CASEY'S BA STATION P.E.I. Kinsaleigh

Arthur Godfrey More Confident By BOB THOMAS HOLLYWOOD (AP)—It was a mellower, more confident Arthur Godfrey who dropped in town last week to perform his daily radio show and emcee a Hollywood Palace for ABC.

The mellowness comes partly from age and he surprises you when he says: "I am 61 years old—be 62 next August if I live that long." He looks scarcely over 40, his hair still rust-colored and unthinned, his face unlined.

His confidence? Some of his confidence, in his own voice, never lacked it. But on reflection he realized that it is a recent acquisition.

"I never realized the dimensions of what I had acquired over the year," he commented between his radio and television commitments. "I didn't really find out until three years ago, when I started to go out and face the public."

"When you've spent most of your working life in a small studio, sometimes by yourself alone, you don't develop any understanding of what you are capable of. Besides, there were plenty of people who helped to keep my confidence from going."

"When I was doing well on television, the old, established entertainers would not accept me. They told gags like: 'Arthur Godfrey is a new kind of act in show business—all you have to do is show up.'"

"Sure, that hurt me, but I knew why they did it. I was something new, something they didn't understand."

Godfrey figures his turning point came three years ago when he was recording his radio show in Miami. The hotel management asked if his broadcast could be admitted to the visitors gallery and he was astonished to see that he and his troupe could hold a big audience.

Godfrey looks fit for anything. It is six years since he came through an operation for lung cancer.

Frankfurt (AP) - West Germany's post-war boom, which slowed down a little during the last few years, picked up new speed again during 1964. New highs were reached everywhere - from exports to the country's labor shortage.

Living costs were 9.5 per cent higher than at the same time in 1963. In mid-1964 wages and salaries were 9.5 per cent higher than at the same time in 1963. In mid-1964 wages and salaries were 9.5 per cent higher than at the same time in 1963.
