given these young ladies was sufficient evidence of this. The tenor singing, too, of Mr. J. Dorsay was very good. In the several choruses sung, Messrs. Campbell, McDonald, and McIntyre rendered valuable assistance. Although we have particularised some all did well. But while we extend our meed of praise to the young ladies and gentlemen of the Society, we, at the same time, are well aware that their progress and efficiency are altogether the result of the untiring energy and great talent of their President, the Rev. Az. Trudelle. In this connection, we would not be doing justice to our own individual feelings if we were not to express the high sense of gratification and pleasure we felt while listening to the splendid performance by Mr. Montgomery on the violin. We do not know that we have ever in our life heard anything to beat it, perhaps not to equal it. Mr. Conroy put the audience into raptures by the manner in which he acquitted himself. The Choral Society must ever feel grateful to these gentlemen for the great assistance rendered on the occasion, although they were invited to assist at a late hour.

After the musical performances, D. O'Meara Reddin, Esqr., was called upon by the Reverend President to deliver an address, and that gentleman responded to the call by reading an admirably written composition on Irish national music; after which Mr. Whelan briefly addressed the audience, eulogising the character of the entertainment, commenting, at the same time, on the taste for music which has so eminently distinguished the people of Ireland in every age, in every clime, and under every vicissitude of fortune.

The verses sung, as a prelude to the performances, were, we understand, written by the Very Rev. Dr. McDonald, the Patron of the St. Cecilia Choral Society, whose zeal and energy on behalf of the Society has greatly contributed to its success. We append a copy of the verses, though we believe they were not written with a view to publication:—

Come join in a chorus to old Erin's glory,
The patron and genius of that cherished land—
What theme could be chosen from song or from story
So worthy this day of Cecilia's young band.
Breath forth in low strains the pains and chains,
Endured through long ages of sorrow and woe;
Preserve, Patrick saith, your virtue and faith—
Oh! these gems, all her own, are the pride of that nation
Whose sons and fair daughters you meet in the way—
Are marked by their virtues in every station;
And know how to honor St. Patrick's day.

'Tis said that those reptiles that held full possession
Of Erin's green valleys were banished outright;
But the old deadly serpent attempted aggression
On the faith of St. Patrick with cunning and might,
Her temples were burned, her altars o'erturned,
Her priests hunted down like beasts of the chase,
Her faith made a crime by the laws of the time.
But the faith of St. Patrick was too firmly rooted
In the hearts of a people still gallant and gay,
And to-day in old Erin the serpent is hooted
To the soul-stirring tune of St. Patrick's day.

Our own little Island has also its beauty,
Though now for a season in ice fetters bound;
And to make it more lovely is every one's duty,
By virtue and charity all the year round.
Our fathers have seen a richer green,
That decked in its verdure their own native hills,
But the green of our clime in pic-nicking time......
Oh! What beauty can equal our woodland and medow,
And bright beaming eyes as we steam down the bay,
On board of the "Heather Belle," steam.......go ahead, ho!
To the heart-thrilling notes of St. Patrick's day.

[We publish the following letter from the Hon. Colonial Secretary with considerable reluctance. We have no interest in the controversy between himself and the Hon. Mr. Beer. But it appears to us that Mr. Beer assailed the Colonial Secretary with unnecessary severity; and we learn that the editor of the paper which gave insertion to the attack is not willing to publish the rejoinder unless a certain condition can be complied with, which, *it seems*, is not practicable. Mr. Pope is told that he should first use the columns of the *Islander* before applying to another paper to procure insertion for his communication. Mr. Pope says he has not sufficient control over the *Islander* to *command* the use of its columns; and in that spirit of fair play by which we always try to be governed, we cannot see why we should refuse him a place in our columns, reserving to Mr. Beer the right of reply through the same channel.—EDITOR of EXAMINER.]

TO THE EDITOR OF THE EXAMINER.

SIR;—

The accompanying communication was handed to Mr. Laird for publication in the *Protestant* of Saturday. On that morning I was told by him that it could not appear in that issue; and in the *Protestant* of Saturday evening I observe a notice in reference to my communication which leads me to believe that Mr. Laird will not at all publish the communication herewith enclosed, unless a certain publication shall appear in the *Islander*, which I cannot guarantee shall be done, not having such control over that paper as to secure such publication.

Seeing, therefore, that there is no intention on Mr. Laird's part to let my communication appear in the *Protestant*, may I ask you to give it a place in the *Examiner*.

Yours, &c,

W. H. POPE.

TO THE EDITOR OF THE PROTESTANT.

SIR;

In your last issue was published a lengthy communication which bore the signature of GEORGE BEER.

The Honorable George Beer, member of the Legislative Council of Prince Edward Island, had been charged by the Editor of the *Islander* with having garbled a clause of the Report of the Quebec Conference. The Honorable Senator has not replied to this charge, but has assumed that I wrote the article in which the charge is contained—has tried his hand at scurrility—and has made me the subject. That the Honorable Senator will repent him of his temerity, is, in my opinion, highly probable. We are told by the Fabulist, that a Wolf once caught in a wood a kid which had strayed from the shepherd's sight, that the kid begged that before being killed, the wolf would allow her the gratification of hearing him sing, at the same time complimented the *wide mouthed* animal upon the melody of his voice. The silly credulous creature forthwith commenced to *howl*, pleased with the flattery of the kid and the sound of his own voice, he continued his song, until interrupted by the arrival of the shepherd. As the wolf scampered off *minus* the kid, he exclaimed, "What a fool I was not to have stuck to *Butchering*; had I done so I should have enjoyed the kid, whereas by *reason of attempting* that for which God and Nature has not fitted me I alarmed the shepherd and lost my meal."

How far the Hon. George Beer, M. L. C., has committed the same error as did the wolf. It is not my purpose to tell how Mr. George Beer, junr., rose to be a Senator. I propose to prove that the Hon. George Beer, M. L. C., has not forgotten the dishonest tricks of Mr. George Beer, junr. In the year 1852 Mr. George Beer, junr., WAS PROVED GUILTY OF FORGERY.

In 1865, the Hon. George Beer, M. L. C, was guilty of the dishonest act of garbling the Report of the Quebec Conference. The proof of having garbled the Report of the Quebec Conference is before the public.

The evidence of the forgery proved against "Mr. George Beer, junr," in 1852, and fully admitted by him, will be found in the following extract from *Haszard's Gazette* of May, 1852.

"[The following Letter from the Judges of the Fat Cattle Show, on Wednesday, the 7th inst., was then read.]

"SIR;

"We beg to call your attention to a circumstance connected with the Report of the prizes awarded for fat oxen, handed in to the Society by us on Wednesday last.

"On referring to the "Islander," newspaper, of the 9th inst., and comparing the Report contained therein with our written Report (*received from Mr. Ings*,) we found a very material difference—two words in the original Report (which we enclose) have been scored out with a black lead pencil, and Mr. Ings, in the presence of a third party, solemnly assured us, that it was in that state when handed to him for publication by Mr. George Beer, jun.

"As we naturally feel very indignant at the unwarrantable liberty taken with our Report, we beg, in justice to ourselves, and with a desire to expose the unprincipled party, that you will do us the favor to sift the matter, and take such steps as may destroy the impression on the public mind of an unfair judgment, for which purpose the Report has evidently been tampered with.

"We have the honor to be, Sir,
Your obedient Servants,
ROBERT FELLOWES,
W. W. IRVING,
SAMUEL COLLINGS.

"To his Honor Judge Peters, &c., &c., &c.

"Whereupon, the Committee, having called upon the Secretary to explain the matter, and he having stated to the Committee that he handed the original Report to his son Mr. George Beer, jun., to be taken to the "Islander" office for publication, and that he did not make the alteration, nor does he know who did.

"It was resolved, that this explanation cannot be considered satisfactory, inasmuch as it was the duty of the Secretary to have retained the original Report in the office, and to have handed to the printer a correct copy; and he having made his son the bearer of the Report, a strong suspicion must rest upon him of being in some way privy to the alteration; and therefore that this Committee must hold him responsible, until he shall procure and lay before this Committee an admission from his son in writing, that the alteration was made by him without the knowledge, privity, or consent of his father, or give such an explanation of the matter *as will enable* this Committee to trace out the real perpetrator of this unwarrantable act.

"Resolved, That a copy of the foregoing resolution be immediately handed to the Secretary, which having been done, the following communication from Mr. George Beer, jun., was shortly after handed in to the Committee by the Secretary:

"TO THE PRESIDENT AND COMMITTEE OF THE ROYAL AGRICULTURAL SOCIETY.

"For the information of the Committee of the Royal Agricultural Society, I beg leave to state that the Secretary of the Society delivered me the Report of the Judges for Fat Cattle, exactly as it was written by them, to be conveyed by me to the Printing Office. In the Reading Room of the "Islander" Office I observed, that the Ox exhibited by me was stated to have surpassed in size any animal exhibited, and not one word about his being well fed. I considered this to be an insinuation that was not correct: I felt that in the first place I had not been well used, by the Ox not being allowed to compete after I had taken the pains to feed, and bring forward such an animal as the Island had never produced before; and secondly, the insinuation of his only surpassing in size the other animals brought forward, which were calculated to convey a wrong impression to the public. I THEREFORE, ON MY OWN RESPONSIBILITY, TOOK MY PENCIL AND DREW IT ACROSS THE TWO WORDS IN QUESTION, WITHOUT ANY LIVING BEING BESIDE MYSELF KNOWING ANYTHING ABOUT IT, OR BEING IN ANY WAY PRIVY TO IT.

"I felt myself ill used, therefore I did that which, under any other circumstances, I should not have done.

"GEORGE BEER, jun."

At the time of the "fat cattle show" in 1852, Mr. George Beer, senior, was Secretary to the Royal Agricultural Society. At the show "Mr. George Beer junior," exhibited an animal. The judges prepared their report. It was placed in the hands of the Secretary of the Society, Mr. George Beer, senr. The now Honorable George Beer got possession of it and *altered* it.

The legal definition of forgery is "the fraudulent marking or *alteration* of any record, deed, writing, &c., to the prejudice of another man's right"—"a false marking — marking *malo animo* of any written instrument for the purpose of fraud or deceit, *including any alteration of or addition to a true instrument*."

I have heard that the *quandam* dishonest Mr. "George Beer, junior" is sorely out of humor in consequence of his not having been appointed a Cabinet Minister, a few weeks since. Perhaps this communication may assist the Senator to "guess the reason why."

Your obedient servt.
WM. H. POPE.

SUMMARY OF THE PROCEEDINGS OF THE HOUSE OF ASSEMBLY.

MONDAY, March 13.

Hon. Mr. Laird presented the Report of the Committee on private Bills, to whom were referred the Bill to *incorporate* a Bank at Summerside, which Report recommended that said Bill being of a local nature do pass without the usual charge of fees.

On motion of Mr. McLennan, the Bill to be intituled "An Act to incorporate the Summerside Bank," was committed to the House in Committee on the whole. Mr. Sinclair in the Chair.

The hon. member who introduced the Bill, (Mr. McLennan) said he considered it unnecessary to offer any remarks commendatory of the nature and object of this Bill, as he did not suppose it would meet with any opposition from hon. members on either side of the House. The object of the Bill was the establishment of a Bank at Summerside, having a capital of £15,000, with power to increase the same to £30,000 — one-third of the said capital stock of £15,000 to be paid up previous to the Bank going into operation—*the sum of £5 to constitute a share*. Persons eligible for the office of Director to have 30 shares, equal to £150 in said Bank.

After some time spent in Committee, progress was reported and the House adjourned.

AFTERNOON.

House in Committee resumed the consideration of the Bill to incorporate the Summerside Bank, and after going through the same, clause by clause, it was reported agreed to with amendments.

Hon. Mr. Coles gave notice that, to-morrow, he would ask the *Government to produce* the contract for running a Steamer on the East River, and the Tenders received for the same, with a *copy of the advertisement calling for such* Tenders.

Hon. Mr. Pope, a member of Her Majesty's Executive Council, presented to the House the Auditors' Classified Accounts for the year 1863, and the same were referred to the Committee on Public Accounts.

On motion of the Hon Col. Secretary that the Bill relative to Oyster Fisheries be read a third time,

Mr. McLennan said that when this Bill was in Committee of the whole House, he was in the Chair, and therefore deprived of expressing his views relative thereto. He was now, however, glad to say that the Bill was so modified and amended as to enable him to give it his concurrence and support; at the same time he wished it to be distinctly understood that he was opposed to giving any grants or exclusive rights to fish Oysters on existing Oyster beds. He was, however, assured by his hon. colleague (Mr. Green) who was better acquainted than he with the localities proposed to be granted, that there were no Oysters within the limits described for Prince County in the Bill. It was but just and proper to protect parties who might be disposed to embark in the enterprise of causing the growth and production of Oysters in new beds, especially as the Bill guarded against any interference with farmers procuring Mussel mud. He would, therefore, support the motion made by the Hon. Col. Secretary.

Hon. Mr. Coles moved, in amendment, that it be read again this day three months.

For the amendment—Hons. Messrs. Coles, Thornton, Warburton, Laird, Messrs. Sinclair, Walker, Howat—7.

Against it—Hons. Col. Secretary, Gray, Pope, Solicitor General, Davies, Kaye, Kelly, Messrs. Conroy, Howlan, Sutherland, Duncan, McLennan, Ramsay, Brecken, Montgomery—15.

The Bill was accordingly read a third time and passed.

Mr. Howlan introduced a Bill relative to the inspection of Pickled Fish. In submitting this Bill, the hon. gentleman observed that it was unnecessary for him to explain its provisions, it being a copy, with some amendments, of the Bill of last Session on the same subject, which had been rejected by the Legislative Council. It was, however, a measure much required for the protection of those engaged in that important branch of our resources, the Fisheries of this Island; and he hoped the Bill would receive, this Session, the hearty concurrence of both branches of the Legislature.

Mr. Montgomery said he feared the Bill would prove injurious to the owners of small Fishing Vessels who might feel disposed to proceed to some near port with small cargoes of fish. It might, therefore, be a hardship to such small traders to be compelled to have their fish inspected in *accordance with the provisions of this* Bill.

It was then ordered to be committed. Mr. Sinclair in the Chair. After some trifling discussion in Committee, the Bill was reported agreed to.

Hon. Col. Gray presented a petition from certain inhabitants of Squaw Bay, Lot 49, complaining of some of the provisions of the present School Act.

Ordered to be laid on the table.

Hon. Mr. Pope remarked that several petitions, relative to the opening of new roads, were presented. He would, therefore, recommend that a Committee be appointed, to whom should be referred the said petitions.

The following gentlemen were accordingly appointed a Committee on new Roads, viz: Messrs. McLennan, Laird, Howat, Thornton and Conroy.

Hon. Mr. Pope then presented certain petitions relative to the opening of new roads.

Ordered to be submitted to the said Committee on new roads.

House adjourned.

TUESDAY, March 14.

Hon. Mr. Pope moved a resolution to the effect that the House would, to-morrow, resolve itself into a Committee of the whole on Ways and Means.

A message was received from the Legislative Council notifying the House that the Seduction Act had received the sanction of that body.

Hon. Mr. Davies, chairman of the Committee appointed to bring in a Bill relative to Merchant Seamen, reported a Bill on that subject. Said Bill was received and read.

The standing order relative to the second reading of Bills on the same day, having been suspended, the Bill was read a second time; and, on motion of the Hon. Mr. Davies, was committed to a *Committee of the whole House*. Mr. Sinclair in the Chair.

This Bill is intituled "An Act to make provisions for the regulation of Seamen shipped on board of any ship or vessel owned in, or belonging to, Prince Edward Island, where such ship or vessel shall be within the precincts of the said Island."

Hon. Solicitor General explained the leading provisions of the Bill, and said it was compiled principally from the Imperial Act relating to the same subject.

After some time spent in Committee, during which the Bill, which was read clause by clause, elicited no discussion, save a few remarks on that clause in the Bill which provides that the payment of seamen's wages shall not be contingent upon the fact of the vessel earning her freight, it was reported agreed to.

Hon. Mr. Coles, according to notice given by him yesterday, asked the Government to produce the Tenders and other papers touching the running of a steamer on the East River.

Hon. Mr Pope submitted one of the two Tenders received by the Government for the running of a Steamer on the Hillsborough and Elliot Rivers. The other tender, which, being the lowest, was accepted, was, he said, in the hands of the Attorney General for the purpose of drawing up the necessary contracts, when that officer would return from Georgetown. He also produced the *Royal Gazette* containing a copy of the advertisement calling for said Tenders.

House adjourned.

WEDNESDAY, March 15.

The Annual Report of the Superintendent of Public Works was submitted to the House by the Hon. Mr. Pope. Received and read.

Also the Reports of Dr. H. A. Johnson, as Health Officer and Superintendent of Vaccination. Ordered that the latter be submitted to a Committee of the whole House this afternoon.

Hon. Col. Secretary gave notice that, to-morrow, he would move for a Committee of the whole House for the purpose of taking into consideration the expediency of introducing a Bill relative to the public wharf at Summerside.

Hon. Mr. Davies submitted a Resolution to the effect that, to-morrow, the House do go into Committee of Supply.

Hon. Solicitor General, agreeably to notice, submitted a Bill to amend the law for the better administration of justice. The hon. gentleman, in introducing the Bill, explained its principal provisions. He said that the Bill specified a more simple mode for sueing Corporate Companies, such as Marine and Fire Insurance Companies, Banks and other Corporate Institutions; that it enabled executors to distrain for rent due deceased testators or intestates, making the Executors liable for costs when they sued improperly; that it authorized Jurors to give interest on Contracts in certain cases, and also in actions of trover and trespass, and the payment of monies into Court in certain actions of *torts*. The Bill also enables parties to be sued who might have *signed* their initials *only* to Notes of Hand and other contracts, without giving their names in length. In submitting the Bill, he remarked that he hoped he had not made the same mistake as on Saturday, when he handed a paper, containing some notes on the law of Real Estate, to the Clerk in place of a Bill, which some malicious writer in the *Herald* newspaper of this morning has falsely stated to be a speech on Confederation. The paper which he inadvertently gave the Clerk belonged to a professional gentleman not a member of the House.

The Bill was then ordered to be read a second time to-morrow.

Mr. Brecken, in accordance with previous notice, introduced a Bill, the object of which was to extend the Civil Jurisdiction of the Mayor's Court, in this City, to actions of Replevin, Assault, Slander, &c.; and to enable actions to be brought where either party to the same resides within the limits of the City. The Bill also provides for the extension of the Criminal Jurisdiction of the said Mayor's Court, so as to abolish the restrictions which limits the jurisdiction of said Court to the sum of ten pounds.

Ordered that the said Bill be read a second time to-morrow.

House adjourned.

THURSDAY, March 16.

On motion of the Hon. Mr. Pope, the House went into Committee of the whole to take into consideration the Report of the Superintendant of Vaccination, and the Memorial of the Health Officer for the Port of Charlottetown. Mr. Sinclair in the Chair

After some remarks from several hon. members, in support of the suggestions contained in the above Report, all of whom concurred in the desirability of using every precautionary means for the prevention of the spread of Small Pox on this Island, and of affording increased facilities for Vaccination, the protective power of which had been fully explained in the said Report, the

Hon. Solicitor General moved a Resolution to the effect that the Act to provide for Vaccination be so amended that the fee for Vaccination should be paid by the Government, and not by the parties vaccinated, and that the number of Health Officers be increased.

The following gentlemen were then appointed a Committee to bring in a Bill in accordance with said Resolution, viz:—Hon. Solicitor General, Hon Mr Davies, and Mr. Howat.

The Memorial of the Health Officer was then read, setting forth the inconveniences to which that officer had been subject, from the fact that he was not provided with a Boat, or any assistance, in the discharge of his important duties, and also complaining of the mode by which his fees were paid.

In the discussion which followed the reading of said Memorial, it was considered advisable that a boat should be procured and placed in charge of the Preventive Officers for the Port of Charlottetown, whose duty it would be, when called upon, to render assistance to the Health Officer, by enabling him to get on board vessels, where his services might be required, with as little delay as possible; after which the

Hon. Mr. Pope submitted a Resolution for the purpose of amending the Act 14th Vic., Cap. 5, in order that the fees allowed to Health Officers, by said Act, be paid by Masters of Vessels, liable to pay such fees, into the Custom Houses of this Island, instead of paying the same to the Health Officer.

Hon. Mr. Pope, Messrs. Brecken and Haslam were then appointed a Committee to prepare a Bill in conformity with the said Resolution.

Hon. Mr. Pope, a member of the Government, presented to the House the Impost Accounts, for the various ports of this Island, for the past year. Referred to the Committee on Public Accounts.

Hon. Mr. Coles asked for the Detailed Accounts

Hon. Col. Secretary said they were prepared and would be laid on the table to-morrow.

Hon. Sol. General submitted a Bill to amend the Law relative to Libel. He said that as he purposed to explain the principles of the Bill at its second reading, he would not now detain the House with any remarks; he would, however, observe that the Bill was a transcript of an Act known as Lord Campbell's Act. Ordered to be read a second time to-morrow.

On motion of Mr. Howlan, the Bill to regulate the inspection of Pickled Fish for exportation from this Island, was read a *third time and* passed.

Mr. Brecken presented a petition of sundry inhabitants of Lots 24 and 33, Tenants on Winsloe Estate. Referred to the following special Committee to report thereon, viz: Messrs. Brecken, Col. Secretary and Laird.

Hon. Col. Secretary, pursuant to notice, submitted a Resolution to the effect that the House go into Committee to consider the expediency of adopting some regulations relative to the Wharf at Summerside.

The House accordingly resolved itself into a Committee of the whole. Mr Howat in the Chair.

A short debate ensued relative to the necessity of providing some means by which Wharfs, and Bridges which were used as Wharfs, should be made self-sustaining, by levying a small tax on goods landed on, and exported from such Wharfs and Bridges; after which the Hon. Col. Secretary submitted a Resolution, to the effect that it was expedient to authorize the Lieutenant Governor in Council to lease the public Wharf at Summerside, and other Wharfs on the Island; and also to levy a tax on all produce or goods landed on, or exported from, different Wharfs and Bridges. Said Resolution was then agreed to, and the following gentlemen were appointed a Committee to prepare a Bill in accordance thereto, viz: Hons. Col. Secretary, Laird and Coles.

Hon. Mr. Pope submitted a Resolution stating that no new matter, on which to frame a Bill, would be introduced to the House after next Thursday, the 23rd inst

His honor the Speaker then read a letter from the Secretary Young Mens's Christian Association and Literary Institute, inviting his honor the Speaker and the hon. Members of the House of Assembly to attend the weekly lectures of that Institute, held at the Temperance Hall, after which the House adjourned.

FRIDAY, March 17.

Hon. Mr. Davies, a member of Her Majesty's Executive Council, presented to the House the Estimates of the Expenditure of the Government for the current year, which were read and laid on the table.

The House then went into Committee of Supply. Mr. McLennan in the Chair.

On motion of the Hon. Mr. Davies, a Resolution granting the usual salaries and allowances, provided by Statute, was adopted, and progress was reported.

The following are some of the items of Expenditure for the current year, viz:

Model or Stock Farm,	£2,500
Road Service, including Contracts already entered into for Roads and Bridges,	8,150
Special Grants for Wharfs and Bridges,	4,000
Volunteers and Militia,	1,000
For new Light House at North Cape,	500
Towards building a new Market House in Charlottetown,	1,000

On motion of Mr. Brecken, the House went into Committee on a Bill to extend the Jurisdiction of the Mayor's Court in Charlottetown. Mr. McLennan in the Chair.

Mr. Brecken explained the two principal paragraphs in the Bill, which were, 1st, that the Mayor's Court should, in civil suits, have Jurisdiction co-extensive with that of the Courts for the recovery of Small Debts in cases where either the Plaintiff or Defendant should reside within the limits of the City; and, secondly, that the Criminal Jurisdiction of the said Court be extended, by abolishing restrictions which, by law, limits its power to the sum of ten pounds.

Hons. Messrs. Coles, Solicitor General, Laird, Pope, Messrs. Montgomery, Howlan, Howat, Haslam and Sinclair, spoke in opposition to those two paragraphs in the Bill, on the grounds that the extended Jurisdictions asked for were inexpedient, from the fact that every necessary facility had already been given to suitors in City and Country. Additional Small Debt Courts had recently been established in different parts of the country, with the view of saving expenses incurred by persons having to travel long distances from their homes to attend Commissioners Courts It was, therefore, considered unfair to compel such parties to attend at the Mayor's Court in Charlottetown, while Small Debt Courts were established in the Districts of which they are residents.

That clause in the Bill was, therefore, disagreed to.

The paragraph asking for the extension of the Criminal Jurisdiction of said Court, by abolishing the restrictions which limits its power, was also rejected.

The Bill was then reported agreed to with several amendments.

House adjourned.

SATURDAY, March 18.

Mr. Brecken, Chairman of the Committee to whom were referred the petition of the Tenants of the Winsloe Estate in this Island, submitted a Bill for the purpose of remedying the evils complained of.

The Bill was received and read, and referred to the Committee on Private Bills.

Hon. Col. Secretary, a member of Her Majesty's Executive Council, submitted the Detailed Accounts and Vouchers, of the past year, which were laid on the table.

On motion of the Hon. Mr. Davies, the House went into Committee of the whole on Ways and Means.

Hon. Mr. Pope submitted a Resolution to the effect that Salaries should be paid to the Collector of Customs at Summerside and Georgetown, in lieu of the present mode of payment, by the allowance of commission on moneys collected.

The alteration recommended as above, was favorably received in the debate which followed the Hon. Mr. Pope's remarks on that subject, during which debate it was admitted by several hon. members, on both sides of the House, that the salary of the Collector of Customs at Charlottetown was inadequate, and that his duties were the most important and arduous of any other officer in the public service. The policy of the Government relative to the mode of paying assistants in the public departments, and the appointment of Solicitor General, was also discussed, (a report of which will appear in the extended Debates of the House); after which the Resolution was reported agreed to.

Hon. Mr. Hensley, Chairman of the Committee appointed to bring in a Bill for the purpose of amending the law regulating the sale by license of Spirituous Liquors, submitted a Bill relative thereto; which was received and read, and ordered to be read a second time on Monday next.

Hon. Mr. Pope introduced a Bill, the object of which is to compel Masters of Vessels to rise Lights, mast high, on board their Vessels from sunset to sunrise. In submitting the Bill the hon. member alluded to the fact that collisions had frequently taken place in our harbors on dark nights because of the absence of such lights.

The Bill was received and read, and ordered to be read a second time on Monday next. House adjourned.

AFTERNOON.

Mr McLennan presented a petition, numerously signed by inhabitants of Prince County, praying for the adoption of the Decimal Currency system in this Island, which was received and read.

On motion, the House went into committee on the subject of the petition—Mr Green in the chair.

Mr. McLennan explained the principal prayed for by petitioners, and the necessity of its adoption He alluded to the present confused state of our currency, and the desirability of introducing a uniform system such as obtained in the neighbouring Colonies. He said that as far back as the year 1860, an intimate friend of his, then an hon. member of this House, advocated that measure; the chief argument against the principle then was, that "the time had not arrived" for the change which the system would effect in our momentary affairs; he hoped, however, that that stale and hackneyed phrase would not now be repeated in arguing this question. He spoke of the facilities afforded accountants by the decimal system, and recommended its use in the various public offices of the Colony. He was supported by the Hons Colonial Secretary, Davies, and Mr Howlan, all of whom favored the adoption of the Decimal system.

Hons. Messrs. Hensley, Longworth, Coles, Solicitor General, Pope, and Messrs. Duncan and Howat, opposed any immediate action on the subject, but would support the appointment of a Committee, to whom should be referred the petition to report thereon, by Bill or otherwise, at the next Session of that House.

A resolution to that effect was then submitted and agreed to, and the following gentlemen were appointed a committee in conformity therewith, viz:—Messrs. McLennan, Davis, Howlan, Longworth and Hensley.

Hon. Mr. Coles gave notice that on Monday next, he would ask the Government the reason why the petition of M. McLeod, praying for compensation for the Model of a Ship for the London exhibition, was not complied with; also why no encouragement, by way of subsidy, was given to the Boston line of Steamers.

Hon. Solicitor General submitted a Bill, the object of which was to pay the Custom House Officers at Summerside and Georgetown salaries in place of fees, which was received and read.

Hon. Mr. Pope submitted, by message from his Excellency the Lieutenant Governor, the Annual Returns of the Volunteer Department.

Hon. Mr. Pope also submitted the Tender previously asked for, relative to the Contract for a steamer on the Hillsborough; said tender was received and read. Ordered to be laid on the table.

Hon Mr Coles remarked that the Contractor should be bound to call at Hayden's wharf, and other wharfs on the North side of the river.

Hon Col Secretary said that if the tender was in accordance with the notice asking for such, and consistent with the law in that case, the Government could not be expected to demand any further services.

Hon Solicitor General submitted a Bill relating to the law of libel, whibh was received and read, and, on motion, was committed to a Committee of the whole House. Mr Sinclair in the Chair. After which progress was reported and the House adjourned.

A. McNEILL, Reporter.

CATHOLIC YOUNG MEN'S LITERARY INSTITUTE.

Richard Reddin, Esqr., lectured before this body, last Wednesday evening, on "Oliver Goldsmith." He gave a full and accurate account of the life and writings of Goldsmith, dwelt at length upon his genius and character, the beauties of his style, and the varied excellences of his compositions. The lecture was well arranged, was couched in pleasing and appropriate language, and was read very distinctly.

Mr. W. W. Sullivan will lecture on next Wednesday evening: Subject—"A brief review of some of the literary characters of the 18th century."

MARKET HOUSE IN CHARLOTTETOWN.—We have understood that £1,000 is to be given by the Legislature to the City Authorities, in order to aid them to erect a Market House in Charlottetown. There is, we believe, no little difficulty in agreeing upon the site. A few years ago there was a very warm discussion in the House of Assembly as to whether the City should be allowed to build a Market House upon the reserve adjoining Queen Square, and fronting upon Queen Street. The advocates for having the Market upon the Square, carried their point; and the "West end of the Square" was placed at the disposal of the City as a site for a Market. The Market House has not been built. The opinions of the owners of property near the Squares have changed, and, now, those who were most anxious that the Market should be built upon the Square, are strongly opposed to its being placed there. How this difficulty will be overcome we cannot say. It is very certain a Market House is much wanted, and that it should be built forth with. With a very valuable site, and £1,000, there can be no reason why a handsome Market House should not be erected, the more especially as there is reason to believe that the institution would have a profitable investment. The hovel which disfigures the chief Square of the City, and is called the Market House, was the glory of the times of Governor Smith—when the adult population of Charlottetown might have been collected under its roof. It is now fit only for a bonfire.—ISL.

STOCK FARM.—It is said that £2,500 will, this Session, be appropriated for the purpose of re-establishing a Stock Farm.—IB.

COLONIAL.

Speaking of a Union of the Maritime Provinces, the *Presbyterian* says:—"When we have one Parliament for the Lower Provinces, there will be less opportunity for any of the demagogues who have deprived York of Mr Fisher, and given it to Mr. Needham, to urge a canvass based upon the loss of *prestige* to our present capital, as likely to be involved in Confederation; but we shall be greatly astonished if some of the men who, to defeat the larger union, cry out for the smaller one, do not speedily turn round and oppose the latter even more heartily than the former."

The Nova Scotia Railway returns for the month of January, 1865, show an increase of $1534.79 over the same month of 1864.

Messrs. Cunard & Co. of Halifax, have sent another steamer, the "Osprey," on a sealing voyage.

A correspondent of the Montreal *Gazette* informs that paper that he has effectually cured consumption by the practice long in vogue in China of smoking a senic mixed with tobacco.

A TRIAL PROVES IT.—Words cannot describe the gloss, the silkiness, luxuriance, the flowing wavy beauty of the hair that is dressed with MRS. S. A. ALLEN's World's Hair Restorer and Zylobalsamum or Hair Dressing. They keep alive the roots of the hair, fill them with nourishment, moisture, and produce a magnificent growth. Every Druggist sells them. W. R. WATSON, Agent for P. E. Island.

Cleanse the Blood.

With corrupt, disordered or vitiated Blood, you are sick all over, it may burst out in Pimples, or Sores, or some active disease, or it may merely keep you listless, depressed and good for nothing. But you cannot have good health while your blood is impure. AYER'S SARSAPARILLA purges out these impurities and stimulates the organs of life into vigorous action, restoring the health expelling disease. Hence it cures a variety of complaints which are caused by impurity of the blood, such as *Scrofula* or *King's Evil, Tumors, Ulcers, Sores, Eruptions, Pimples, Blotches, Biles, St. Anthony's Fire, Rose* or *Erysipelas, Tetter* or *Salt Rheum, Scald Head, Ring Worm, Cancer* or *Cancerous Tumors, Sore Eyes, Female Diseases*, such as *Retension, Irregularity, Suppression, Whites, Sterility*, also *Syphilis* or *Venerial Diseases, Liver Complaints*, and *Heart Diseases*. Try AYER'S SARSAPARILLA, and see for yourself the surprising activity with which it cleanses the blood and cures these disorders.

During late years the public have been misled by large bottles pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter disappointment have followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself has become synonymous with imposition and cheat. Still we call the compound "Sarsparilla," and intend to supply such a remedy as shall rescue the name from the load of obloquy which rest upon it. We think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. We can only assure the sick that we offer them the best alterative which we know how to produce, and we have reason to believe it is by far the most effectual purifier of the blood yet discovered by any body.

AYER'S CHERRY PECTORAL is so universally known to surpass every other remedy for the cure of Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipent Consumption, and for the relief of Consumptive Patients in advanced stages of the disease, that it is useless here to recount the evidence of its virtues. The world knows them.

Prepared by DR. J. C. AYER & Co, Lowell, Mass, and sold at wholesale and retail by
GEO. A. BAYARD, St. John, N. B.
AVERY BROWN & Co, Halifax N. S.
W. R. WATSON, Ch'town, P. E. E.

HUNNEWELL'S UNIVERSAL COUGH REMEDY.

There is, probably, no line of diseases which has been more erroneously treated than Throat and Lung Complaints.

There is also not a recipe written, nor a preparation before the public for the above complaints, that does not contain Ipecac, Antimony, Lobelia, or Opium, in some form or other, which I claim to be entirely unnecessary in nine-tenths of such cases, as they produce nausea, cause the stomach to repel food, and allow disease to triumph over what nature requires to keep up strength.

Again, these objectionable components cause doses to be placed so far apart, that the irritation which causes the cough gets the upper hand, and the foundation of weak lungs or consumption is permanently laid.

A true Cough Remedy should not only be the pocket, bedside, or nursery companion of all, and to be used just as often as there is tickling in the throat, or disposition to cough, but to allow of its free use after the cough is checked, to clear away all remaining irritation, and make the cure perfect.

Cases of most violent Sore Throat, with all the symptoms of Diptheria have been entirely cured by making a constant use of the Cough Remedy as a Gargle. For Hoarseness it is invaluable.

JOHN L. HUNNEWELL, PROPRIETOR,
Practical Chemist, Boston, Mass.

☞ For sale by all dealers in Medicine.

W. R. WATSON, T. DESBRISAY, and M. W. SKINNER, Wholesale and Retail Agents, Charlottetown.

March 20, 1865. 1m

Holloway's Pills and Ointment—Colds, Coughs, Shortness of breath.—These corrective remedies are infallible for these pectoral complaints, which, neglected, often end in asthma, bronchitis, or consumption, The Ointment, well rubbed upon the chest and back, penetrating the skin, is carried directly to the lungs, when it expels all impurities. All the blood in the body constantly passes through the lungs, and there all noxious particles tending to produce disease can be, quickly, thoroughly, and permanently neutralised, rendered harmless or *ejected from the system*. Holloway's Ointment and Pills perfectly accomplish this purification; and through the blood, thus cleansed, the influence of these wonderful medicaments reaches the remotest parts of the human body, and thus cures all diseased action, whether internal or external.

"A HORSE IS LIKE A MAN,"

And like a man, if he is overworked, needs care and medicine. How many times we see a horse worth two or three hundred dollars, apparently broken down by excessive work, like the expression in Shakespeare, "Each particular hair stands on end like quils on the fretful porcupine," in other words he is out of condition.

What shall we do?
Give "Carlton's Condition Powders."
"Carlton's Condition Powders" are Sure!
"Carlton's Condition Powders" are Safe!
"Carlton's Condition Powders" are Harmless!
TRY THEM!!
Sold by all Dealers.—25 cents per Package.

Died,

At Red Point, Lot 46, on the 2d inst, Mr. Danl. R. Stewart, Merchant, of Murray Harbor, in the 33d year of his age.

Thursday, the 9th inst, Margaret, youngest daughter of Jas. Miller Esq, and beloved wife of Mr John Robertson, Roselyn Cottage, St. Peter's Road, Lot 34, aged 31 years.

On the 16th Feb, Charlotte, third daughter of the late Donald Stewart, Harbor's Mouth, in the 42d year of her age. Her end was peace.

On board the barque Albocore, on the 6th Jan while on her passage from Berbie to Liverpool, of yellow fever, Mr. Rodk. McDonald, of Charlottetown, P. E. I., mate of said barque, aged 27 years

On the 6th inst., of Consumption, at his residence, at Montague Head, Mr. Arch. McDonald, in the 34th year of his age, leaving a wife and a number of relatives to mourn their irreparable loss.

On the 27th Jan. Mr. Jno. Stewart, aged 72 years, an old and respected inhabitant of West River, East Point, Lot 47.

At Summerside, on the 22d Dec. Gregory Layten, aged 3 months and 19 days, and on the 4th inst, William Perry, aged 8 years and 10 months, beloved children of James and Helen W. Gourlie.

At Kildare, Lot 3, on Friday morning, the 10th instant, in her 27th year, Anne, the beloved wife of Patrick Foley, leaving a kind and affectionate husband and a large circle of friends to mourn her loss. The deceased was distinguished as a member of the community for her unaffected piety and humility of disposition, which endeared her to a large circle of relatives and friends, who deeply lament their bereavement. She was also universally beloved by all who knew her. "For blessed are the dead that die in the Lord."

At Grand River, Lot 14, on the 13th instant, in the 73rd year of his age, Alexander McLellan, senr. leaving a disconsolate widow and ten children to mourn their loss. The deceased was distinguished for his patience, piety and humility, which endeared him to a large circle of relatives and friends. May he rest in peace.

March 20, 1865.

It is a well known fact

THAT the BOOTS, SHOES, &c. made at the Prince Edward Island BOOT & SHOE FACTORY, are better and cheaper than can be imported.

THAT Wholesale Dealers can buy their Boots, Shoes, &c, on **better terms** and at **lower prices** than they can import them.

THAT Wholesale Buyers can order small or large lots upon the same terms, and can receive them in any part of P. E. Island within **three days** from the time their order is received

THAT Dealers in Boots, Shoes, &c, can prevent a surplus stock remaining on hand by buying at the above establishment.

THAT Wholesale Buyers can have made to order any description of Boots, Shoes, &c, required, at short notice.

THAT all who have bought Boots, Shoes, &c, are decidedly of opinion that it is to their advantage to patronize the **Prince Edward Island Boot and Shoe Factory.**

THAT the Merchants and others who have bought at the above establishment can with confidence recommend them to their customers.

☞ Orders respectfully solicited and punctually attended to.
