REV. MR. CHINIQUY.—This reverned father appears to be continually getting himself into trouble. We see by a Canadian exchange that he has been deposed from the ministry of the Presbyterian Church of Kanawha, Illinois, by his reverend coadjutors, for unministerial and unchristain conduct. Witnesses were summoned before the *Presbytery* and *testified* to the charge of "conniving at and abbetting fraud." His ministerial brethren were unanimous in passing sentence of condemnation upon him. The reverned gentleman has now applied for admission into the Presbyterian Church of Canada. We remember what a time was made about this gentleman two or three years ago when he left the Roman Catholic Church and turned Protestant. The Baptists claimed him, and if we do not mistake some other denominations had something to say in the matter. Finally he joined the New School Presbyterians of the United States, after being liberally supplied with money by several of the Protestant denominations for the use and benefit of *his people, who, he said, were persecuted, starving, naked, &c., &c.* The Presbyterian Church, it is said, stretched its doctrines a point or two so as to admit him — that is, they widened their doors just a little, so that this burly personage might pass in with his numerous flock. If we remember right, a great deal of sympathy was expressed for Mr. C. even in St. John, and money was sent to him by some zealous individuals on the faith of his representations in the newspapers. In this way thousands—perhaps tens of thousands—of dollars have found their way from the pockets of many good people into those of Father Chiniquy and his lambs. We do not know what his patrons here will say about him now; but our opinion is that those gentlemen who are so fond of gliding from one church into another ought to be discouraged rather than encouraged, unless their faith and and piety have been well tested before hand. Mr. Maturin in Halifax and Mr. Chiniquy in Canada have given their friends and enemies a great deal of trouble. Mr. M. has ended by finding himself where he started from, and the end of Mr. C. may yet be something similar. Each of them has been the means of stirring up bad blood between different denominations. As for Mr. Chiniquy, we cannot see how the Presbyterian Church of Canada can receive him after he has been deposed by the Presbyterians in Illinois. But then very good people sometimes do very strange things.—*St John Morning News.*

ARE ALL MEN EQUAL?

All men are equal *in natural* rights, but not in intellect, position and inventive genius. The necessities of domestic and political intercourse require that governments should be formed, order maintained and disturbers of the peace restrained and punished. In the accomplishment of such organization, different intellects (which nature has amply provided) are required to fill positions differing in importance, rank and power. It has truly been said that

"Order is Heaven's first law, and this confest,
Some are, and must be, greater than the rest."

But, aside from the laws of society, nothing can be more obvious than the great inequality of the human understanding. While one man is but a weak imbecile, scarcely able to provide for his individual necessities—another, with a giant intellect strides upon the mountain tops of science, or penetrates the profoundest depths of the whole human race! In regard to these things, men are very far from being equal. One man is a mere cypher, while another towers high above the rest, and stands pre-eminently an object of admiration. Such intellects, when guided by the principles of pure benevolence and good-will, are like cities of refuge, to which the infirm and needy may resort for safety and protection.

Such were never more needed to heal the sick and administer to the wants of those suffering from the various diseases to which the human system is subject, than in the present age, when ignorant, unskilful and designing men are cursing the world with the multitude of their destructive nostrums.

Among the human benefactors of the present day, no one stands more enviously elevated than the celebrated *Professor Holloway*, of London, whose Pills and Ointment have no equals in affording lasting relief to those suffering from diseases prevalent at all seasons of the year, and in all parts of the world. Their power in curing ulcers, wounds, old sores, bad legs, and especially "bad breasts," from which many suffer so intensely, is truly wonderful.

The Press everywhere commends them, and, we believe, justly. Indeed, it can hardly be at fault in recommending an article that has stood the test of severe competition, and maintained the highest place in the public confidence for more than twenty years. The Pills purify the blood and relieve the system, while the Ointment assuages the pain, and heals all wounds and eruptions on the surface of the body. Surely very few men are equal to Doctor Holloway.—*Auburn Kickerbocker.*

THE NEW TARIFF.—The new tariff which will come into operation in the Northern States on the first of August, imposes a duty of thirty-five per cent. on foreign manufactured goods, being an increase of five per cent. on the former rate. Heavy advances are also made on iron, liquors, sugars, and many other articles. The warehousing law has also undergone some important changes. Importers may have their goods in bond a year, instead of three months, as formerly, when withdrawn for consumption, or three years when withdrawn for exportation. In regard to the duty on the goods in bond, the new law provides that if the goods have been imported under the tariff of last August, they may be withdrawn within three months on payment of the old rate; if imported under the other laws they must be withdrawn during the current month of July, or be subject to the new duties.

RIVERS OF BLOOD.—The circulation in the system is not unlike the flow of rivers to the sea, which move smoothly until they are clogged or obstructed. But when drift wood or alluvial deposit dams them up, then comes the tearing devastation that follows the obstruction of a force which cannot be stayed. So the blood circulates insensibly through the system until it becomes clogged by disease, then burst out the ulcers, sores and disorders which follow that condition. Take Ayer's Sarsaparilla and purify your blood to save yourself from the floods, freshets and deluges that sweep unnumbered multitudes out upon that shoreless sea which swallows all mankind.—*Lancaster (Pa) Register.*

NEW YORK DRY GOODS TRADE.—The New York dry goods trade last week was very much unsettled, and the market assumed a queer phase, resulting in an almost total suspension of business. The rapid rise in gold and sterling exchange caused nearly all importers to withdraw their stocks from the market, or to offer them only at such prices as place them beyond the reach of jobbers. Thus, for the first time in the history of the trade, the very merchants that are usually drumming for business virtually refuse to sell.

SPECIAL NOTICE. — *Holloway's Ointment and Pills*—Declining health.—The first symptom of departing health should have instant attention and redress, not more for the comfort of the present, but for the happiness of the future. Whatever be the irregularity, wherever situated, however masked, Holloway's remedies will reach it and remove it. The external employment of the Ointment over the part effected, and the internal use of the Pills, will always restore order and ease. Skin disease, want of appetite, nausea and billiousness are immediately cured, and healthy functions permanently restored to each organ. The united action of Holloway's remedies over the human frame is so singularly searching, soothing and curative that few diseases can long withstand the thorough purification they constantly bring about.

A new eruption of Vesuvius is expected at Naples. The volcano is already sending forth lava in the direction of Pompeii and ashes in the direction of Portici. The atmosphere of the city is highly charged with electricity —a phenomenon which usually precedes an eruption.

FROM THE STATES.

THE Mail of Saturday night brought no important news from the States. The only noticeable event of the week in connection with the war, is the reported supercedure of General McClellan in the chief command of the Armies of the United States. General Halleck is spoken of as his successor. If this change has taken place, it is very evident that the Government at Washington have lost confidence in the "Young Napoleon," and that they regard him as the chief cause of their sad reverses before Richmond. What effect the change will have on the future prosecution of the war, it would be premature to conjecture.

The reader will probably remember having read of the execution of one Brown, hanged at Toronto for the supposed murder of a Mr. Hogan. Brown, up to the last minute, earnestly protested that he was entirely innocent of the crime. But a jury had convicted him upon what was deemed by the judge sufficient testimony, and the Executive Government refused to commute the sentence of death. On the 18th inst., a girl of ill-fame—the principal evidence in Hogan's case—in the course of her examination in the Police Court at Quebec, in a case of theft, made a voluntary confession to the effect that her whole evidence in poor Brown's case was a sheer fabrication, made up by herself and the other witness—her paramour—for the purpose of obtaining the reward offered by the government for the discovery of the murderer. This is not the first instance of the kind which we remember to have met with, where the cursed love of gold has led to the betrayal of innocent blood. Brown's Counsel, if our memory serves us, earnestly impressed upon the jury the necessity of receiving this girl's testimony with caution,—it was too circumstantial, too much in unbroken detail, not to create some suspicion as to its truthfulness; but the monition was heeded by neither judge nor jury, and Brown suffered innocently. How judge and jury will feel to-day one may readily fancy. The reminiscence will not be sweet.—Halifax Sun, July 23.

HIGHLY IMPORTANT DESPATCH.—A telegraphic despatch was received by a gentleman in this city this forenoon, from New York, stating that the Irishmen of that Empire City had held a mass meeting, at which it was resolved that no further enlistments should take place, in consequence of the wounded of the Federal army being uncared for, and the non-payment of the Northern soldiers engaged in the war. It is rumored that there will be resistance to the projected conscription.—Halifax Express, July 21.

ENGAGEMENTS WITH THE REBELS.—Chicago, July 16.—A special despatch to the Tribune, dated Memphis, says that 200 of Col. Fitch's command had an engagement with the rebels, numbering 450, on the morning of the 6th inst. The Federal loss was 22 killed and wounded, and the rebels had 84 killed, wounded and missing. Another engagement took place on the night of the 7th. Col. Fitch captured all the enemy's camp equipage and provisions. Both fights are said to have taken place within ten miles of Duval's Bluff, where a large force of rebels are said to be stationed.

BOUNTY FOR RECRUITS IN NEW YORK.—Albany, N. Y., July 16.—The Governor has determined to take the responsibility to offer a State bounty of $50 to each recruit, and provide a sum sufficient for that purpose, trusting to the next legislature to *endorse* his action. The amount required is from two to two and a half millions.

OMINOUS.—In our last issue we stated that the Federal army were getting tired of the war, and took every opportunity of deserting. Here we have now a strong corroboration of this surmise in the following quotation from the N. Y. *World*:—

"And the great cause for the steady diminution of our forces in the field is desertion—not to the enemy, but to their homes in the North. The number of men who return, sick of their military experience, is very much larger than the public is aware of, and accounts for the slimness of the muster-rolls of our various armies.

"Some measures should be taken to stop these desertions. We believe our army in Virginia would be 30,000 stronger if all the men who enlisted, and were not killed or sick, were in the ranks. The first deserter has yet to be punished, and yet they are represented in every village in the country."

Great distress is felt by the labourers in the cotton manufacturing districts of England. The workhouses have nearly double their usual number of inmates.

DIPTHERIA.—Diptheria appears to be prevalent at the present time in Halifax. A number of deaths have occurred from it among the youthful portion of the community.—'Hal. Reporter.'

KIRK BAZAAR. — The Bazaar in aid of the funds for the improvement of St. James' Church, in this City, came off at the Temperance Hall, on Thursday last, and we understand was well attended. The articles exposed for sale reflect great credit on all concerned. Want of time and space prevent a more lengthy notice of this interesting affair.—*Isl.*

DROWNED.—In Midgel River, on Wednesday the 16th inst., Albert Dingwell, son of Mr. George Dingwell, was drowned, while bathing in company with some young men. The deceased was 18 years of age, agreeable in manners, dutiful as a son, and affable as a companion. His loss is severely felt, and his untimely end has cast a gloom over the neighborhood.—R. WEEKLY.

GOLD.—Mr. Malcolm McLeod, of Belfast, has just returned from Tangier, and reports that persons work for months and not realize enough to pay their expenses, while others make over $120 per month. The greatest difficulty experienced is the constant accumulation of water, which cannot be drawn off without a steam engine; but it is in contemplation to furnish one for that purpose. There are between 300 and 400 persons at work in the mines, with 3 crushers, 2 of which are steadily employed, crushing at the rate of 6 tons of quartz per day, each. Everything in the way of food, clothing, &c., is in abundance, and fully as cheap as can be obtained in Halifax. Tangier on an average is equal to any of the gold fields yet discovered, and is likely to prove fully as remunerative.—Ib.

DREDGING.—The Dredging machine is making rapid advances up Peake's dock, and in a short time will prepare the place for any common sized vessel to lay at the wharf in deep water, which will enable parties loading or discharging to attend to their business during all hours.

Having understood that the proprietor of the above machine has had offers elsewhere to employ the Dredge, would it not be advisable for the City Fathers to embrace the present opportunity of having the public docks deepened, as in all probability another chance may not offer for many years to come.—Ib.

BLACKWOOD'S MAGAZINE AND THE BRITISH REVIEWS.

L. SCOTT & CO., New York, continue to publish the following leading British Periodicals, viz:—

1
THE LONDON QUARTERLY (Conservative).
2
THE EDINBURGH REVIEW (Whig).
3
THE NORTH BRITISH REVIEW (Free Church).
4
THE WESTMINSTER REVIEW (Liberal).
5
BLACKWOOD'S EDINBURGH MAGAZINE (Tory).

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year They will occupy a middle ground between the hastily written news-items, crude speculations, and flying rumors of the daily Journal, and the ponderous Tome of the future historian, written after the living interest and excitement of the great political events of the time shall have passed away. It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events, and as such, in addition to their well-established literary, scientific, and theological character, we urge them upon the consideration of the reading public.
