Memorials ARE FOR THE LIVING

For the living, the moral and spiritual influence of an appropriate monument placed in honor of those departed is a source of inspiration through the years. That is why so many family monuments are planned well in advance of need; chosen with care to make sure of the type of design that will best commemorate lives that have been shared. As Master Craftsmen in Vermont Marble, we offer expert counsel and every assistance in selecting the family monument. The high quality, natural crystalline beauty, and century-proven durability of Vermont Marble make the simplest memorial a distinctive tribute.

To succeeding generations, the family memorial does more than give evidence of the faith and strength of character of the departed. It inspires the living to carry on the fine tradition of this early heritage. When you choose a monument of beauty in enduring marble or granite, your tribute will be undimmed for generations to come. As memorial craftsmen since the year 1870 we offer you assistance and expert counsel in selecting your family monument.
