adults, many can become self-sufficient enough to make their own way in life.

This is an encouraging picture. Until recently, the mentally retarded were thought of as hopeless. Too often, the only plan offered to the parents of many of their so-called "slow" or "backward children" was to put them away in an institution and forget about them.

Today, a great deal is being learned and understood about children who are mentally retarded. Parents are becoming less frightened and discouraged by the fact that these children can't be cured. Society is beginning to look at what these children can do and what they can be trained for. Experts are providing more and better ways to help both these children and their parents.

POLISH STUDENTS PROTEST

Students line the balconies as a speaker at lower right addresses their protest meeting at Warsaw Polytechnic institute Friday. The demonstration which against the government banning of the student newspaper, played a large part in last year's political upheaval in Poland, led to clashes with police.

50th Wedding Anniversary Is Observed In Chelton

Mr. and Mrs. Arthur Rogers, Chelton, celebrated their Golden Wedding anniversary, on Wednesday evening Oct. 2nd. The honored couple received their guests in their spacious living room where a three tier decorated wedding cake adorned the table with tapers and flowers.

The house was filled to capacity with relatives and friends, and after congratulations were extended to the Bride and Groom of fifty years who have retained the honor and good will where they have resided: their daughter, Mrs. Arnold Mathison read an address and their granddaughter Diana McAusland presented them with a rocking chair the gift from the Rogers family, and also unwrapped and presented a number of individual gifts from friends.

On behalf of the community of Chelton; Mrs. Edgar Doull read the address and Miss Martha Oatway presented a mirror and Messrs Fred Clark, and Everett McKenna a floral couch. Mr. Rogers thanked the community and friends for remembering them with such lovely gifts which were very much appreciated. All sang "For

colour-styled for you!

4 beautiful pastel shades to blend or contrast pleasingly with every bathroom

marigold yellow

The sunniest colour possible... splashes with cocoa, green, turquoise and plum. In fact, Marigold Yellow is beautifully adaptable to any colour scheme you can imagine.

azure blue

Accents white beautifully and is a perennial choice with the new apricot, melon and honey tones. Select Azure Blue White Swan for sophisticated colour treatments that are different looking.

sea spray green

Is as free of decorating limitations as the ocean itself. Combine it cleverly with deep green and lilac or gold and cocoa. Sea Spray Green is the most refreshing colour possible.

dawn pink

Always a favourite—especially with contrasting backgrounds as wedgewood blue, aqua, misty grey and charcoal. Dawn Pink White Swan is dainty, pastel and in keeping with attractive modern colours.

sparkling white

A beautiful accent in any bathroom. Sparkling White is always a favourite and complements any colour scheme.

The very newest colour idea for your bathroom—Colour-Styled White Swan Tissue. Each exciting shade colour-keyed to your favourite bathroom colour scheme by Doris Love, well-known Canadian Colour Consultant.

What's more Colour-Styled White Swan is gentle-textured... soft, yet amazingly strong and absorbent. Next time you're shopping choose the Colour-Styled White Swan that harmonizes best with your bathroom. It's your best colour tissue buy—by far!

And of course... an afford to be without White Swan serviettes. They're really wonderful—firm, in spacious size, and excellently patterned. Whether it's one or two ply, white or coloured, White Swan serviettes are a shopping bargain.

A handy travelling companion... White Swan towels go traveling because so many people have found them invaluable in a car-wiping off headlights and muddy windshields; for cleaning shoes or drying hands. If you haven't a roll of White Swan now—lose one in the car—you won't want to be without it! This is merely one more use to be added to the many uses for White Swan Towels in the home.

White Swan Paper Products, tissues and serviettes are an essential commodity for daily comfort. They're practical, decorative and economical. In fact, no modern homemaker should be without these fine products.

Decorating Ideas by DORIS LOVE

Will know Canadian Colour Consultant

We live in an age of colour... coloured fixtures, coloured tile, coloured walls, coloured floors, coloured counters and coloured accessories. It isn't just by chance that a pleasing colour creation evolves but it is often the "accident" colour which controls the colour atmosphere of the room.

For instance... in the modern bathroom, a considerable counter space to incorporate in the plan, if it is peacock, or perhaps coral, it would be wise to select draperies, shower curtain, towels and tissue in a softly contrasting colour. For instance, Colour-Styled White Swan Tissue in Sea Spray Green goes beautifully with pumpkin... delicate Dawn Pink Tissue is exquisite with peacock tones... and Azure Blue Tissue is a wonderful accent for coral. Now, if your counter top is linen-textured, choose a definite colour like Marigold Yellow White Swan Tissue. It will blend with any tiling and fixture colour—and it's so very ray looking.

Marble topped tables and counters... are very popular these days. If you have such an area in your bathroom, feature its colouring by introducing Sea Spray Green or Dawn Pink tissue.

"Bright" is right for fall... Don't reserve your "extra" decorating touches for guests or the monthly bridge club. Let the entire family enjoy interesting colour accents every day of the week—bright towels and tissue to add that individual touch which every bathroom needs. White Swan Dawn Pink and Marigold tissue are warm, cheerful decorative colours for this time of year.

The cost of living is up... no one needs to tell the homemaker. Naturally you're watching for happy shortcuts to protect your shopping budget. Why not consider coloured tissue for a dainty cleaning tissue, for blotting lipstick, for general cosmetic use in the bathroom?
